Steelers Make Surprise Pick In Bonus Grab

PHILADELPHIA — The Pittsburgh Steelers won the National Football League bonus choice Monday and surprisingly picked Quarterback Gary Glick, a comparative unknown from Colorado A&M College.

The Philadelphia Eagles then came up with Bob Pellegrini, University of Maryland native, Pellegrini, a 6-3, 225-pound native of Yatesboro, Pa., is rated by the experts as one of the finest all-around centers in college football.

The rest of the first round went this way:

Pittsburgh grabbed Art Davis, Mississippi State halfback; the New York Giants named Joe Marconi, West Virginia back, who immediately was handed over to the Los Angeles Rams as part of a previous deal; the Chicago Cardinals took Joe Childress, Auburn fullback; Green Bay selected Jack Losh, Miami back; Baltimore drew the Penn State open field runner, Lenny Moore; the Bears took Menan Schriever, Texas end; Los Angeles picked Charles Horton, Vanderbilt quarterback; Washington took Ed Vereb, Maryland halfback; and the Cleveland Browns took Preston Carpenter, Arkansas halfback.

Ring Board Slates Probe Of Von Pop

Kurt von Poppenheim won the Northwest heavyweight championship wrestling belt at the Armory Saturday night, but he's going to have to find something else to wear until the Roseburg Wrestling Commission conducts an investigation.

The awarding of the belt to Poppenheim was delayed until the Commission has a chance to investigate charges that Poppenheim used the ropes illegally to win the final fall. The Proud Prussian took the third fall with a full Boston crab to win the match.

Defending champion John Paul Henning was the victim. He took the second fall at 5:05 after Poppenheim had taken a one-fall lead in the title tiff with a full Boston crab at 11:45.

The 30-minute semifinal event ended in a two-fall draw with both Alice Perez and Regi Siki getting a fall apiece.

Perez nabbed the initial verdict with a Boston crab at the 9:20 mark and Siki evened things up with a standing backbreaker at 12:35.

Buck Weaver defeated Don Moore in the opening match with a neckbreaker in 15 minutes of action.

OSAA Sets Class B Cage Dates Ahead

PORTLAND — The date of the class B basketball tournament was changed Saturday by the Oregon School Activities Assn. from March 12-14 to March 8-10.

The meet will be held at Baker.

The change eliminates the conflict with the class A-2 tourney scheduled for Salem March 12-14.

The A-1 tournament will be at Eugene March 13-17.

The OSAA board of control considered many suggestions for district changes and announced that another meeting will be held in Portland Jan. 16 to act on the proposals.

In one move it shifted Beaverton and Hillsboro to the Tualatin-Vancouver Valley League to the Valley Coast League. They will join Astoria, Central Catholic, Milwaukie, Parkrose, Gresham and David Douglas of Portland.

The board decided to hold the A-1 and A-2 track meets at Corvallis May 18-19 and the class B meet at a site to be selected later. The meets originally all had been scheduled for one field.

Action was deferred on selection of dates and a site for the high school baseball playoff.

Isaak Walton League Supports Streams Closure

BEND — The Oregon Isaak Walton League voted to support an initiative petition for closing all Oregon coastal streams to commercial salmon fishing and to elect an opponent of the plan as president.

Named to the presidency was Rollin E. Bowles, a Portland attorney, who spoke against the petition in a round table discussion at the league's 33rd annual meeting here.

Elected Saturday to serve with Bowles were: Allen Kelly, Portland, secretary; Leighton Whitsett, Aurora, treasurer; and these vice presidents: Wade Hall, Enterprise; Dr. I. A. Calhoun, Tillamook; Henry Kneess, Portland; and Paul Wiley, Medford.

Before approving the resolution calling for support of the closure petition, delegates defeated a motion to refer the matter to the league's board of directors.

Delegates also urged that builders of the proposed Hills Creek Dam on the Upper Willamette and Cougar Dam on the south fork of the McKenzie provide necessary funds for adequate planning, construction, and maintenance of public recreation, health and safety facilities.

Other resolutions called for: Support of all efforts to improve access routes to state and federal lands and to eliminate silt damage to Oregon streams caused by mining and dredging operations.

