BOOK ON DOUGLAS COUNTY made its debut Thursday night at meeting of the County Planning Commission. J. H. Hissett, planning consultant, left, presents first copy of "The Character of Douglas County" to O. J. Fett Jr., commission chairman. (Paul Jenkins picture).

Consultant Presents Book To Planning Commission; Details Douglas County

Did you know? That the amount of waste and sawdust from most logs totals nearly twice the amount of solid wood produced?

That Douglas County's population may double in the next 15 years?

That Douglas County retail food sales surpassed 20 million dollars last year?

Those are a few of thousands of bits of information which can be gleaned from a new publication by the County Planning Commission.

A jam-packed booklet, "The Character of Douglas County," made its debut Thursday night at a meeting of the commission in the courthouse annex in Roseburg.

The 66-page publication was distributed to commissioners and presented by J. Hissett, planning consultant, to the commission. Bell and the staff of the planning office produced the book.

In introducing the publication, Bell said it will benefit the people of the county as a whole and will be invaluable to many as a reference book.

This is a county with a different but shining future, Bell pointed out. It is different because its whole character evolves around timber production.

If handled properly, timber can be more valuable than gold to Oregon, Bell said, but at present the thing most valuable to the county is being treated the worst. The "cruelest note" in the new book, he said, is the study of wood waste.

Resident timber, the county could have a good future in production of small fruits and vegetables, mining and other fields, Bell believes.

"I hope this report, if it does nothing else, will create an interest in what can be produced" in the county, the consultant said.

He quickly reviewed chapters on history, weather, topography and general land use, agriculture, minerals, industry and transportation, trade, electric power, recreation and population. The booklet also contains aerial maps and tables on everything from weather to how the county land is being used.

Copies of the study will be distributed by the commission to libraries, schools, county offices, chambers of commerce and so forth. It also will be on sale at the planning office at \$1 per copy.

In The Day's News

By FRANK JENKINS

Bread and butter news: The Dun & Bradstreet wholesale food price index dropped this week to its lowest level since the start of the Korean war. At \$6.05 it was down 9.8 per cent from a year ago and stood at the lowest point since June 27, 1950.

The index represents the total cost at wholesale of one pound each of 31 basic foods.

What does it mean? It means that the wholesale food markets are slowly following the primary food markets DOWNWARD.

We've been spending a lot of time and thought ever since the war on how everybody can get MORE MONEY — more wages, more profits, etc.

The time is nearing when we will need to spend some time and thought on HOW EVERYBODY CAN GET MORE THINGS FOR THE MONEY HE HAS TO SPEND.

Why worry about that? Well, the market experts told us the other day that American cotton is getting so HIGH PRICED that the time may be near when the rest of the world will produce

Israel, Egypt Border Conflict Rages

10 Egyptian Soldiers Slain, 20 Captured

JERUSALEM, (AP) — An Israeli military informant said 10 Egyptian soldiers were slain and 20 captured early Friday by an Israeli force which stormed and captured an Egyptian frontier post. Israel said the raid was in retaliation for an earlier Egyptian assault on an Israeli police post.

As this latest clash flamed mounting tension in the Middle East, U. S. Secretary of State Dulles and British Foreign Secretary Macmillan conferred in Geneva on Palestine problems.

Israeli sources in Geneva said the United States has promised to consider a list of arms wanted by Israel to counter Egypt's growing arsenal, bought from Communist Czechoslovakia.

The Israeli informant gave this account of Friday's raid:

In retaliation for an Egyptian attack Tuesday on an Israeli police post at Beerovot, in the demilitarized El Aza-Nazana zone, Israeli forces—which Cairo said was a battalion strength—attacked just before 2 a.m.

The Egyptians, housed in three police buildings at the camp—a remote frontier post normally accessible only to camel-riding nomads—were exchanged for 25 minutes and some Egyptians fled. Finally the remaining Egyptians surrendered and the Israeli raiders returned to their own base at 3 a.m. Seven of the captured Egyptians were wounded.

Logger Suffers Heart Attack In Woods Thursday

An apparent heart attack snuffed out the life of Edward Dehob, 63, while he was working on his log as a faller for the Little Twig Logging Co. Thursday afternoon, according to coroner L. L. Powers.

The company is working 10 miles northeast of Days Creek. Powers said the McMinville man had complained of chest pains on Wednesday and had been advised to "take it easy."

