

Red Cross To Observe Its 75th Birthday

The Roseburg chapter board of the American Red Cross will soon appoint a committee of Douglas County citizens to plan a local celebration of the 75th anniversary of the organization.

The Red Cross will complete 75 years of service next year. The

movement had its beginning in the society established by Clara Barton in the District of Columbia in 1881. It is now represented by chapters in every county in the nation.

Plans being developed on a national scale call for observance of the anniversary throughout the year at every level of Red Cross activity. The climax of the celebration will be reached during the two weeks from the founding date (May 21) to the 1956 convention in St. Louis (June 4 to 6).

Staring Spinster Court Victor But Organist Hiding

CHICAGO (AP) — The case of the reluctant church organist and the staring spinster has ended in Circuit Court.

The spinster was victorious—in court. But if she still is bent on listening to the organist's soothing hymns, she may have to hire a detective to find him.

The case began nine months ago when organist Robert J. Metzler, 30, obtained an injunction to prevent Miss Harriet Davis, 35, and her mother, Belle, 55, from attending any church where he was working.

Metzler complained the mother and daughter sat in front pews and stared at him. This made him fidgety and he skipped notes in hymns. When he quit one job to get away from them, he said, the Davises followed him to a church 20 miles away in suburban Glenview.

They weren't interested in the

musician, just his music, the Davises answered. They said it sends them.

"I have an entirely different emotional reaction when I hear him play," Miss Davis said.

Judge Cornelius J. Harrington last June lifted the injunction in the case of Mrs. Davis after her lawyer explained she was ill and suffered a relapse because "she hasn't been able to hear the soothing music."

Judge Julius H. Miner Tuesday dissolved the injunction against Miss Davis, saying that he would

not deprive any individual of the right to worship as she pleases.

But Metzler's attorney said the women may have difficulty finding in which of the thousands of churches in the Chicago area Metzler is working. He has left his job in Glenview.

CASTLE OF CARDS

Slotted packs of cards have come into toyland to make a reality of the castle of legend. Only the one built from these cards is a little more difficult to topple.

Pulp Pipelines Newest Proposal

VANCOUVER, B.C. (AP) — You've heard about pipelines for oil and natural gas, but how about pipelines for pulp?

The British Columbia forestry industries told the Gordon Economic Commission Wednesday they are looking for just that kind of thing? Pipelines for wet wood pulp.

"At the present time, pulp manufacturing in British Columbia is, in many cases, dried, then shipped to converting plants in the United States, and this dry pulp is then made into wet pulp all over again.

"Obviously, this is economically wasteful. If it were possible to develop means of transporting wet pulp by pipeline to cheap barge transportation by water and the wet pulp transported to converting plants, a considerable economic advantage could be gained."

They touched on the pulp pipeline idea in discussing "things undreamed of now" which may take place in the future.

PASSPORT TROUBLE—Senate investigators are inquiring into passport difficulties of Dr. Linus C. Pauling, winner of the 1954 Nobel prize for chemistry. Pauling says he could not get a passport for three years, and when he went to Sweden last year to pick up his Nobel prize he had to sign at least a dozen non-Communist affidavits. Pauling wants State Department to "show cause in the courts" for denying passports.

FOR THE BRIDE—Breakfast sets of table and chairs are good gift choices especially for the newlyweds.
