

Republican Organizer Visits In Roseburg

A precinct organizer from the state Republican Central Committee was in Douglas county this week conferring with local officials of the county central committee, reports Mrs. Arthur Marsh, secretary of the county committee. Lynn Hodges, assistant precinct organizer for the state GOP committee, returned to Portland today. He was accompanied by Gen. Curtis T. Beecher on a tour of the southern part of Douglas County Thursday.

2 steps for a perfect lawn!

1. PLANT Golf Grass Lawn Seed. Blend of 11 fine perennial grasses in one, blends, blends or grafts. Because these grasses are slower to develop than annual species, Golf Grass won't reach its peak the first year. But with proper care you end up with a lawn so thick it's difficult to weed.

2. USE Golf Grass Fertilizer to fertilize your lawn two months after sowing. (1) with fast-acting chemical nitrogen for immediate lushness and (2) with organic nitrogen, plus other needed food elements, for the steady slow feeding that means sound and continuing growth. Goes further, costs less!

CHARLES B. KINYON
..... promoted

**Charles B. Kinyon
Receives Promotion**

Effective Monday, April 16, 1956 Charles B. Kinyon is being promoted to plant service foreman for Pacific Telephone Co., in Roseburg, according to Joe Piland, supervising wire chief, Eugene. Kinyon has been a resident of Roseburg for the past six years. He has worked as installer and PBX repairman. Prior to coming to Roseburg, he resided at Klamath Falls and Eugene, having been employed by the Telephone Co. for nine years.

He served in the field artillery, United States Army as communication chief in the South Pacific theatre during World War II.

Kinyon resides with his family at 448 W. Broccoli Lane. He and his wife, Donna Jean, have two daughters, Sharlene, 4, and Cheri, 2.

His new responsibilities include the supervision of telephone and maintenance, Piland said. His appointment is due to the increased growth of the exchange, necessitating an additional plant service foreman at Roseburg.

Ray S. Stryker, plant service foreman will continue to be responsible for mobile equipment, coaxial and exchange cable, PBX and complex reports.

**Window Display
Attracts Artists**

A recent window display of glassware in Knudson's Jewelry will soon draw the scrutiny of one of the world's top artists in glass design.

The jewelry store just received a letter from glassware importers A. J. van Dugteren in New York City saying that a photograph of the window will be sent to Andries Copier, art director of the Leerdam Co. in Amsterdam, Holland.

The letter said the importers were impressed and were sending it to Copier since he "is always looking for new ways to display glass."

The display contained mobile pieces and identifying lettering fashioned from glass tubing.

**Voters Reminded
Of Registration
Deadline To Vote**

It's too late to register to vote in the April 19 Roseburg school budget election, but registration for the primary election will be open through Tuesday.

Deadline for new registrations and re-registrations for the May 18 primary is 5 p.m. April 17, according to County Clerk Charles Doerner.

Registration for any election closes 30 days prior to the election because poll lists must be compiled at that time, according to law, the county clerk explains.

Re-registration is required if the person has changed his place of residence or if he has not voted in a state election in the last two years.

To qualify as an elector, a person must be duly registered, a U.S. citizen, 21 years of age, resident of the state six months, able to read and write English and not having lost political rights through conviction of committing a felony crime. A voter does not have to be a property owner.

In one respect it is more difficult to qualify as an elector in a school election than in a general election. In addition to regular qualifications, persons balloting in a school election must have been a resident within the school district for six months, according to County School Supt. Kenneth F. Barneburg.

School districts conduct special elections according to Oregon school law, except in Portland where elections must be held at regular election time, Barneburg pointed out. Requiring voters to sign the poll book has not been instituted in school elections, but the requirement will be in effect at the primary and general elections.

A/B DELBERT G. UPTON, son of Olan F. Upton, Box 404, Oakland, has entered six weeks of basic training with the U.S. Air Force at Parks Air Force Base, Calif. He is serving with flight No. 137, 3278 basic military training squadron. Upton entered the Air Force on March 6, 1956.

BOBSLEDDER DIES

LAKE PLACID, N. Y. — Francis Tyler, bobsledder who captained the U. S. four-man team to the championship in the 1948 Olympics, died Wednesday night at his home after a heart attack. He was about 50.

Tyler managed the U. S. team in its unsuccessful bid at this year's winter Olympics at Cortina d'Ampezzo, Italy.

John (Donna) Fox, who coached the 1948 Olympic bobsled team, died April 4 after a heart attack.

**Charter Review
For Boy Scout
Troop 92 Held**

A charter review for the Roseburg Lions Club sponsored Boy Scout Troop 92 was held at a special meeting of the Lions scout committee this week. George Krueger conducted the review.

The troop now has a full complement of 33 Scouts, under Scoutmaster Floyd Wilson. He is aided by two assistant scoutmasters, Dee Woods and O. F. Leonard, and junior assistants, Joe Brady and Dean McCargar.

Meeting place for the troop has been changed from the Knights of Pythias hall to Central Junior High School. The meeting night this week and next is on Thursday, but a permanent night, probably Wednesday, will be announced later.

The Lions scout troop committee has been increased so that at least three members can be in attendance at each troop meeting. George Foster is chairman, assisted by William Mills, Don Reed, Ralph Ohman, Leroy Imman, Art Lamka, Harold Stein, Rennie Saccanti, Frank von Borstel, Les Miller and Claud Baker. Hap Linville is the troop's institutional representative.

ROBBER GETS LOOT

WILLIAMSPORT, Pa. — A lone gunman, wearing a handkerchief as a mask, held up three tellers of the Williamsport National Bank Thursday and fled with \$66,000.

**Low Bid Is Submitted
For Dam Survey Work**

PORTLAND — A low bid of \$6,980 was submitted for survey work at the proposed Cougar Dam relocations on the south fork of the McKenzie River, Army Engineers said Thursday.

The bid, low of six, came from Allan and Holtbeur, Inc., Portland. Other bids ranged up to \$29,700. The survey party will have 75 days to complete the work for the proposed 37 million dollar multi-purpose dam, seven miles upstream from the community of Blue River in Lane County.

**WHAT DO YOU MEAN,
"JUST FACE LIFTING"?**

EVERY NOW AND THEN, we run across someone who seems to think that 1956 cars do not offer anything really new—just a little face lifting from the year before.

We won't try to speak for the automobile industry. But we certainly can speak for Buick.

And let us announce in no uncertain terms—it's the newest thing on wheels.

The Styling is New

Sure, it looks like a Buick. But it has a new V-proved grille that says 1956 and no mistake. The hood's new—the fender ports are new—the sweep-spear is new—and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours. But that, friends, is only the beginning.

The 1956 Dynaflo* is New

It introduces what the engineers

call "double regeneration"—which means a double-action take-off. It gives you new, split-second response in the first inch of pedal travel—plus the "switch the pitch" at full acceleration, which no one else has yet approached.

The Ride is New

To coil springs on all four wheels, a brawny X-braced frame, and torque-tube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

The Power is New

All 1956 Buicks have new 322-cubic-inch V8's—with record highs in power and compression—with unique

new double "Y" manifolding to step up efficiency—with new carburetor "deicing"—and a host of other new features to make owning a Buick pure pleasure.

The Thrill is New

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the best Buick yet—by a wide measure—and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick built today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM
