

Boxcar Shortage Easing Asked By Labor Union

(Continued from Page One) ing new cars to meet unprecedented demands, having added 46,604 freight cars in the last 10 years, spending \$267 million. In this period, SP gained 35.9 per cent in car ownership and 44.2 per cent in carrying capacity, as contrasted with a slight decrease for Class 1 railroads as a whole.

"Of even greater significance is SP's ownership of box cars used by Oregon lumber shippers. Ownership and carrying capacity of these cars increased better than 40 per cent on SP during the 10-year period.

Outstanding Record Claimed "The SP has an outstanding record in 'keeping them rolling.' Its 1955 percentage of unserviceable cars has been only 1.9, compared with a national average of 5.9 per cent. Figures for 1954 are substantially the same.

"SP gets 70.5 miles per day from each car, while the national average is 48.7 miles. This has the effect of increasing the car supply.

"Its \$700 million capital expenditure program since 1946, despite inadequate return on its investment, leaves 'no doubt as to SP's continuing efforts to provide the very best service within its capabilities.' An expanded fleet of diesel locomotives, modernizing switching yards and generally improved operating services and facilities are major factors in increasing freight car utilization and supply.

The memorandum claims the railroad has a 'vital interest in the welfare of the Oregon lumber industry' and asserts the SP 'unquestionably has been an important factor in the industry's very prosperous operations.' The document states that in Oregon there have been 'chronic shortages' as well as so-called 'artificial' shortages. It is claimed, reached an average of 5,000 cars per day on its lines as late as 1940, with some surpluses since that time.

Compromise Settles Henninger Mart Strike

(Continued from Page One)

meat cutters' health and welfare fund along with union-appointed trustees," Carlson said. He said the new contract provides for a contribution from the employer of \$8.85 per month to the jointly administered health and welfare fund.

The short strike at Henninger's resulted from a controversy based on the employer's insistence they be permitted to pay the \$2 per week as additional wages instead of a contribution to the health and welfare fund.

The union refused and insisted the money go to the insurance program. Under the compromise, the employers will contribute to the jointly administered fund starting Jan. 1. Meanwhile, \$2 per week will be paid directly to employees until that time. This equals the amount of the employers' contribution which will be paid when the health and welfare program becomes effective Jan. 1.

Arrangement Praised "The wage rates to become effective today for journeymen meat cutters will be \$89 for a 44-hour week, plus the minimum above."

Al Henninger, owner of the truck market and chairman of the Roseburg Independent Meat Dealers Employers Committee, lauded the jointly-administered health and welfare fund.

"We are still sincere in believing the meatcutters had a right to buy insurance individually to their particular plans, rather than be forced to join in a standard union health and welfare program. For that reason we offered to pay them an amount to allow them to buy the type of insurance coverage they desired. Our employers had no argument with the union during this controversy relative to the proposed wage scale.

"However, we firmly believe that our employers have a legal and moral obligation to supervise the administration of any health and welfare program which is supported by direct contributions from our employees to this fund."

CDUF Chairman Names Assistants

United Fund Chairman James G. Richmond has named several appointments for chairmanships of different phases of this year's UF fund-raising campaign.

John M. Fleck has been named speaker chairman of the Central Douglas UF. It will be his job to procure speakers for groups to publicize the functions and purposes of the drive. He is a member of the Toastmasters Club of Roseburg.

Mrs. Leila Wimberly has been named as a section chairman. She will be in charge of residence, rural, schools, special gifts and government employees areas of collection.

Another section chairman appointed is Robert G. Hansen. He will cover collections in the fields of automotive, building materials, contractors, department stores and farm equipment.

Nearly 400 Tons Of Beans Picked In North Douglas

The 1955 bean crop of northern Douglas growers totals nearly 400 tons from the slightly more than 35 acres planted, reports L. Claude Buck, Drain.

This week the growers are completing picking up operations as they remove the thousands of bean poles prior to planting cover crops. Last year the growers harvested 250 tons of beans.

