"Which is the best prepaid health plan for my family?"

Glad you asked! Nothing compares with the peace of mind you enjoy with sound medical, hospital and surgical protection.

And you'll be glad to hear that now, Oregon Physicians' Service has a prepaid health plan — designed exclusively for Oregon residents — which offers you the kind of coverage you most want... along with more protection and more benefits than any other plan can offer you for the same money!

You see, it's a known fact that most families need a plan that protects in two ways. First, you want help over the small hurdles... the every-day medical needs. Second—and most important—you want flexible protection for the heavy medical expenditures.

However, as you've probably discovered for yourself, most plans don't offer this flexible coverage—they pay a set allowance of "so many dollars", no matter how prolonged or complicated your illness.

That's why the more than 1500 Oregon doctors who sponsor O.P.S. went to work to develop this plan for the individual and his family... a plan that would best protect you under all circumstances, at a cost you can afford.

It is a flexible plan. It is comprehensive. It is within the pocket-book of the average family.

And after you've read all the facts, I think you'll agree that O.P.S. is the best plan for you and your family.

For complete information about O.P.S. health plans for your family, send for the booklet on "Medical and Hospital Protection", or call at your nearest O.P.S. office. The booklet is free, and tells in complete detail how the plan works and what it costs. Also how you can "trade in" your present plan.