Congress to appropriate \$300,000 to the Forest Service to maintain wildlife habitat and \$500,000 to conduct big game studies.

Delegates Not Stacked, States Conference Head

WASHINGTON — Neil McElroy, chairman of the White House Conference on Education, said Monday he doesn't believe there has been any "stacking" among the 1,400 conference delegates for or against the heatedly controversial issue of federal aid to schools.

McElroy told a news conference, in advance of the opening session Monday night that such federal aid will be an important topic but by no means "the only important question" before the conference.

He said he had noted advance accusations that the conference had been "stacked in every direction" on the federal aid issue.

"Personally," he said, "I don't know of its being stacked in any direction." He added that each state selected its delegates in its own way.

Emphasizing that there are other important problems to be tackled, McElroy said that "perhaps the most stubborn of all is how to find the teachers that are needed. You can vote taxes and build a building with the money, but it takes years to train a qualified teacher."

Mothers, fathers, teachers and businessmen are included in the 1,400 delegates making up a cross-section of the population for the conference.

The federal aid question is due for discussion Wednesday, assigned a comparatively minor spot on the program.

He said the states indicated it might become the runaway issue.

Girls Slay Matron, Escape Detention Home

(Continued from Page One)

ance and the Cain girl's brother talked them into surrendering.

Ruth Beichler, 17, and Shirley Shingler, 15, were taken into custody at a restaurant near the airport.

The fifth girl, Mrs. Zelma De Cost, 16, intended to go to Columbus to pick up some clothes, they reported.

The victim of the escape was Mrs. Eula Bonham, who had been a matron at the home for 16 years. Her body was found on the floor of the dormitory. She had been bound with cloth belts from the print house dresses all the girls wore. A washrag, soaked with ammonia which the girls had been hoarding from the cleaning duties, had been jammed into her mouth.

Mrs. Bonham, whose first marriage ended in divorce years ago, had planned to be married Thursday to an Akron rubber worker, Everett Jones, 60.

Sharon Missia, 15, of Barberton, told police Monday she pretended to be the matron last Saturday while the five girls rehearsed their escape attempt. They grabbed her and bound her. She said that although she helped in the rehearsal, she had no intention of joining the flight.

From four other girls left behind in the dormitory, police learned the escapees got the matron to unlock a door by asking her to bring them a scarf one had left downstairs. They threw her to the floor and bound her.

A male attendant, Ralph Roebuck, 29, heard the scuffle overhead while he was supervising a group of 29 boy inmates watching television in a recreation room. He saw the five girls crawling out of the smashed window but did not chase them, fearing the boys would try to escape too.

The other girls in the dormitory said the five had been rehearsing the escape for some time and had threatened to kill them if they told anyone. The ammonia had been collected in a cold cream jar.

Children May Receive Letters From Santa

Parents who want their children to receive letters from Santa Claus mailed direct from the north, may contact William Jelski at the lobby of the Hotel Umpqua.

Pan American World Airways is operating the letter service from Fairbanks, Alaska. The parent writes the letter on special stationery, which is then sent by air mail to Alaska.

The deadline for mailing letters is Dec. 18.

Effort Stepped Up To Get Uniforms Before Christmas

A communal effort to attire Douglas High School band members in natty uniforms by Christmas has rolled into high gear.

Grades school youngsters in School District 114 are competing for a handsome trophy which will be given to the team selling the most calendars. The contest pits youngsters from Tennille-Lookingglass schools against Dillard students.

Monday the Tennille-Lookingglass pupils were leading the race, according to a district spokesman.

A special meeting of band parents is scheduled for Tuesday at 7:30 p.m. at Douglas High School. At that time the principals of the competing schools will total up the contest results to date.

The competition started one week ago. Also up for discussion at the session will be plans for Douglas High Carnival scheduled for Dec. 9.

A variety of events are planned by the district's residents to help them realize the campaign goal.

Van Swift, member of the Lookingglass Skating Club, has announced that a special skate night will be held in the near future. Proceeds from it will be used to buy extra calendars for Tennille and Lookingglass grade schools.

Slide Closes Umpqua Highway Near Reedsport

One of Douglas County's routes to the sea is closed just east of Reedsport, state police report.

