

Woman Killed, Five Children Injured In Crash

SWEET HOME — A 35-year-old woman was killed and five children injured in a Tuesday morning collision between an automobile and a logging truck on Highway 20, between Sweet Home and Foster.

Mrs. Horace Horan was fatally injured. Her three children, Leonard, 16, Helen, 14, and May 11, were hurt, along with David Payne, 14, and his brother, Jack, 15, sons of Herman Payne of Foster.

The most seriously hurt was Leonard Horan, who suffered a skull fracture, dislocated hip and other injuries. He was taken to the Sacred Heart Hospital at Eugene.

The others were brought to the Langmack General Hospital at Sweet Home.

State police said the crash occurred at 6 a.m., as the unladen logging truck was turning left off the highway into a service station. The westbound car collided with it head-on. The truck driver, Harold R. Wodtli, Sweet Home, suffered undetermined injuries.

Hospital attendants said Helen and May Horan suffered face cuts, David Payne a jaw fracture and face cuts, and Jack Payne a broken arm and cuts.

Bible Conferences Scheduled At Glide

Two faculty members of the Multnomah School of the Bible in Portland will speak at special services at the Glide Baptist Church Wednesday, Thursday and Friday evenings at 7:30.

The two, Rev. L. Dwight Custis and Dr. Ted L. Bradley, will conduct the three-night Bible conference as part of a new program in the summer calendar of the school. Under the program, the members of the school's faculty are appearing in short Bible conferences in local churches throughout the Northwest. Some 20 such conferences are being conducted during June and July in churches which request them.

Custis is instructor in English Bible exposition and related subjects at the Portland school and Dr. Bradley teaches Bible doctrine and New Testament Greek. Both men have appeared at summer Bible conferences at Mt. Hermon in California and Glen Dawn in Washington.

'ANGEL' MARRIED

PARIS — Genevieve de Gard Terraube, "the angel of Dien Bien Phu," was married to Capt. Jean de Heaume de Beausocq, a French parachutist officer, earlier this week, friends reported Tuesday.

Last Winter's Earth Slides Over State Proved Costly

PORTLAND — Last winter's earth slides caused greater damage than is generally realized and the whole subject of slides needs expanded study, the state Department of Geology reports in its publication, the Ore-Bin.

Herbert G. Schlicker, geologist with the department, reported that Multnomah County alone—outside the city of Portland—had 109 slides during the winter. The cost of slide repair in the county and in Portland for streets and water systems ran to \$325,000, he said.

Moreover, he said, the state Highway Department estimates \$100,000 a year slide damage to state highways in the four years up to last November.

Construction cost of the relocated Willamette Highway near Lookout Point Dam was increased \$500,000 by slides.

In addition, Schlicker said, the cost to the Forest Service, logging companies, railroads, power and telephone companies and other businesses and individuals adds to the toll taken by unstable slopes.

Practically all slides show some sign of coming before the ground actually gives way—bent trees, tipped fence posts or tension cracks at the upper edge, Schlicker said, and he added that every old slide is a danger sign.

Last fall's severe early frost no doubt played a big part in the unusual number of slides during the winter, Schlicker said, because formation of ice crystals expanded the soil and gave increased moisture capacity. Then when unusually heavy rains came the ground took on more moisture than many slopes could handle without slipping.

Schlicker said that control of slides on long slopes often is economically impossible and that sometimes it is cheaper to let slides clog a highway and then clean up the debris than to treat the slope to prevent a slide.

On a small slope, he said, the soil generally can be stabilized by taking the load off the top of the slope and placing material at the toe, and by controlling surface drainage and tilling out sub-surface water.

Oregon Highway Traffic Delays Report Issued

SALEM — The Oregon Highway Commission weekly construction and traffic report:

Columbia River Highway—2.4 miles construction on Bradley Park-Wauna section, possible slight delay.

Umpqua Highway—Construction between 1 and 8 miles east of Reedsport, possible delay.

Coos Bay-Roseburg Highway—Construction for 2 miles east of Coquille, possible minor delay.

Willamette Highway—7 miles of construction west of junction with U.S. 97, possible minor delay.

Sherman Highway—Construction Moro to Grass Valley, possible minor delay.

The Dalles-California Highway—Construction Chemult to Diamond Lake Junction, possible minor delay.

Portland-Salem Expressway—Closed by construction Wilsonville to Salem, detour via 99E.

