Sun of Canada Increases Policyholder's Dividends

Cost of insurance reduced for seventh successive year; record \$761 million new business reported.

A new sales record for the Sun Life Assurance Company of Canada and a new dividend scale that will reduce the cost of insurance to policyholders for the 7th successive year have been announced by George W. Bourke, President, at the Company's 85th Annual Meeting. New life insurance sold in 1955 amounted to \$761 million, an increase of \$65 million over the previous year. Much of this new insurance was purchased in the United States where the Sun Life has 37 per cent of its business in force. Included in the new business figure was \$244 million of group insurance, exceeding the high level of production of the previous year. Total Sun Life insurance in force now exceeds 6 1/2 billion. Dividend scales are being increased, and in 1956 the Company will pay to its policyholders dividends amounting to approximately \$28 million.

The report also reveals that \$42 million was paid to beneficiaries of deceased policyholders, and \$94 million paid to living policyholders and annuitants. The \$136 million paid in 1955 brings the total paid by the Company since its organization to \$3 billion.

Mr. Bourke pointed out that the record construction of new homes in the United States and Canada has been financed to a great extent out of the premiums paid by policyholders of life insurance companies. Mortgage loans made by the Sun Life during 1955 amounted to \$108,502,000 bringing the Company's total mortgage investment to \$399,966,000.

In his report, Mr. Bourke expressed the belief that the high levels attained in the insurance business would be exceeded in 1956, and that life insurance ownership would rise to a new peak. "The public trust which the Sun Life enjoys today," he declared, "is based not only on confidence in the Company, but also on the sound principles on which the industry at large is built. There is every reason for us to look ahead to continued public trust and to further success and achievement."

Roseburg Junior Academy Schedules Dr. Underhill

DR. R. A. UNDERHILL
... to speak here

A special program in picture and story is planned for 8 p.m. Saturday in the Roseburg Junior Academy auditorium at the corner of Military and Umpqua streets.

Dr. R. A. Underhill of Walla Walla College biology department will show one of his many nature films, according to Mrs. Frances Walker, director of the Roseburg-Winston Pathfinder group who is sponsoring the program. There will be no admission charge, she said, though a free-will offering will be taken for defraying part of the expense of bringing Dr. Underhill here and for the benefit of the local Pathfinder group.

The Pathfinders are the Seventh-day Adventist young people ages 10 to 16 who have grouped together for mutual benefit under the leadership of adults who are devoted to the good of these young people, according to Mrs. Walker.

This group is much like the Boy Scout group, she stated. Dr. Underhill traveled 14,000 miles in the making of this full-color film which he has named "Tropical Treasure," going to Jamaica, British Guiana, Trinidad, Venezuela, Colombia and Panama. It features the native and wild life of these countries. Dr. Underhill's work on this project was done under the sponsorship of Walla Walla College, College Place, Wash., and of the Inter-American Division of Seventh-day Adventists in behalf of the youth interest program.
