Veterans Affairs Pays Counties Property Taxes

SALEM (AP) — The State Department of Veterans Affairs has paid $1,240,832 in property taxes to the counties, H. C. Saalfeld, department director, announced Tuesday.

The money was paid before Nov. 15 to take advantage of the 3 per cent discount allowed for payments before that date.

The taxes were on 10,832 pieces of property which veterans are buying through loans from the department.

The veteran pays the taxes to the department in his monthly payments.

The average tax on each piece of property was $114.55, compared with last year's $106.24.

Trial Jury Convicts Man Of Raping Negro Woman

CROWLEY, La. (AP) — A district court jury deliberated 30 minutes Tuesday before convicting Sterling Trahan, 33-year-old rice mill worker, for the rape of Mrs. Octavia Brackin, 74-year-old Negro.

Dist. Judge N. S. Hoffpauir deferred the sentence.

The woman, her son-in-law and two policemen who arrested Trahan testified the white man was at the woman's home Aug. 15, the date of the alleged attack. Trahan denied the attack but testified he had 16 cans of beer at the woman's home.

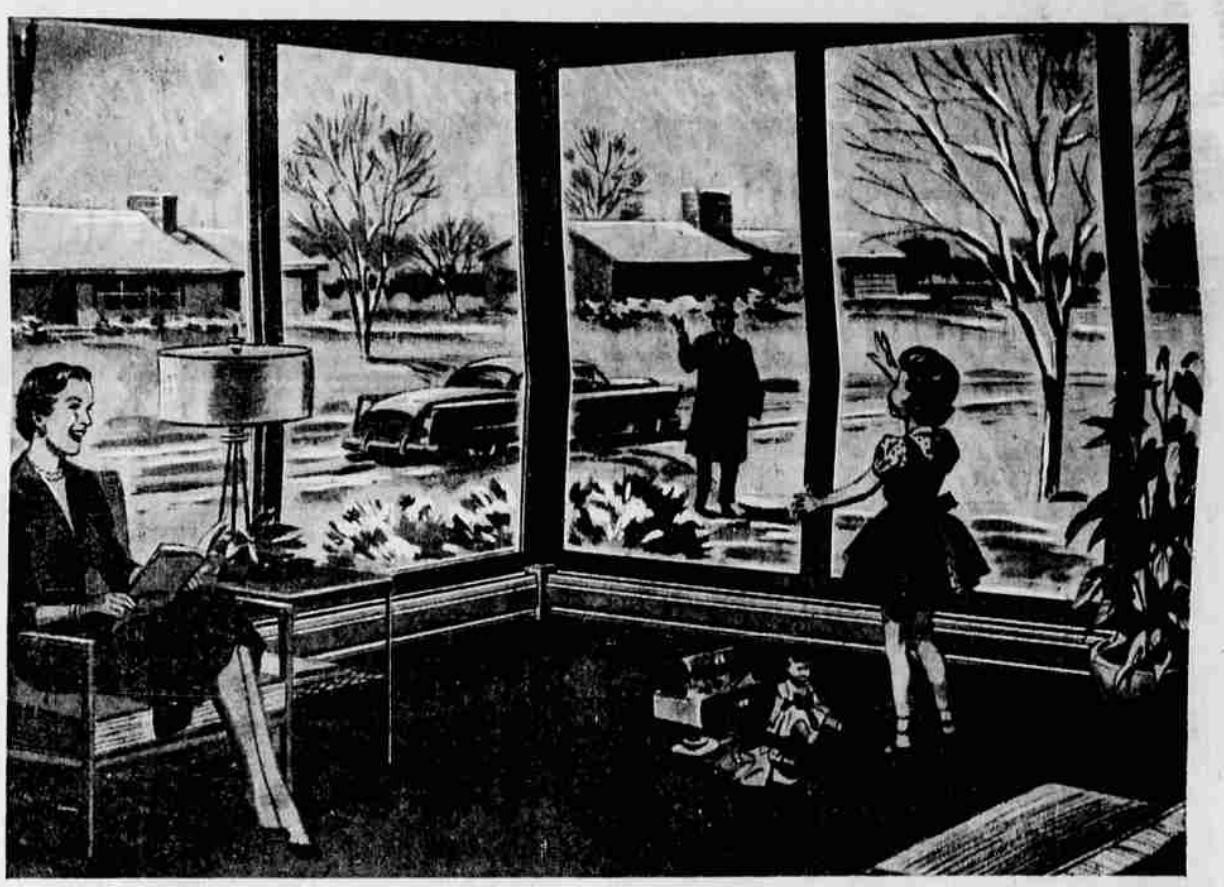
Cavalier® AUTOMATIC
ELECTRIC BASEBOARD HEAT

FOR NEW HOMES OR OLD. Cavalier Baseboard Heat is installed where you would ordinarily use wood Baseboard—but on weather-side walls primarily. Blends unobtrusively with any room finishing and is specially treated for easy painting if desired. For new homes or old—Cavalier Baseboard is easily installed—requires no extensive work prior to installation.

THE GENTLEST HEAT IN THE WORLD! So gentle, a child can touch it. Place furniture against it without harm. Only Cavalier Baseboard Heat stays below 125° (F.) surface temperature.

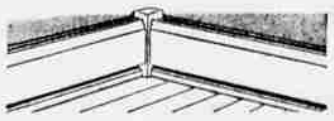
INDIVIDUAL ROOM HEAT CONTROL. Thermostat in each room maintains the desired temperature . . . *automatically*. Here is zone control at its best. The exact heat wanted is chosen *by rooms*, not by sections of the home. For example, have it mild in working areas, warmer in living room or nursery. *Warmth is supplied evenly and quickly.* Have comfort just as you want it from the first chilly autumn days, through icy winter weather. Even on cool spring evenings, it provides heat when needed—*the accurate thermostatic control does all the work!*

MAKES DECORATING EASY. No floor or wall space is lost. Place furniture to fit your decorating plans—Cavalier Baseboard won't interfere . . . and Cavalier Heat is the cleanest you can have, keeps your rooms looking bright and fresh.



Heat rises so it makes sense to put heat into the room as low as possible. It's cold outside . . . so it makes sense to put your heat between you and the weather. Cavalier Electric Baseboard gives you heat at floor level along the outside wall . . . and does it automatically.

HOW CAVALIER BASEBOARD WORKS



Cavalier Baseboard is supplied in 32 and 48 inch sections with finishing ends and corner pieces. It is quickly installed in new homes or existing construction without tearing into the walls. *Placed at floor level on weather-side walls*, it conforms with sound engineering principles to give you the most efficient heating ever developed.

Cool air enters baseboard at floor level. Inside heater, the air is channeled over and around the heating element by Cavalier's exclusive zig-zag baffle that assures air being fully subjected to the heat. The warmed air rises and comes out from top. A "secondary" air current flows from the top of rear air passage. This extra flow picks up the heat that otherwise would be lost into the wall and brings it out into the room where it is needed most. Gentle radiant rays combine with draftless air circulation to give you *balanced heat*, wall-to-wall comfort at all levels.

No moving parts to wear out—no noise, no fuss, no bother. All parts accessible at all times—no worry about costly replacement and construction problems. No waste—100% efficient—*you get all the heat you buy!*
