## Senator Capehart Defends Ike's Golf, Vacation

WASHINGTON, (AP) — Sen. Capehart (R-Ind.), denouncing Democratic criticism of President Eisenhower's golf and vacations, said today the President "can run his office as well from Gettysburg or Denver as from the White House." He said Eisenhower has "such an unexcelled grasp" of the presidency that he "could spend most of his time in Gettysburg and no criticism would be justified."

Sen. Murray (D-Mont) brought up the subject of the Gettysburg farm yesterday in criticizing Eisenhower's veto Sunday of a bill which would have continued stockpiling of some domestic minerals. The President said the minerals are no longer needed. Murray contended the veto was unjustified and said it resulted from "bad advice and a lack of personal understanding on the part of the chief executive made inevitable by his isolation from the work-a-day world."

Murray said it is "unfortunate" that Eisenhower "has found it necessary to devote so much time to his golf game and his Gettysburg farm." Sen. Neuberger (D-Ore) said in a separate interview Eisenhower probably would carry the Western states if a presidential contest were held today.

## First Petitions Filed Against Pinball Machines

PORTLAND (AP) — Tavern owners and others continued to collect signatures Wednesday on petitions for a referendum on Portland's sweeping new anti-pinball ordinance. The first petitions, containing 2,824 names, were filed with the city recorder Tuesday. The signatures of 12,211 registered voters

are needed to keep the ordinance from going into effect at least until it is voted on in the May, 1956, primary election. The Associated Press reported erroneously Tuesday that the first petitions contained 28,045 signatures.