Then, Thursday, he began felling a tree and was last seen by fellow workers at 2:10 p.m. He was not seen again until shortly after 4 when he was missed and a hunt started for him. His body was found at the foot of the tree he had been cutting. He had already made one cut and had apparently turned off his power chainsaw and stepped back when the seizure struck, Powers said.

Dehob had worked for the company in the woods for three summers, but he had made it a practice to return to his home in McMinville each winter.

He is survived by his wife, Eva of McMinville and a daughter, Gail Redmond, also of McMinville.

The body was removed to Ganz Mortuary, Myrtle Creek, and will be shipped to McMinville for burial.

Volunteer field representatives responsible for liaison with chapters in western Oregon also attended the session, in which the principle topic was "the importance of public information in the development of a community relations program."

Mrs. Roy Young, second vice chairman of the Douglas County Chapter, welcomed the guests. The meeting was conducted by Robert Williams, field representative from Portland, and O. C. Duckett, public information director from San Francisco.

Katzmeyer Released On \$150 Bail Thursday

Fritz Katzmeyer, 44, of SE Jackson St., was released on \$150 bail Thursday after his arrest by Roseburg police on a charge of hit-run driving.

Complainant was Gerald Hembree, SE Flood Ave. He said about \$50 damage was done to his car when it was struck while parked. A neighbor wrote down a license number which the Katzmeyer car bears, police said.

Katzmeyer was to appear in municipal court today. The hit-run incident occurred last weekend.

Tool Box, Other Items Stolen From Garage

A tool box full of miscellaneous tools and two wheels and tires were stolen from his garage on Skyles Avenue, Frank Guse, 1351 SE Mill St., complained to Roseburg police Thursday.

Police didn't place a valuation on the loss. Guse told officers that the stolen tools belong to a friend.

Board Of Health Taking Measures To Combat Polio

PORTLAND, (AP) — The Oregon Board of Health will take emergency measures to combat a polio epidemic that has taken three lives in Malheur County in southeast Oregon.

The state board moved quickly when the Malheur County health officer, Dr. Grant Baker Hughes, appealed for help Thursday.

A polio team will be sent there, and 100,000 cubic centimeters of gamma globulin will be requested for mass inoculations in the county.

That lightly populated county has had 35 cases this year, seven of them in the last nine days. All the new cases have been in Nyssa. That town of 2,500 has had 25 cases in two months.

The county health officer said none of the stricken persons had received polio vaccine. Dr. Harold Erickson, state health officer, said he will recommend polio vaccine shots to follow four to six weeks after the gamma globulin inoculations.

The latest death was in a hard-hit family at Nyssa. The victim, Jo Ann Jones, 12, who was taken to a Boise hospital, where she died Wednesday night. Also stricken by polio are her two sisters and her father, Preen Jones.

Hughes complained that county residents were not recognizing the seriousness of the situation, and said he "would like to blast Nyssa citizens out of their lethargy."

He said children who complained of sore throats or of feeling ill otherwise had been allowed to go to school.

He also said there "must be some reason, however obscure, why Nyssa is the hot spot in the current polio epidemic."

Hughes suggested a study of sewage and garbage disposal, control of flies and other health matters at Nyssa.

The state health officer said he will send to the county Dr. Samuel B. Osmond, state epidemiologist; Mrs. Vivian Runde, public health nurse; and a sanitarian. The county has been without a sanitarian since last fall.

Couple Pleads Guilty To Lewd Cohabitation

Two 24-year-old Roseburg people, Delmar Lemuel McKay and Velda Evelyn Holt, pleaded guilty to lewd cohabitation Thursday when arraigned before District Judge Warren A. Woodruff.

The judge handed down 30-day jail sentences, then suspended execution of sentence and placed the pair on six-month probation.

McKay also was fined \$250 after he pleaded guilty to driving while under the influence, and the woman was fined \$25 for being drunk on a public highway.

The charges grew out of an accident the night of Oct. 1 on which their car hurtled over a bank on the North Umpqua Road near Little River Road. Both were seriously injured in the crash, and in court Thursday the man and woman still had arm in casts.

Complaints against the pair were filed by Joseph A. C. Haystead, state police officer, following investigation by that office.

County Library Board To Journey To Reedsport

Douglas County Library Board members will journey to Reedsport Tuesday. They'll meet with library board members of that city and Winchester Bay in the Reedsport Public Library.

Purpose of the session is to discuss common problems and to plan for the time when the county library will initiate service.

Earlier this week county Librarian Carol Trimble met with the Sutherland Library Board.

Nyssa Man Is Second Bird-Hunting Victim

NYSSA, Ore. (AP) — The second gunshot death of the bird-hunting season was recorded Thursday night in Oregon.