The State Highway Dept. was working quickly to clear the slide for one-way traffic, but it was estimated the highway would not be completely cleared until late this week. State police said one-way traffic would probably not be allowed until tonight.

The slide was near the end of new construction, about a mile east of Reedsport.

The Roseburg office of the State Highway Dept. said other highways had minor "popouts," but were still open.

The Highway Commission at Salem also announced one-way traffic around slides at these points: Coast Highway—10 and 17 miles south of Wheeler.

Lower Columbia Highway—5 miles west of Clatskanie.

Wilson River Highway—7, 14 and 14½ miles east of Tillamook.

Siletz Highway—4 miles west of Kernville.

The commission warned of rolling rocks at Wilson River Summit and in the Detroit Dam area.

Pavement was bare at all points, with no new snow reported in the 24 hours ended at 8 a.m. Monday.

Double Service Slated For Two Quadruplets

BELLEVUE, Ohio — Double gravestone services were to be held Monday afternoon in Bellevue Catholic Cemetery for two of the four quadruplet girls born here early Saturday to Mr. and Mrs. Martin Briel Jr. of Cleveland.

Diane, 15 ounces the smallest of the infants and last to be born, died Sunday almost 24 hours after birth. The largest of her sisters, Christine, weighed 4 pounds and 1 ounce, died Saturday after 13 hours of life.

The two survivors "are doing as well as can be expected under the circumstances," a spokesman at Bellevue Hospital said.

The 25-year-old mother, whose husband is a mechanical engineer, was told of the two deaths and was reported "doing well."

The couple has a 15-month-old son.

Soldier AWOL, Then Breaks Jail To See Wife

BOSTON — A young soldier surrendered to police last night and told them he went AWOL from Ft. Knox, Ky., six weeks ago and later broke from jail so he could see his wife and newborn son.

Pvt. Edward Michetti, 17, was quoted as saying he was afraid he would be shipped overseas before seeing his wife Anna, 18, then an expectant mother.

He said he and two friends borrowed a sergeant's car at the base, but were picked up by police near Sharon Springs, N. Y., for having firearms in the car.

Michetti was sentenced to three months in Schuaberie County Jail and while there received news his wife had given birth to a boy, Edward Jr.

Michetti walked off a trusty detail last Saturday morning. He told police last night.

"It's all right, I'm ready to take what's coming to me. But I'm still glad I came home."

Youth Sets 50 Fires, Commits 150 Burglaries

CHICAGO — Police report an 18-year-old boy with a record as a firebug and burglar has admitted setting 50 fires and committing 150 burglaries and robberies in the last four months.

Detective Francis Higgins said Charles Harris Johnson admitted he set fires Saturday in two North Side apartment houses.

One of the fires set Saturday was at 2413 Lincoln Ave. The cause of a 1933 arson fire for which Johnson was convicted at the State Training School for Boys at St. Charles.

Johnson was released last July after serving a year in the Sheridan Reformatory for burglary.

Higgins said Johnson estimated his 123 burglaries yielded an average of \$60 apiece. He did not give figures on 25 odd strong-arm robberies police said he admitted.

Johnson was held without charge.

Brown and baby, Connie Lynn, Winchester.

Frigid Air Hits Much Of Nation In East Sector

By THE ASSOCIATED PRESS

Frigid air—termed the most severe of the late autumn season by the Weather Bureau—gripped a vast portion of the nation Monday.

The cold, arctic air covered the country from the Rockies to the Appalachians and reached from the Canadian border into the Western Gulf states.

The cold snap, said the Weather Bureau, had just about expended its force in the South early Monday and was moving eastward at about 30 miles per hour.

Cold wave conditions became the rule rather than the exception for most of the Great Lakes and Ohio Valley as well as the middle and upper Mississippi Valley. The cold was accompanied by gusty winds and snow flurries.

It sliced roads in parts of the Midwest to add driving perils to motorists returning home from an extended Thanksgiving holiday weekend.

Monday midnight temperatures hovered around the zero mark or below in parts of Wisconsin, Minnesota and North Dakota.

A mild mid-ocean breeze protected the East Coast, meanwhile, and staved off the cold air.

Florida was the nation's warmest spot as the mercury pushed to 72 at Miami's airport and 76 at Key West. Generally fair weather prevailed in the South.

