Scott Paper Co. Denies Charges

WASHINGTON (AP) — The Scott Paper Co. of Chester, Pa., has denied charges in a Federal Trade Commission complaint that the company violated the anti-trust laws in buying three other plants. The three companies acquired by Scott are: Soundview Pulp Co. of Everett, Wash.; Detroit Sulphite Pulp and Paper Co. of Detroit, Mich.; and Hollingsworth & Whitney Co. of Boston, Mass.

FTC said in a complaint June 1 that Scott was the dominant manufacturer in production of paper products for sanitary and household uses. It said that for Scott to acquire other companies would lessen competition or tend to create a monopoly.

Chandler Views Presidency Now

FRANKFORT, Ky. (AP) — Gov. A. B. Happy Chandler's aspirations for the presidency apparently have increased with the passing of the onetime Clements-Wetherby political powerhouse into Republican hands.

The combine's collapse was completed early this week when the GOP's Thurston B. Morton went ahead to stay in his neck-and-neck Senate race with Sen. Earle C. Clements.

Former Gov. Lawrence Wheth-

erby had been handed a resounding defeat earlier by John Sherman Cooper for the four years remaining in the Senate term of the late Alben W. Barkley.

Commenting on the election Chandler said he will seek the Democratic presidential nomination in 1960 if he can get party support.

Units Of U. S. Fleet On Move From West

LOS ANGELES (AP) — Units of the U. S. fleet are on the move from West Coast ports.

In an air of international tension, the carrier Wasp is loading planes at San Diego, with the cruiser Helena and four more destroyers scheduled to leave from Long Beach.

No sailing time was announced for these vessels, but they were expected to rendezvous at sea with the Philippine Sea and Wasp. Two other carriers, the Shangri-La and Yorktown are reported to be loading at Alameda.

Vice Adm. Robert L. Dennison, commander of the first fleet at San Diego, said two Navy tankers would be de-mothballed and outfitted at Long Beach for active duty.

TWO GIRLS, A CHEVY AND A RECORD!

A meaningful achievement in automobile performance

Most automobile performance records you read about these days are set on a track or closed course. The results are usually pretty difficult to relate to the kind of day-in, day-out driving most of us do. Running at safe and legal speeds, a '57 Chevrolet recently chalked up a new coast-to-coast record on the road. And the way it set this record is even more important than the record itself!

A new '57 Chevrolet recently proved it has the qualities most people look for in a car—and proved it on the roads you travel, under the same conditions you drive in every day. It broke the record for the coast-to-coast run from New York to Los Angeles (certified by NASCAR). It was a strictly stock, V8-powered Chevy. It was driven by two young ladies.

This fact, we think, is even more important than the impressive new record set by Chevrolet. Oh sure, it's nice to know that a Chevrolet can cross the country in one uninterrupted span—and do it in less than 57 hours. It's a tribute to Chevrolet's great-hearted V8 engine and solid road-worthiness that it could travel day and night for 2,913 miles at safe and legal speeds—and better the existing record for the trip by more than three hours. But it's only when you consider that all the driving was done by 98-pound Betty Skelton and her friend Caroline Russ that the true significance of this record run becomes apparent.

When a pair of young ladies step into a car and drive it round the clock to a new transcontinental record, you know that car is easy to drive. You begin to see what we mean by smooth-cruising comfort... by nailed-to-the-road stability... by sweet-feeling sureness of control... by quicksilver responsiveness.

We'd like you to get to know this new Chevy. Stop in and see how beautifully it does all the things a car should do.