Jimmy Points, 20, Nyssa, died in the Malheur Memorial Hospital four days after being wounded by his own shotgun near Nyssa.

Witnesses said Points gun went off when he broke its stock while disciplining his dog on a pheasant hunt.

Besides the two gunshot deaths in the bird season there also were four gunshot fatalities in the Oregon deer-hunting season.

Defense Tries To Tear Down Wolf's Story

McMINNVILLE, Ore. (AP) — The defense took up the job Friday of trying to tear down the state's murder case against Marjorie Smith, 34, accused of doing away with her husband with 12 sticks of dynamite.

When the trim Mrs. Smith would take the stand was not known. Defense attorney Bruce Spaulding has indicated she will testify, but has not indicated how long his case will take or when she will go on.

Spaulding's job will be to discredit the story of Victor Lawrence Wolf, 45, electrician and sometime handyman about the Smith home.

Wolf testified that Mrs. Smith talked him into agreeing to wire the fatal dynamite into the car of attorney Kermit Smith, 34, in Portland last April. Her goal was to get Smith's estate, Wolf said, adding that she promised to go away with Wolf to Alaska if he would do the job.

The state concluded its case late Thursday after producing several more witnesses, including one bit that appeared to be an important piece of corroboration for Wolf's story.

Wolf had said several schemes for killing Smith were considered before the dynamite blast was tried. One of them involved getting another man to drive a car while Wolf shot Smith with a rifle. Wolf said Mrs. Smith told him she thought she knew the man for the job, but was unable to get him to do it.

Thomas Adrian Marlin, 38, a Sherwood, Ore., horsemeat dealer, said he was the man. He testified he had known Mrs. Smith when they worked in a Portland shop.

Marlin said he met her at a restaurant. At the meeting, he said, she offered him "a lot of money" to drive the car.

"My God, are you back on that again?" Marlin said he replied, "If you can't get along with the guy, why did you get married?"

The Smiths had remarried Feb. 4 after a brief period of divorce. Marlin said he rejected her proposal, and that she then asked him to get her some dynamite. He said he refused to do that also.

It has been the defense contention that Wolf killed Smith in a deluded belief that the woman wanted to die. She has called Wolf's story a "pack of lies."

Dewey Says West May Face Crisis

NEW YORK (AP) — Thomas E. Dewey, recently returned from a world tour, says the West might be facing another crisis in its relationship with the Communist bloc.

The former New York governor said that the Communist bloc is a breathing spell from direct threats of aggression.

Dewey praised the military strength of the United States, saying it is almost impossible to see the change that has occurred in our position in just the past three years.

"We are no longer in peril of being whipped by a third-rate power in Korea or even by the military might of Communist China, thrown into balance," he declared.

\$144,334 Asked In Suit Filed In Lane County

BOISE, (AP) — A couple from Eugene, Ore., filed a \$144,334 damage suit Thursday because of an automobile accident in which the Eugene woman was injured last June.

Mr. and Mrs. Michael F. Hannifin filed the suit in Ada County District Court, asserting Mrs. Hannifin was injured because William Ellitree drove from a parking area into the path of a car in which Mrs. Hannifin was a passenger. This happened on U. S. 39 a mile west of Mountain Home. The suit said Mrs. Hannifin was in a car driven by Heleynne Young.

TO WORK FOR ADLAI

ALBANY, N.Y. (AP) — Roger Tubby, presidential press secretary in the last few months of Harry Truman's administration, will assume a similar position with Adlai Stevenson next week. Tubby, 44, announced that he had quit as information chief of the New York State Commerce Department. Gov. Averell Harriman said, "I wish him well. I know that he will do a good job for Mr. Stevenson."

COAST MAN JAILED

Rudolph Pazandak, 49, Reedsport, has been lodged in the county jail to serve a 30-day sentence imposed by Judge of the Peace Robert Goodwin. Pazandak also was fined \$25 after he pleaded guilty in the court to a charge of vagrancy.

GEORGE TOMLINSON seeks candidates

Young Republicans Encouraged To Seek Political Offices

Oregon young Republicans are encouraging their members to seek public office.

In line with that campaign, the president of the Oregon State Young Republican Federation, George K. Tomlinson, made a quick visit to Roseburg Thursday.

Tomlinson, a Portland attorney, discussed GOP matters with several young Republicans at the Hotel Umpqua.

He told them the local YR club is the "largest outside of the Willamette Valley." He believes more persons from Roseburg should be holding state, western and national offices in the YR organization.