Temperatures were near normal elsewhere, ranging from a little below freezing in the northern and central interior regions to the 40s and 50s in the West.

Chairman Hall Believes Ike To Seek Second Term

(Continued from Page One)

sweeping victory for an Eisenhower-Nixon ticket next year than in 1952, adding he expects vice president Nixon again to be Eisenhower's running mate if the President runs.

He said he was able to tell Eisenhower the party's war chest is in fine shape—that recent contributions have put the treasury "in better shape today than in many, many months."

Hall said he will report on Monday's session to the Republican National Committee meeting in Chicago later this week and also take to the Chicago gathering a personal message from Eisenhower.

The President also met with Secretary of Labor Mitchell on what the White House described as "routine" departmental matters.

The meeting with Mitchell had political overtones, too, with the merging AFL and CIO set to test their strength in next year's elections.

Before Hall's visit, GOP hopes were growing that the President would accept renomination.

REMAINS IN CAR

NEW DELHI, India — King Saud of Saudi Arabia remained seated in the official car during the latter part of his 15-mile sightseeing tour of New Delhi Monday, he complained he was "not feeling well."

Johnson was released last July after serving a year in the Sheridan Reformatory for burglary.

Four Americans Held In Berlin By Reds

(Continued from Page One)

police man looked into the parked auto and noted the radio telephone. When the party returned, the policeman demanded the car keys.

The policeman cocked his pistol and when McQueen demanded to know why, he was told:

"It is against the laws of the East German Democratic Republic for a foreign power to have and operate a radio in a vehicle."

McQueen tried to radio his headquarters and a second policeman drew his pistol. The party was then ordered to follow the policeman to a guard shelter where Soviet authorities were notified.

American officials finally obtained their release more than three hours later.

Ostertag told newsmen it was a "harrowing experience for me but I felt it would straighten itself out. It was difficult to understand the delay in getting the word down the line to any responsible authority. My wife was rather nervous, of course."

Rep. Boland left by plane for Frankfurt and Naples.

Sheriff Kidnaped In Calaveras Co. By Three Gunmen

JACKSON, Calif. — Three men kidnaped the sheriff of Calaveras County and his deputy last night after shipping out hidden guns while being questioned at a jail.

Sheriff Lester McFall was put out of his stolen car at Slogough House, 29 miles from here, apparently because the gunmen did not want to hurt him. He is almost 60.

The deputy, Russell Leach, overpowered one kidnaper shortly afterwards when the car stopped for a roadblock.

The other pair fled on foot. Forty officers hunted them.

The scene was in the famed Mother Lode gold country of California, in the foothills of the Sierra about 40 miles east of Sacramento.

The story was like those Mark Twain handled and it started in the county Twain made famous with his story about the jumping frog of Angles Camp.

McFall said he and Leach picked up the three, who had been hitchhiking near Mokumme Hill, because one resembled a man seen leaving a recent burglary.

The California highway patrol identified the captured man as Louis Cervantes, 21. They said the fugitives were James Woolsey and Ronald Garrett, both about 18 or 19. All are from Sacramento.

McFall and Leach had arrested the three in Calaveras County while investigating a burglary. They brought the men here for questioning because Jackson is closer than their headquarters at San Andreas.

Police Probing Fire At Church Started By Girl

NAPERVILLE, Ill. — Further questioning is planned today of a 13-year-old girl who, authorities say, started a church fire while on a mission to rob poor boxes.

The girl, unnamed by authorities, was picked up on a telephone tip supplied by her 15-year-old brother. Damage to the First Methodist Church was estimated at \$60,000.

John McFarland, deputy state fire marshal, directed the girl released to the custody of her parents pending completion of his investigation. No charges have been filed.

McFarland said the girl, who was detained Saturday about six hours after the fire, told this story:

She broke into the church to rob the poor boxes and while searching in a cleaning closet, accidentally dropped a lit match onto a pile of cleaning cloths. She fled after taking \$6 from two of the boxes.

She told her 15-year-old brother on returning home of the theft and the fire, and then refused her parents' demand that she give him \$3. Her brother telephoned police.

Fisher Attending Meet In Washington, D. C.

