M&M Wood Working Co To Curtail Production

PORTLAND (AP) — The M and M Wood Working Co. Monday announced an immediate 20 per cent curtailment of plywood production, in order to adjust its output to decreased orders.

President Clay Brown said the temporary cutback was caused by declining orders due to severe winter weather.

He said affected plants were at Portland, Albany, Lyons and Idanha, with the reduction chiefly on Saturday and Sunday overtime and on third shift work.