The slight, handsome lawyer, 32, is busy preparing for an 11 western states Republican conference in Portland Nov. 3-5. The array of guest speakers of the event is impressive. It includes Labor Secretary James Mitchell, Interior Secretary Douglas McKay and U. S. Treasurer Mrs. Ivy Baker Priest.

In less than two weeks the state YR convention will get under way in Portland. Several Douglas County residents will have a share in planning and chairing the event which will be held Nov. 11-13.

Mrs. Charles L. (Emma Leah) Handy is co-chairman of the state federation, and Fred Bernau is local YR club members. The latter is secretary of state post.

Tomlinson said two young state Republicans are now being encouraged to seek state offices. They are Sen. Mark Hatfield, Salem, and Polk County Dist. Atty. Wally Foster. Hatfield is urged to file for the secretary of state post.

Foster for the attorney general ship.

Roseburg is slated to host more out-of-town young GOP members. Saturday afternoon Jim Hatfield, Salem, and Miss Marjorie Wooten, Portland, will confer with several local YR club members. The latter visit here is one of several planned throughout the state to extend personal invitations to the state convention.

Life Without Father Won't Be The Same Now

BIRMINGHAM, England (AP) — The 28-year-old twins Marjorie and Mildred Hall told a coroner their life with father was "rather peculiar."

They said their father Frederick, 70, never in their lives had let them stay up at night later than 6:30 p.m. use makeup, see a movie, have boy friends or wear anything on their feet but boys' shoes and socks.

He was found gassed Wednesday in the kitchen where he slept on a pile of newspapers. The coroner returned a verdict of accidental death.

"We are going to find life quite a change without father," said Mildred. "I think he was disappointed because we were not boys."

TEMPERATURES SEASONAL

The five-day weather outlook, as forecast by the local weather bureau, schedules temperatures about seasonal, with maximums ranging between 55 and 65 degrees and minimums in the high 30s and low 40s. A little more precipitation than average is expected, mostly occurring as showers at the beginning of next week, with totals ranging from 1/2 to 1 1/2 inches.

DRIVER DENIES GUILT

Charles Cecil Cason, 39, Myrtle Creek, was released after \$500 bail bond Thursday after he pleaded innocent before District Judge Warren A. Woodruff to a charge of driving while under the influence of liquor. Cason was arrested by a state police officer.

Faure Again Winner In Vote Of Confidence

PARIS (AP) — Premier Edgar Faure today won a vote of confidence from the French National Assembly, clearing the way for a quick debate on moving up national elections to the month of December. The vote was 271 to 259.

The victory was the third for Faure this month in the bumpy Assembly. Each time he had been put in a difficult position and had seemed to be on the point of defeat.

Friday he was solidly opposed by Socialists and got practically no help from the Gaullists, but by pulling the centrist parties tightly together, the premier managed to survive his toughest test.

The latest vote was on the government's general policies. The resolution adopted merely "takes note" of statements by Faure and Finance Minister Pierre Pflimlin on financial and economic policies which have guided the government and the results obtained. Rejected were Socialist and Communist motions expressing no confidence in the government.

The real issue was the question of moving up general elections to December, as Faure has requested. The next regular election of deputies is scheduled for next June, but Faure insists important decisions must be taken in the first six months of 1956 which require continuity of the Parliament to back the solutions reached.

Many government opponents say they cannot support new elections until the method of casting ballots has been changed. Faure says that he is willing to let the deputies decide on a change in the election law but he has doubts that any agreement can be reached on a new system.

300 Pints Quota For Next Visit Of Bloodmobile

A quota of 300 pints has been announced for the two-day visit of the Red Cross bloodmobile next week in Roseburg.

The bloodmobile will be stationed at the Elks Ballroom Wednesday from 3 to 7 p.m. and Thursday from 10 a.m. to 2 p.m. Blood donors need make no appointments. Blood Recruitment Chairman Mrs. Walter Brittle said a large group of local volunteers and trained personnel from Portland Blood Center will be on hand to speed processing. She said there will be no long waits for anyone.

Thursday Mrs. Brittle said 600 postcards were mailed to donors and those who have signed to donate through PTA or club groups. She said the change from the usual phone call system to cards was made in hopes persons receiving them would use them as reminders to donate blood.

The chairman termed the bloodmobile visit "as vital as a call for a walking donor." Blood quotas, she concluded, are "based on actual blood needs in our hospitals."

Men Fare Second Best In Raid On Dormitories

EUGENE, Ore. — The men definitely came off a sudden, second-best in a raid on University of Oregon women's dormitories Thursday night.

