Anchor School To Stay Closed Rest Of Year

Canyonville school board members have voted not to re-open the Anchor Elementary School this year.

The unanimous board decision was made this week. However, by consent, the school probably will be open during 1957-'58. The board will include the operation cost in the Canyonville budget for that year.

The decision to continue the present policy came, the board told News-Review Correspondent Virginia Proctor, because the county rural school board would agree to pay only a part of the reopening cost. The board said only nine pupils were affected.

Three Canyonville board members made the decision: Acting Chairman Paul Strahan and member Henry Ford.

A request that the Anchor School be re-opened came from residents in the area who objected to the lengthy transporting, some 65 miles, of their children to Canyonville for class. The board, apparently unable to finance the school, then went to the rural board for assistance.

That joint meeting in Roseburg recently drew only a part of Canyonville board, and no decision was made.

Anti-Government Violence Flares Around Poland

WARSAW (AP) — New anti-government violence was reported in Poland Wednesday in the wake of the mob attack on the Soviet consulate at Stettin. Eighty-eight persons, many of them youths, were reported jailed for the Stettin riot.

Trybuna Ludu, official organ of the Polish United Workers (Communist) Party, disclosed a crowd attacked a police building in Olecko, a town near the northeastern city of Bialystok.

The Communist paper reported that crowds demolished municipal offices at Nowy Ciechocinek in the northern midlands.

Other demonstrators beat up a local Communist Party secretary at Nieszawa, in the same district.

The paper added: "More such incidents can be reported."

Poland's nationalist Communist government, seeking to avert any repetition of the Soviet military intervention in Hungary, sped an apology to the Soviets for the attack on the Russian consulate in the outburst at Stettin Monday night.

The published reports made clear that the Stettin incident was the gravest outburst of disorder in Poland since the Poznan "freedom riots" last June, when at least 53 persons were killed and hundreds wounded in a three-day demonstration. But a reliable source in Stettin said the demonstration was broken up without shooting or "undue violence."

French Airliner Brings 45 Hungarian Athletes

MILAN, Italy (AP) — A French airliner landed here Wednesday with 45 Hungarians from the Olympic Games in Melbourne. Most of them were expected to go on to Budapest by special train.

"We must return to Budapest because our families are there," one member of the Hungarian water polo team told reporters.

Dr. G. Rozgony, fencing team official, said "most members' of the group would go on to Hungary.

"It may be," he added, "that about 10 per cent of the athletes will prefer to remain here in order to have exact news of their families. Those knowing their relatives are in Hungary will return home."

A second plane carrying 82 more Hungarian athletes is scheduled to arrive here Thursday.