Buck reported the harvests from each grower as: Paul Flurry, Yoncalla, 85 tons from 7.3 acres; A. J. Mikowski, Yoncalla, 45 tons from 4.5 acres; Allan McDonald, Drain, 15 tons from 1.5 acres; E. E. Marsh, Elkton, 91 tons from 8.5 acres; and his own of 162 tons from 13.5 acres.

The growers employed nearly 400 pickers. Buck said most of them doubled their 1954 earnings with the average being around \$80 \$90 per picker. They received 2 1/2 cents per pound, plus a fourth of a cent bonus if they remained the entire season.

1956 Plans Uncertain

The forecast for next year is not certain, Buck said. This year the bean men found their crop overlapped the cherry harvest which caused some problems in picking. He expects an increase in production for 1956 might not be made.

The five men expect to be busy during the winter months "planning better methods of growing and picking."

Meanwhile, they're busy removing the seven-foot poles for use at a later date.

Buck is removing them mechanically from the ground with a machine designed by a Eugene firm. He says it is saving "quite a bit of time."

In describing the machine the Drain Enterprise this week said it consists of eight aircraft tires, four on each side, stacked together in two piles. Each pile operates in a different direction. Two wheels and an axle make the machine portable.

A tractor pulls the machine down a row of poles. Each pole is placed 12 inches in the ground. When a pole comes in contact with the whirling rubber tires, it is jerked from the soil and thrown into a trailer pulled behind the machine. Buck seemed pleased with the operation.

Catholic Clergy Changes In Douglas Announced

Two clerical changes have been made for Douglas County by the Catholic Archbishop of Oregon Edward Howard. The changes are effective today.

The two Catholic priests involved are the Rev. Daniel O'Connell and the Rev. Herman Hermann. Father O'Connell has been transferred from McMinnville to Myrtle Creek, and Father Hermann of Mercy Hospital in Roseburg has been named new chaplain of the Marian Home in Sublimity.

PRUNE HARVEST STARTS

McMINNVILLE (AP) — The prune harvest has started here. It is expected to be in full swing in a few days. Prices are expected to be the same as last year with a crop slightly smaller than in 1954.

Dr. James Millar Slated To Speak At YMCA Meeting

Dr. James Millar, a director of the Good Citizenship Foundation and pastor of the Roseburg Presbyterian Church, will be the featured speaker at a Roseburg YMCA meeting Thursday, Oct. 6, at 7:30 p.m. at the First Christian Church.

Dr. Millar has been slated to discuss "The intricate problems of world affairs, their variety and complication," according to YMCA President Richard Turley.

Dr. Millar will also report on his trip to the YMCA World Centennial Conference in Paris, France, last summer. While on the continent, Dr. Millar visited a number of outstanding people to gain further insight to the social, economic, political and religious problems. Some 10,000 delegates from 78 countries attended the conference at Paris.

Other reports on the YMCA World Youth Conference at Paris will be given by Charlotte Boyles and Joleen Lyda. These girls, with Carmen Ford, attended the conference and traveled through seven countries.

The two girls will present illustrated talks and report on their experiences.

The meeting is public. Representatives of the YMCA board, Hi-Y and Tri-Hi-Y clubs of the high school and others will attend. The Junior Hi-Y Club will provide ushers under the direction of President Barney Wimer.

Nazarene Church Schedules Speaker For Monday Night

The Rev. Norman Oke of Kansas City, Mo., will speak at a special Sunday School rally to be held at the First Church of the Nazarene Monday at 7:30 p.m.

The Rev. Mr. Oke is the son of a circuit-riding Methodist preacher. He attended Northwest Nazarene College at Nampa, Idaho. Since his graduation he has served as pastor and district superintendent for the Church of the Nazarene. At the present time, he serves as Book editor for the Nazarene Publishing House in Kansas City.

Others touring with the Rev. Mr. Oke are the Rev. W. D. McGraw, superintendent of the Oregon Pacific District of the Church of the Nazarene; and the Rev. Forrest Hill, church school board chairman and former pastor of the Roseburg church.

Pastors and laymen from Myrtle Creek, Eugene, Springfield and Oakridge, as well as the public, are invited to attend.