(Continued from Page One)

From it hopeful attendants hope to emerge with working ideas which will help solve the innumerable problems plaguing education: Teacher shortage, building shortage, inadequate public interest, etc.

Among the goals set up is one concerning what the stand for proposed federal aid to education should be.

The Elkton man goes to the conference well qualified. In 1953 he was selected as Douglas County's educational lay citizen of the year by the county's chapter of the Oregon Education Assn. And he has been a member of the Elkton school board for 10 years. Additionally, he is president of the county school board association.

Fisher was born in Douglas County, at Kellogg. He and his wife have two children: Nancy, 18, a freshman at Willamette University, and Janet, 15, a sophomore at Elkton High School. Fisher received his degree in agricultural economics from Oregon State College in 1933. He raises fruit and livestock on his farm.

Zanesville, Ohio, Gets Seal Movie Premier

Zanesville, Ohio, won the nationwide Christmas seal contest and will host the world premiere of "The Court Martial of Billy Mitchell."

Douglas County Tuberculosis & Health Assn. Executive Secretary Mrs. E. L. Tauscher said the name of the winner was announced Sunday over the Ed Sullivan television show. She said Douglas County's standing in the race is not known. She did not know when that announcement would be made.

REX MACK DIES

Rex E. Mack of Tri-City died Sunday evening in a Roseburg hospital. The body has been removed to Ganz Mortuary, Myrtle Creek, and funeral arrangements will be announced later.

All of the sisters are past retirement age. From left to right, Mrs. Nancy Dean, and Mrs. Elizabeth Ramey, seated, and Mrs. Maude Baker, standing. (Fox Photo)

Truman Denies Abusive Words About Nixon

LOS ANGELES — The Los Angeles Examiner Monday quoted one of its reporters as saying former President Harry S. Truman said Sunday of Vice President Nixon:

"I don't even want to discuss that ----. Don't even mention his name to me."

"The Los Angeles Times quoted Truman: 'I don't like the ----, and I don't care who knows it.'"

But Truman, who arrived here Sunday, denied making the statements. A spokesman at the Beverly Hills home of oilman Edwin Pauley, where Truman is staying, quoted the ex-President as saying he "would never speak in any such way of anybody holding the office of vice president."

Both newspapers said the quotes were Truman's response at the airport when reporters asked what his reaction would be to Nixon becoming the 1956 Republican candidate for President.

The spokesman quoted Truman as saying he said instead: "You know how I feel, so don't talk to me about Mr. Nixon."

Truman arrived by plane from Seattle to address a \$100-a-plate banquet Monday night to raise funds for the Truman Library, now under construction at Independence, Mo.

Patterson Urges State Aid For City Problems

(Continued from Page One)

apportionment move in Oregon which would give each county one senator.

Oregon's home rule amendment, adopted in 1906, lets the cities choose their own forms of government.

He also recommended Oregon's program for reappraisal of all property for tax purposes as having a "very beneficial effect upon our localities."

States Hold Answers

The governor told the convention that a legislative interim committee now is studying problems of suburban areas.

"The basic responsibility," Patterson declared, "for finding the answers to the problems of local government, lies with the states."

"The cities are direct creatures of the state. They perform for the state the duties of government within the urban areas that would otherwise fall upon the state."

"The state has the area. It has the diversity of resources and the freedom of taxation and organization required to best solve the problems of city government."

After making his address, Gov. and Mrs. Patterson left for Washington, D. C., for the White House Conference on Education.

Eisenhower May Reveal Clue On His Candidacy

By JACK BELL

WASHINGTON — President Eisenhower's message to a Republican National Committee meeting this week was awaited as a possible clue to his thoughts about seeking a second term.

It will be read to the committee meeting in Chicago Wednesday and Thursday.

GOP National Chairman Leonard W. Hall said in a statement Sunday that the committee will meet "in an atmosphere of unity and confidence."

"No other administration has done so much for so many," he declared. "The American voters will give this administration the same overwhelming vote of confidence we received in 1952 when President Eisenhower carried 39 states."

The GOP committee has listed Henry Cabot Lodge Jr., American ambassador to the United Nations, Secretary of Commerce Weeks, Secretary of Labor Mitchell and Secretary of Agriculture Benson as chief speakers.
