May is the Month TO GET YOUR BEST DEAL ON MERCURY / 57

This month, your Mercury dealer is kicking off the biggest selling season in his history. You gain two ways. First, your trade-in car is worth more now than it will be later on. Second, your dealer now has his year's largest stock, allowing high volume, low margin trading. Result: your new Mercury will cost you less now than it will later in the year.

Beyond these economic facts, there's the fun and pride of owning this most advanced of current models while it is still new, still an eye-catcher wherever it goes. A visit to your dealer will prove that Mercury is the top value in its field. See him soon.

See how Mercury stacks up! Contrast Mercury/57's size, comfort, power and features with anything in its price class—say Car "B" and Car "O." Mercury is inches bigger, inside and out, the largest size increase in the industry. Only Mercury has a full range of engines with more horsepower per pound. And only Mercury gives you features like Keyboard Control, Floating Ride, optional dual headlights. See why Mercury/57 is the most-for-the-money car.
