LOTUS KNIGHT PORTER

SATURDAY, APRIL 28, 1956

—The News-Review, Roseburg, Ore. 5

ONE OF THE MOST POPULAR hobbies in the last few years has been "Do It Yourself" work, which is enjoyed by many throughout the country. Probably no other hobby is as satisfying as what is accomplished by one's own hands.

JUDGE CHARLES S. WOODRICH, above left, has one of the most attractive recreation rooms imaginable in his beautiful home in Ridgewood. All of the work has been done by him and his wife, Marilyn. Judge Woodrich finds it not only enjoyable to work with his wood lathe, but finds that the results are highly satisfactory.

W. HOWARD PATTISON, upper right, takes time out to paint one of the rooms of his home at 1442 SE Lane Ave. Howard is with Umpqua Dairy Company here.

LEROY B. INMAN, (center) telegraph editor of the News-Review, finds the quickest way to increase his half-basement at his home at 1720 SE Main St., is to "Do It Yourself." Leroy's father was in the building business and Leroy learned how to do many things from him.

A. D. PARR, manager of California Pacific Utilities, is photographed as he paints the shutters a new bright blue at his home at 1398 SE Lane St. Al has also built an attractive out-door living room and garden at his home.

JIM O'NEIL, (lower right), is one of the "Knights of the Road," and finds fixing hot-rods a most absorbing hobby. Jim is photographed at Percy Croft's garage. He is a senior at Roseburg High School, is employed at Safeway and is the son of Mr. and Mrs. Robert Harry O'Neil, Fisher Road.
