

Italy's Government Faces Election Death

ROME (AP) — The fall of Italy's three-year-old government and new elections appeared imminent today as anti-Communist Social Democrats pushed plans to quit the coalition. The shakeup was not believed likely to affect Italy's pro-Western foreign policies, however. The main differences involved are purely domestic. Italy's non-Communist political parties agree on the need for continued membership in NATO.

Tommy Manville Marries No. 10, Texan And Tall

NEW YORK (AP) — White-haired Tommy Manville said "I do" again yesterday and married a towering Texas showgirl.

Blonde Patricia Gaston, 27, became the newest Mrs. Manville in a 90-second ceremony at the fashionable Hotel Pierre. It was the first marriage for the San Antonio girl.

Manville, a sag in his shoulders but a champagne sparkle in his eyes, said of his latest marital adventure:

"It was the fastest ceremony and it will last the longest. I knew I wanted to marry her the minute we met. She says it's a chemical reaction."

The 63-year-old asbestos heir met Miss Gaston about three weeks ago.

Asked what she liked best about her husband, the beaming bride replied: "His sense of humor."

As an historical aside, Manville told newsmen his first nine wives have cost him about 2½ million dollars in alimony and other settlements.

The latest Mrs. Manville retired last week from the "Ziegfeld Follies," where she served as one of the lovelier sets. She is almost six feet tall.

Renee Reifel

She wants to know what we did with the \$401,518,000

RENEE REIFEL is a secretary in the marketing department of Union Oil. She is also through our Employees' Incentive Plan—one of our 5,906 employees who hold shares in the firm.

This entitles her (along with over 65,000 other people who own shares in Union Oil) to a report on the 66th year of business of the 47th largest industrial company in the country.

How we spent it

In 1956 our customers paid us the record amount of \$401,518,000.

We spent 72.1% of this—or \$289,481,000—with over sixteen thousand other companies and individuals with whom we do business.

The more than 1000 tax collecting agen-

cies took another 3.7% or \$14,830,000. This does not include the \$74,120,000 we collected from our customers as fuel taxes and turned over to governmental agencies.

Wages and other benefits for our workers and their families amounted to 15.7%, or \$62,966,000 of our income.

The net profit

This left 8.5%—or \$34,241,000—as net profit. Slightly more than half of these earnings—\$18,261,315—were paid in cash dividends to Renee Reifel and our other 65,000 share owners. (Note that our share owners received only about three and a half million dollars more than the various tax agencies, which contributed nothing to the business.)

The balance of our net earnings—equal to 4.0% of our customers' dollars—we

reinvested in the business to expand and modernize facilities.

It seems to us that this report does more than give an account of our stewardship to Renee Reifel and our other share owners.

It points up the broader base of ownership of American business. In the last four years, for example, the shareholders of all companies listed on the New York Stock Exchange increased by 33%. Union Oil did even better—41%.

This could happen only in a freely competitive economy that encourages and rewards individual effort.
