Woman In Coma Expects Baby In Three Months

NEWCASTLE, England (AP)—A woman who has lain in a coma for 100 days with a brain injury is expecting a baby. If 22-year-old Ellen Moore does not recover consciousness soon, doctors say her young salesman husband could be faced with a terrible choice—whether the life of the mother or of her unborn baby should be saved. The baby is due in three months. Mrs. Moore has been in the General Hospital here since a heavy log, falling from a passing truck, hit her as she was wheeling her 18-month-old Paul in a baby buggy.
