

Chutist Feature On Fair Agenda

Shades of the Gay Nineties! An old-fashioned balloon ascension act will be a featured attraction each day of the Douglas County Fair at 6 p.m.

This unique form of entertainment had its heyday in the era of world fairs and expositions but fair manager Dick Turley reports that the act has proven amazingly successful at other recent Western fairs.

The balloon used will be a big silk sack completely open at one end and filled with warm air. A skilled aerial artist will handle the balloon during its ascent. At a certain altitude the balloon passenger will become a parachute jumper by releasing his hold on the balloon and will descend to the ground.

Turley states that the act should be a colorful and different spectacle for fairgoers.

County Fair Adds Horticulture Space

Sweeping changes in the floral department of the 1956 Douglas County Fair have been revealed by Mrs. C. J. Bielman, Sutherlin gardener and department superintendent.

Although the artistic arrangements and horticultural specimens will remain, as before, in the refrigerated showrooms, a new ventilated roof covering over 2,000 square feet will be installed outside to house garden club and potted plant sections of the show.

"Ours is the only fair in the state with cooled quarters for the floral show," Mrs. Bielman noted. "These facilities and the wonderful support of garden clubs and others enable us to have the best floral show in the state," added Fair manager Dick Turley.

Rules for the various horticultural classes remain about the same this year, Mrs. Bielman reported. The artistic arrangement section will carry such classes as "Country Kitchen," "Grandma's Flower Garden" and "Harvest Time." Entries are open to individuals and garden clubs throughout the county. The deadline for floral entries has been set for 6 p.m. Aug. 22.

Ample Parking Ready For Autos At Fair

Ample, and free, parking is promised for fairgoers the last four days of this week, according to Fair Manager Dick Turley.

The traffic, as at most of the big events at the fairgrounds, is to be handled by the Douglas County Sheriff's Reserve.

Most of the parking will be done in the large open lots to the west of the fairgrounds, and lanes will be left open in the parking areas so that hasty exit may be made at any time.

The hard-working reserve is to be on duty through all four days of the big show.

The first U. S. Census in 1790 listed 3,929,214 people.
