

U.S. To Use Same Tact On Keeping Reds Out Of U.N.

WASHINGTON (AP) — The United States is preparing to combat Red China's strongest bid yet for a United Nations seat by using the maneuver which worked successfully in the past two years.

U.S. officials are readying for use when the U. N. General Assembly meets at New York City on Sept. 20 a resolution whose effect would be to rule out for the year any consideration of proposals to replace Nationalist China with Red China in the U. N.

Last year, despite Communist bloc objections, the General Assembly overwhelmingly adopted a resolution which read: "The General Assembly decides not to consider, at its ninth regular session during the current year, any proposals to exclude the representatives of the government of the Republic of China or to seat representatives of the Central People's Government of the Peoples Republic of China."

Smaller Areas May Participate In Defense Jobs

WASHINGTON (AP) — Heeding a protest by Sen. Fulbright (D-Ark) the government had made it easier for areas of small population to participate in defense contracts. Defense Mobilization Arthur S. Flemming advised Fulbright that regulations aimed at getting defense work into unemployment centers have been altered to apply to communities of any size.

Flemming had protested several weeks ago that as the policy then stood no community with a labor force of less than 15,000 could get any share of contracts set aside for areas of high unemployment. The Arkansas senator said he believes the change will correct the situation he had in mind and will "eliminate obvious inequities and discrimination" against small areas.

It has been administration policy to set aside portions of defense department procurement contracts for areas which have labor surpluses. Firms in such areas may negotiate for a part of this set-aside.

Flemming advised Fulbright the policy has been changed to provide that firms in areas not classified by the Labor Department may be eligible to participate in set-asides if they submit certificates from their local employment security offices showing a "substantial labor surplus" in the area.

his news conference last week that Red China still is branded an aggressor by the U. N. That label, resulting from Red China's entry into the Korean War against the U. N. side, is enough to keep the Peiping regime out of the U. N. under the U. N. charter alone.

Many western diplomats expect Red China, in line with its more correct behavior recently, to try to erase that label.

Off and on through the years, the Communists have made more than 100 attempts to get Red China into the U. N. or one of its units. Each time the maneuver has been defeated.

Oregon's Income Tax Collections Total \$56 Million

SALEM (AP) — Oregon's state income tax collections totaled \$56,822,219 in the fiscal year ended July 1, a gain of \$488,056 over the previous fiscal year, the State Tax Commission announced Wednesday.

The collections were 8 millions less than the peak of 1951-52, but they are heartening because the downward trend has been stopped, the commission said.

June collections of \$1,622,812 were almost three times as great as those of June, 1954.

The year's collections included \$42,795,358 in personal income tax payments, and \$14,026,860 in corporation excise tax receipts.

Virtually all of the gain was in the personal income tax receipts. The number of returns filed was 580,474, a new high. This total was up 4,000 from the preceding year.

The commission said the increased collections were brought about by the reduction in federal income taxes. When federal taxes are cut, that leaves Oregonians with more taxable income under the state tax.

SATISFIED

SEOUL (AP) — Sohn Won Il, South Korea's defense minister, returned from Washington Wednesday and said he was satisfied with the results of his negotiations for U.S. military and economic aid. But he added, "When we think of the North Korean military buildup, it is not sufficient."