Vital Statistics

Marriage Licenses Issued POOLE-STRITZKE — Doyle Edwin Poole and Martha Lee Stritzke, both of Roseburg. LEBAU-FIES — Henry F. Le Beau and Jane L. Fies, both of Roseburg. HOWELL-GILLILAND — Robert E. Howell and Betty J. Gilliland, both of Roseburg.

Divorces Granted GREEN — Lois from Melvin Green. Plaintiff to have custody of one child, \$50 per month for support of same. TOLLEFSON — Ruby Loueva from Alfred L. Tollefson. Plaintiff's former name, Hamilton, retained.

PATTISON — Maude C. from William Howard Pattison. HOUSER — Leland E. from Doris R. Houser, through guardian Mary Rose. Defendant given half interest in real property, judgment of \$366.92, \$25 per month support, and her maiden rose of Rose is restored.

BRIMHALL — Margaret from Donald Brimhall. Dismissal MURPHY — Gladys vs Joe Murphy. Suit dismissed. Divorce Suits Filed COSIO — Bertha May vs Ramiro Cosio. Married Aug. 26, 1946, at Vancouver, Wash. Cruel and inhuman treatment charged. Plaintiff seeks custody of three children, reasonable sum for support. ULM — Enid M. vs Edward C. Ulm. Married May 28, 1950, at Petersburg, Va. Cruel and inhuman treatment charged. Plaintiff seeks custody of one child. ZELLE R. — Charles W. vs Beulah Mae Zeller. Married Sept. 10, 1924, at Fresno, Calif. Cruel and inhuman treatment charged. Plaintiff seeks confirmation of property settlement.

LAMPERT — Cecil Avis vs Keith Lamont Lampert. Married Dec. 19, 1954, at Sutherlin. Cruel and inhuman treatment charged. Plaintiff seeks restoration of maiden name, Doudna.

Linfield College Heads To Address M. Ck. Workshop

Dr. Harry Dillin, president of Linfield College, will be featured speaker at a Southern Douglas County teachers' workshop at Myrtle Creek Monday.

Schools throughout the southern part of the county will close for the day. Schools involved are: Camas Valley, Tenmile, Lookingglass, Dillard, Douglas High, Tiller, Days Creek, Glendale, Riddle and Myrtle Creek.

The teachers will meet in the Myrtle Creek High School gymnasium at 9 a.m. when Dr. Dillin will deliver his address.

After music and announcements, teachers will adjourn to group sessions at 10. Audio-visual aids will be stressed as part of the professional technique. Consultants present will be: Dr. Curtis Reid and Milton Grassel, visual instructors from the State Dept. of Higher Education; E. Bernice Tucker, assistant superintendent of Multnomah County public schools; and Mrs. Cleo Peck, audio-visual coordinator of the South Powellhurst schools in Multnomah County.

Also included on the day's agenda is a field trip to the Hanna Nickel Smelting Co. operation. It will be made after lunch following a report by the mine superintendent, chief engineer of the smelter and personnel manager.

Olive Brown, chairman of the planning committee for the Monday session reports that a follow-up course in audio-visual aids will be held in Myrtle Creek.

Eisenhower Back At Government Helm

(Continued from Page One)

sonably good for full recovery within two months.

The expectation is that the Chief Executive may fly back to Gettysburg, Pa., for further recuperation at his farm home. Hagerly said, however, there has been no discussion on this possibility with the President. Doctors issued this 7 a.m. bulletin on his condition: "The President had a good night's sleep. He slept continuously from 10 p.m. to 6:20 a.m. "He feels relaxed and comfortable."

"His temperature is normal. His pulse and blood pressure continue to be stable and satisfactory. "The President's breakfast consisted of apple sauce, oatmeal with skim milk, poached egg, a strip of beef bacon, a slice of whole wheat toast and a glass of skim milk."

BOSTON (AP) — Dr. Paul Dudley White, eminent heart specialist who was called to Denver after President Eisenhower's heart attack, last night said "I would have no objection whatsoever to his running again."

Dr. White's statement was issued in Boston because of "possible misinterpretation" of a statement he made earlier Friday on the NBC television show "Today."

During the program, Dr. White said that if he were Eisenhower he "wouldn't want to run" for a second term.

