

New Benches Planned For City Park Loungers

Loungers in the small park along side the city office building at 744 SE. Rose St. will have new benches this summer.

City workers started placing the new benches in the park Tuesday to replace the old, weathered ones. The new ones are being made in the city's shop with supports made of curved iron pipe and seats and backs made of wooden slats. The pipework is painted aluminum and the wood part green.

City Manager George Farrell said about 12 benches have been finished and that a total of 36 was planned. Approximately 24 of the benches will be placed in the downtown park and the rest of them used at the new city park near the Veterans Hospital.
