IN CITY TRAFFIC where tensions usually mount,
Chrysler's car-like flexibility brings a wonderful sense
of calm. And those admiring glances confirm your
judgment that this is America's biggest fine car buy.

THEY'LL THINK YOU PAID \$1,000 MORE
when you drive the year-ahead car!

The only cars with which you can compare a Chrysler
Windsor V-8 are the other luxury cars. — because that's
what the Chrysler Windsor V-8 is. But you can own
this car for the cost of a medium-priced car! And at
this price, it simply defies comparison.

Take the way it handles in city traffic. Something quite
wonderful happens. Instead of feeling tense, you're
utterly relaxed — thanks to Chrysler's full-time Power
Steering System and a host of other brand new Chrysler
exclusives. You're handling a big, powerful car that

responds like a mind reader. It does the work for you.
Your Chrysler is beautifully balanced between the for-
ward thrust of its mighty airplane-type engine and the
most powerful brakes in the industry. This car flows!
Yet, if you can afford any car in the medium-priced
field, you can afford to step up to a Chrysler Windsor
V-8. Compare its year ahead new-car features with the
other leading cars in its price class. We think you'll agree
that it looks and acts like a car that costs \$1,000 more
than it does!