Dr. White's voluntary statement Friday night said: "If the President has a good recovery, as he seems to be on the way of establishing, and if he desires to continue his present career — which would be, of course, to the great benefit of this country and the world at large — I would have no objection whatsoever to his running again."

"But that remains still for the future to decide."

MOTEL OPEN HOUSE The new El Camino Motel, located two miles south of Yoncalla will hold open house Sunday from 2 to 5 p.m. It is located at the cloverleaf of the recently-opened stretch on Highway 99.

Boxcar Shortage Easing Asked By Labor Union

(Continued from Page One)

two courses of action which have been followed in some instances in the past. One would be a temporary waiver of the marketing agreement. This was the procedure followed last year from Sept. 27 until Christmas — 90 days — to open up more timber to mills caught short as a consequence of the lumber strike.

Under this temporary waiver, McKay authorized sales of up to 46 million board feet of timber in the South coast marketing area to mills in the nearby Siuslaw and Douglas areas, but only 3 million board feet was sold across the marketing line.

Seals Bids Alternative The second possibility being considered by BLM is an emphasis on a January 1953 regulation by which surplus timber in one area is made available to mills in other areas. It would work like this: If BLM receives no bids in a timber sale from mills in the marketing area, then any operator can submit a sealed bid for that timber, providing his bid equals or exceeds the appraised price of the timber set by BLM. That sealed bid must remain pending for five days. If no one else bids in that period, the timber is his. If other bids are submitted within five days, then BLM sells the timber to the highest bidder at auction. This procedure under the 1953 regulation can be followed at any time for the benefit of outside mills within 90 days of the original sale date.

The first alternative, waiving marketing restrictions temporarily, would put all operators on the same basis in bidding for timber. BLM officials point out this would tend to increase competition and jack up prices, thereby increasing timber sale revenues for the government and the 18 O&C counties.

The second alternative, the 90-day regulation, would give the mills in the marketing area first crack at all sales and open them up to outside operators only in instances where local mills passed up the sale entirely. BLM officials say they don't know whether they will have more timber for sale from the Smith River area than local mills can consume, but they say this procedure has been followed in numerous cases the past two years in the Southcoast marketing area.

Woolley emphasized that he isn't so much concerned about competition and the resulting price as the government's timber bring as he is in preserving good forestry practices for the O&C lands.

"We want to practice good forestry without upsetting our allowable cut," said the head of BLM. One of the reasons for the demand from Lane County is that BLM is holding back an opening up the Esmond Creek access road, which will be completed in November, because cutting there would push Siuslaw "way over our allowable cut," said Woolley.

Deer Hunting Season Opening Lures 225,000

The deer-hunting season opened in Oregon Saturday with what was expected to be a record number of hunters in the field under sunny skies.

Rain storms failed to materialize, and all roads into the hunting areas were open. Foresters warned hunters that fire danger continues in many parts of Central and Eastern Oregon.

With fair weather instead of the clouds and rain predicted earlier, game officials said the number of hunters turning out for the opening weekend might go as high as 225,000. The previous high was 212,000 last year.

Alan Graves Opens Music & Art Co. In Roseburg Today

ALAN GRAVES . . . store opens here

Graves Music & Art Co., Eugene, opened its new Roseburg store today. Located here at 432 SE Jackson St., it is similar to the Eugene store.

Alan Graves has moved to Roseburg to manage the new store. The company is owned by Mrs. Eva S. Graves and her two sons, Alan and Brian. They have operated the Eugene firm for 12 years.

The Roseburg store will carry a complete line of musical instruments: Hammond organs, Magnavox high-fidelity record players, radios and television, and Winter, Kranich and Bach pianos.

Other music supplies also are available, as well as art supplies, framed pictures, prints and reproductions. Custom picture-framing is a service offered by the store. Graves announced the company will offer organ lessons soon. It also intends to form a Hammond Organ Society similar to one in Eugene. Students desiring instruction on the organ are being enrolled now.

Evangelist Slated For Pilgrim Church

Evangelistic services are being held at the Pilgrim Community Church of North Roseburg tonight, except Monday at 7:30 through Oct. 9.