Pacific Highway—Construction for 4 miles north of Myrtle Creek and from Goshen to Creswell, possible minor delays.

Oregon Coast Highway—Construction Kernville to Depoe Bay, 11 miles south of Bandon and 13 miles south of Port Orford, possible minor delays.

Paulina Secondary Highway—Construction for 5 miles west of Post, possible minor delay.

There are such solutions, too, he said, as driving piling-of proper strength and deep enough—and building retaining walls but these need to be aided by proper drainage and re-sloping.

There are problems of design and of anchoring and of using the proper material and of compacting it, Schlicker said, and so "persons familiar with design of retaining walls should be given the responsibility."

He concluded that probably the greatest cause of retaining wall failure is poorly compacted fill material of the wrong kind, behind it. Such a fill, he said, should be of well graded soil compacted by hand or pneumatic tampers in layers not exceeding six inches.

Installed properly, a retaining wall can be a satisfactory solution on a steep hillside, he said. The overall problem he described as reaching a satisfactory level of cost—factors which vary with the hillside.

Argentine Revolt Leader Caught, Will Be Shot

BUENOS AIRES, Argentina (AP)—Gen. Juan Jose Valle, one of the top leaders in last weekend's revolt, was captured Monday night in a raid on a downtown apartment.

This was disclosed in an official government statement Tuesday. It gave no details.

But a dispatch of the Argentine news agency Telam said Valle was seized in an apartment building only 20 blocks from Government House, headquarters of the Aramburu regime he tried to overthrow.

A top official at Government House said privately "Valle will be shot."

Official statistics on the executions already carried out were revised downward Tuesday. Government figures originally totaled 38, military and civilian. But a newly completed roster, eliminating some duplications, accounted for just 25. Three colonels were among the men felled by firing squads.

Umpqua District Needs A Teacher

By MRS. ONA MUNSON
Lois Mode, clerk at Umpqua School, reports that a vacancy exists for a teacher for the third and fourth grades for next year. She asked anyone interested to contact her.

Meanwhile, she announced that the annual school election is scheduled next Monday from 2 to 8 p.m. Choirliars Meet

The Calapooia Choirliars met at the clubhouse for their regular practice last week. Refreshments were served.

Mrs. Bondensher from San Francisco, Calif., has arrived at the home of her daughter, Mrs. Elsie Monett. She plans to spend the summer here.

Mrs. Emma Lansing has returned to her home in Cottage Grove after spending several days at the home of her daughter, Mrs. Delmar Murphy, at Umpqua.

Mrs. Ellen Krohn of Portland and Mrs. G. A. Douglass of Dufur, sisters of Robert Mode, were house guests over the weekend at the home of the Modes on their ranch near Umpqua.

Mr. and Mrs. Arnold Gurney have moved from California and plan to make their home at Umpqua.

School Completed
The Umpqua Sunday school vacation Bible classes completed their work on Saturday and gave their program on Sunday. Twenty-eight children attended.

Mrs. Genevieve Murphy has left Umpqua for Monmouth where she plans to attend an eight-week course of summer school at Oregon College of Education.

Mr. and Mrs. Carl Judd left on an extended vacation trip into Arizona, Idaho and Washington. They plan to visit friends and relatives in several places.

Mr. and Mrs. Will Cass have sold their ranch on Joelson Road near Umpqua and have purchased a home in Roseburg where they have moved. Mr. and Mrs. Neilson from Bakersfield, Calif., have bought the ranch and will move here in the near future.

The Calapooia Farm Bureau held its June meeting at the clubhouse. A potluck dinner was enjoyed at 7:30 and a program and business meeting followed.

Winthrop Rockefeller Takes Bride In Idaho

HAYDEN LAKE, Idaho (AP)—Winthrop Rockefeller, 44, and his bride, the former Mrs. Jeannette Edris of New York, were married Monday in a surprise ceremony.

Although the new Mrs. Rockefeller is well known in Washington and Idaho circles, the first news of her wedding came in the form of a printed release handed out to newsmen in Spokane, some 30 miles from the Hayden Lake cabin where she was married.

RENT AN Ironrite

Only \$2.00 a week COVERS EVERYTHING

delivery, service and instruction by factory trained person! (Rental May Be Applied On Purchase)

From everything you can wash, beautifully, in less than half the time! Take all the hard work out of ironing, and up feeling RELAXED and RESTED besides, because with Ironrite you sit and rest while the ironing gets done. No obligation to buy. For more information, call
