Chicago Bearing Down In Fight Against Polio

CHICAGO (AP)—Spurred by a medical expert's prediction that Chicago's polio outbreak will reach the epidemic stage, city health officials are bearing down on efforts to combat the spread of the disease.

Board of Health President Herman N. Bondesen, at an emergency meeting yesterday directed speedy action in a drive for more nurses, physiotherapists and medical equipment to fight the upsurge.

He also planned a more widespread educational program aimed at urging all Chicagoans to take Salk vaccine shots.

As part of this phase, a ventriloquist, Paul Stadelman, 56, will accompany a mobile vaccination unit starting today at a housing project in the West Side area which has the city's highest incidence of infection. He'll attempt to persuade children not to be afraid of the shots.

The West Side area has 222 of 49 per cent of Chicago's 653 cases—highest in the nation.

MOSQUITOES IMMUNE
EUGENE (AP)—Lane County mosquitoes have developed an immunity to the insecticide DDT, mosquito control director Milton Buehler has reported.

He says that a stronger poison must be used on the insects and he recommended malathion, a more expensive product.

The county Mosquito Control Advisory Board voted Thursday to switch to the new chemical at least for as long as funds hold out.