The Rev. William S. Deal of Salem, is leading the services. He is a graduate of Taylor University, and is now district superintendent of the Pilgrim churches in the Pacific Northwest District. The Pilgrim Church is located 2 1/2 miles north of Roseburg, next to the Log Cabin Grocery. The Rev. James Rockholt is the pastor.

LIONS SEE MOVIES Motion pictures of a recent trip he and his wife made through the southwest were shown by Phil Harth at the Roseburg Lions Club meeting Thursday night. The pictures included scenes of Death Valley, Grand Canyon, Las Vegas, Phoenix and other Arizona areas and San Francisco.

It was announced that next Thursday night's program will be district governor's night. On Oct. 13, Rep. Harris Ellsworth will speak.

TWO CARS COLLIDE A two-car collision at Oak Avenue and Stephens Street Friday night caused minor damage, according to Roseburg police. George Sunberg, 55, Rt. 3 Box 1365, driver of one of the cars, was cited for having no operator's license on his person. Driver of the other car was John Charles Nasby, 48, Rt. 1 Box 1015.

LOCAL NEWS

Go To Portland — Mr. and Mrs. Sam Kendall of Roseburg left today with Dr. and Mrs. M. E. Smith of Cottage Grove for Portland to enjoy the U. of O.-University of Washington football game. They will return to their homes Sunday.

Visit in Eugene — Mr. and Mrs. Carl Coleman, 826 S. Main St., drove to Eugene Sunday to take their daughter, Nancy, back to the University of Oregon, where she is a freshman. While in Eugene, they visited Mr. Coleman's niece and family, Mr. and Mrs. Thor Hansey.

Doing Practice Teaching — Jim Sylvester, son of the Rev. and Mrs. Walter A. Sylvester of Roseburg, and who is a senior at Concordia Teachers College in Seaward, Neb., is doing practice teaching this semester of fifth grade students. He has 22 students in a social studies class.

To Klamath Falls — Mr. and Mrs. Roy Cain of Roseburg took their guests, Mrs. Herbert Pinelli and daughter, Susan Faye, back to their home in Klamath Falls Friday. Mrs. Pinelli and daughter have been visiting here the last week at the Cain home at 446 Benson St.

Go To Portland — Mr. and Mrs. Byron Randall of Roseburg left Friday for Portland to remain over for the U. of O.-University of Washington football game. The Randalls' daughter, Cindy, a sophomore at University of Oregon, is a member of the Rally Squad, which went to Portland for the game.

Rail Engineers' Strike Halted By Court Order (Continued from Page One) ing board. Appointment of an emergency board by President Eisenhower would delay the strike 60 days.

However, the National Railway Mediation Board announced in Washington Friday it would not intervene. The board said its decision was made under a policy of tightening up on recommending emergency boards.

The Indiana Harbor Belt line, which runs from Hammond, Ind., to Franklin Park, a north-west suburb, handles 1 1/2 million freight cars a year, connects with 34 railroads and serves 600 industries. An estimated 80 per cent of all through Chicago freight traffic is handled by the carrier.

PITTSBURGH (AP) — Westinghouse Electric Corp.'s offer of a 16 per cent wage hike over a 5 year period was turned down Saturday by a second of four unions.

The independent United Electrical Workers, representing 12,000 employees, joined the CIO International Union of Electrical Workers, with a 44,000 membership, in rejecting the proposal.

The company made the same offer Friday to two other unions — the Federation of Westinghouse Independent Salaried Union, and the AFL International Brotherhood of Electrical Workers.

The reaction of the AFL and the salaried unions was not immediately announced and union officials were not available for comment.

James J. Matles, who is heading the UE negotiators, termed the offer "far below wage settlements in other industries and inadequate to meet the needs of Westinghouse workers."

SAN FRANCISCO (AP) — AFL Motor Coach Employees and Pacific Greyhound Lines reached agreement Friday night on a new contract for some 300 office workers.

The pact, which the union ratified, included average pay increases of \$12 a month for the first year and \$8 monthly for the second year.

