**Vitamins In The Raw
Shipped To President**

SEATTLE (AP) — A 125-pound package of vitamins in the raw was on its way to President Eisenhower this week.
It was a halibut, fresh from Alaskan waters. The Halibut Fishermen's Wives Assn. sent the gift to the ailing president along with this message:
"This halibut, with a recipe for its preparation, is being sent to you in the hope that you will be able to partake of this nourishing food from the sea, with its many healthful qualities, particularly suitable where a light diet is necessary."

**Home Building Running
Behind Period Last Year**

WASHINGTON (AP) — The government reported here that home building during the first five months of 1956 ran 100,000 units or 17 per cent behind the rate in the same period last year.
The Labor Department's statistics bureau estimated home construction in the January-May period at 463,000 units compared with 561,000 during the same 1955 period. However, this year's total compares favorably with similar 1951-54 periods, it said.
Builders started 108,000 home units in May, a seasonal gain of 2,000 over April, but about 30,000 less than May last year.