Some 200 of them started out on the raid. They got wet in the rain that was falling at the time.

Then they found the dormitory doors locked, and they got even wetter for the women began pelting them from above with water bags. At one dormitory the women even put a garden hose into use.

Dean of Men Ray Hawk said the men got into only one building, and there got no farther than an inside stairwell. They fled from that when staff members appeared, he said.

To cap it all, three of the men were nabbed for rowdy language when college officials broke up the affair. The three faced suspension hearings Friday.

Richest Pickets Strike Richest Corporation

NEW YORK (AP) — The world's richest pickets struck the world's richest corporation yesterday.

Eighty-four Cadillac salesmen, with an average income of \$17,000 a year — and some making as much as \$40,000 — struck General Motors Corp., which will probably net a billion dollars this year — a record figure for any business enterprise.

The issue in the walkout is job security. The salesmen recently joined the AFL Brotherhood of Teamsters and the union promptly opened negotiations with the Cadillac Division of General Motors.

9-Point Plan For Security Is Submitted

Molotov Counters With Proposal Which Would Delay German Unity

By JOHN M. HIGHTOWER
GENEVA (AP) — Russia and the Western powers deadlocked in the Big Four foreign ministers meeting Friday with rival and apparently irreconcilable plans for European security.

The United States, Britain and France got in first, presenting to Soviet Foreign Minister Molotov a nine-point "treaty of assurance on the reunification of Germany."

It would become fully effective only if East and West Germany became united and the new Germany became a member of the North Atlantic Treaty Alliance (NATO).

Molotov responded with a 15-point proposal for European security which had been made at the Geneva summit conference in July.

Under the Soviet program the North Atlantic Alliance would be destroyed, Communist China would become an "observer" in Europe and all American troops would eventually have to be withdrawn from the territories of European countries.

By the time Molotov acted, the Western ministers had already rejected his proposal. They based their statement, in advance of its presentation, on Russian proposals which had been made at the Geneva summit conference in July.

"France, the United Kingdom and the United States of America," they told Molotov, "are not prepared to enter into a system of European security which, as in the

(Continued on Page 2 Col. 5)

Winston Approves Sewer Bond Issue In Vote Wednesday

The first solid step in the construction of a sewer system for Winston was taken Wednesday when voters soundly approved the sale of \$285,000 in bonds.

The vote in favor of the bonds was 280-65.

Many government opponents say they cannot support new elections until the method of casting ballots has been changed. Faure says that he is willing to let the deputies decide on a change in the election law but he has doubts that any agreement can be reached on a new system.

For the city, approval of the bonds means compliance with a State Sanitary Authority recommendation that a sewer system be built. About a year ago, the city was listed with several others in Douglas County as needing sanitary facilities.

First actual step in that direction was taken after the city was incorporated about two years ago. City officials engaged consulting engineers to estimate needs and costs and the bonds were figured on the basis of the engineering study.

City Recorder H. J. Kieve said today that the term in which the bonds will be retired hasn't yet been determined.

Boy Put In Hospital From Accident Injuries

An 8-year-old Roseburg boy, Blayne J. Flora Jr., was reported recovering satisfactorily today at Douglas Community Hospital where he was taken Thursday evening for treatment of accident injuries.

Flora and his father, Blayne Joseph Flora, were injured when their car struck a tree on the Roseburg Lumber Co. log truck operated by Everett Kenneth Ward, Roseburg, according to the sheriff's office.

In the mishap, on the North Umpqua Highway just east of Roseburg, the Flora received lacerations and bruises and shock. The father was not hospitalized, but went to the hospital today for an X-ray of his chest.

The truck driver and a passenger, G. H. Ruben, were not injured, according to a deputy sheriff who investigated.

Six Cases Beer Stolen When Truck Broken Open

Six cases of beer were stolen Thursday night when a truck was broken open at the Douglas Distributing Co., Skyles Avenue and Short Street, according to Roseburg police.

A bar apparently was used to pry the lock off a door on the truck.

OUT ON BAIL

Two Cottage Grove men were released from jail Thursday afternoon after they posted \$100 bail bonds on charges of defrauding an insurer. Donald Ray Bowman, 25, and William Willis Lynch, 30, were arrested by a deputy sheriff on warrants issued by Justice of the Peace Nina W. Pietzold, Canyonville.

Levy Fact Rant

By L. F. Reizenstein

Misfortune seems to have marked older people of the present century to either be hit by an automobile or fracture a hip in a fall.