Sutherlin Church To Honor Teachers

The theme for the Sunday services at the Sutherlin Christian Church will be "Education Sunday."

During the morning Bible school hour, teachers of the school will be given recognition. Prof. Richardson has chosen "Teaching Them To Observe" as his sermon topic for the morning worship service.

Sutherlin public school teachers will be invited guests at the 7:30 p.m. service Sunday. Several teachers will participate in the program.

An informal reception will be held in the church at 8:30 p.m., Sunday. Refreshments will be served. The public is invited to attend all of the services.

Eight Landing Ships Due To Arrive Saturday SEATTLE (AP) — Eight landing ships (LST's) are due to arrive here Saturday from the supply expedition for the radar line across the Arctic. They will follow a single LST arrival Friday.

The Saturday vessels will bring about 900 men back from the Arctic, described by the Seattle Post of Embarkation as the largest group of Army Transportation Corps personnel yet to return. Most of them are members of a unit at Ft. Lawton.

CLOTHING STOLEN Bill Wright, 705 SE Lane Ave., complained to city police Friday that clothing was stolen from his car, parked near his house, sometime the previous night. A suitcase and traps also were taken.

FIRE AT RESTAURANT Grease which caught fire on a range at the Jiffy Lunch, 820 SE Stephens St., was extinguished at 6:50 a.m. today by Roseburg firemen. There was no damage.

YOUR BODY

ROSEBURG, OREGON — These health articles are written and paid for by Dr. B. A. SMITH, Chiropractic and Naturopathic Physician, 1500 Garden Valley Road, in the interest of public health and to help you understand the body function. Look for these informative articles every Saturday.

The pancreas contains certain groups of cells which together are known as the Islands of Langerhans. These cell groups are a very important part of the pancreas because they form the protective agency against diabetes.

The pancreas produces an external and internal secretion. Only the internal secretion is a hormone known as insulin. An important fact about the external secretion of the pancreas is that it provides enzymes and chemical substances which break down starches, fats and proteins into soluble form, so that these foods can be absorbed.

Insulin, the internal secretory hormone of the pancreas, maintains the normal level of sugar in the blood and aids in the conversion of soluble sugar or glucose, into an insoluble sugar known as glycogen. The actual process of converting the glucose into glycogen takes place in the liver and muscle cells.

Normal blood sugar in the fasting individual is 100 to 120 milligrams per hundred cubic centimeters of blood. When the blood sugar rises beyond 180 milligrams per hundred cc. and rises above the kidney threshold and is excreted in the urine, we may assume that the individual has a tendency toward diabetes. If this condition exists persistently over a period of time there is definite evidence of a diabetic involvement. (M.D. Adv.)

When energy is needed and demand for greater sugar consumption arises, the liver glycogen is reconverted into soluble sugar or glucose. This liberation of soluble sugar into the blood stream replaces the sugar used up during activity and maintains the normal sugar level. It can readily be seen that both insulin and liver action play an important part in the maintenance of normal sugar level. It has been observed that individuals with diabetes who develop a liver disease such as cirrhosis or hardening of the liver, frequently show spontaneous improvement of the diabetic involvement. Sugar metabolism, besides being so greatly influenced by insulin and liver function, is also dependent upon a number of normal glandular functions, especially that of the pituitary gland and the adrenals.

Normal blood sugar in the fasting individual is 100 to 120 milligrams per hundred cubic centimeters of blood. When the blood sugar rises beyond 180 milligrams per hundred cc. and rises above the kidney threshold and is excreted in the urine, we may assume that the individual has a tendency toward diabetes. If this condition exists persistently over a period of time there is definite evidence of a diabetic involvement. (M.D. Adv.)

Advertisement for Sayre Volkswagen Sales & Service, featuring a grand opening on Friday, Sept. 30. The ad lists the address as 854 S. E. Stephens and provides a phone number, ORchard 2-2521. It also includes a list of features for the Continental Radiant Glassheat system, such as dust-free heat, no maintenance required, constant temperature, no fans, easy installation, and no basement required. The financing plan is 'Nothing Down, 36 Months to Pay' with a 5-year guarantee and a Lansing-Oliver logo.
