

FARM-FOREST-FACTS

By Bob Bradley
County Extension Agent

This week we shall conclude the third installment of the report of the Douglas County Farm Forestry Committee. To begin with we shall start with Part III. Specialties.

Our farm woodlands are producing ferns, evergreen huckleberry, salal, Oregon grape, mistletoe, sphagnum moss and fir boughs for florists and for the Christmas tree trade. In addition, such items as cascara bark and fir pitch may be collected for medicinal purposes. Burls are also valuable.

Hardwoods and less valuable softwoods also offer opportunity for further utilization. Although certain amount of softwood that is burned or left over each year. Also, with a pulp market for bolts or small logs, 15 to 25-year-old stands could be thinned, thus bridging the gap between Christmas trees and pole thinning. Hardwoods could also enter this picture to a lesser degree.

2. There is also a need for mills of this type that produce pressed board or chip board from both softwood and hardwood waste.

3. There is an opportunity for more secondary manufacturing in softwoods, such as that which could produce sash and door stock, moulding, finish lumber, box stock, wedge type heel stock, and even toys. Incense cedar, whose wood is easily worked, should not be overlooked in this field. This species is well adapted to growing on rougher and drier sites, often difficult to reestablish in other species.

The quality of our hardwoods is equal to those in other parts of our country. Certain of these, such as red alder and maple, are well adapted to the manufacture of furniture. Other hardwoods, such as chinquapin, might also be used in this type of manufacturing.

5. Although there are a few wood-turning industries in the county using myrtlewood, there is an opportunity for further expansion in this field. Small home-type industries of this type producing such items as dowels, handles, bobbins, spoons, crutches, furniture parts and toys from hardwoods could provide employment during the winter months. Many of these items are, at present, imported from other regions of the country.

6. Small portable-type mills sawing oak could provide lumber, planing and flooring stock from the better portions of the tree and cross-ties from the poorer portions. Other quality logs of oak or ash could yield ladder round stock. Other close grained hardwoods could produce heel stock.

7. Possibilities also appear in the hardwood veneer field. Madrone when properly seasoned is as beautiful as mahogany, while maple and cottonwood also show some promise.

ASC Cost Sharing Government Program: Investigate ACP payments for planting, pre-commercial thinning, pruning, release work, site preparation and cultivation and the Soil Bank plan.

Technical Assistance: Consult your extension office for specific information on farm forestry and forestry demonstration areas and seek the individual assistance of your county extension forester on the ranch or farm woodland. For additional information on forestry, consult the Oregon Forest Products Laboratory, the State Board of Forestry, your forest protective and the Bureau of Land Management.

Education: The committees favor the establishment of a permanent timber harvest tract in the county for the purpose of demonstrating all phases of forest management and the costs and profits from same (profits to revert to the owner).

Exhibitors may place one entry in each class. Mrs. Ferguson said, with all entries being placed between 9 and 11 a.m. and left until 4:30 p.m. Suitable containers must be furnished. Pop bottles are satisfactory for single specimens. Ribbons will be awarded in the competitive classes.

Listed in the competitive schedule are: horticultural single specimens for roses, iris, calla lily, columbine, delphinium, lily, snapdragon, peony, rhododendron, miscellaneous flowers and house plants, including foliage plants; arrangements for adults; as you like it, baskets (tall or low arrangements), centerpiece, driftwood with flowers, mantle, miniatures, roses, columbine, iris and some or more; shadow boxes; dish gardens; organizations; spring flower parade of mixed flowers; arrangements for juniors or children; dish gardens and wild flowers.

More details on the entries may be obtained from one of the garden club members and complete schedules are in the mail this week. Mrs. Ferguson said.

The Riddle Garden Club's May meeting was held at the home of Mrs. Asa Lawson with Mrs. Ralph Kinkade and Mrs. Harry Williams as co-hostesses. A dessert luncheon was served to the 22 present, reports correspondent Erma Best.

Mrs. Darrell Carter, president, appointed standing committees as follows: Hospitality, Mrs. E. Coleman, assisted by Mrs. Robert Linder; membership, Mrs. R. E. Paetz; historian, Mrs. G. N. Riddle; projects, Mrs. Earl Mollard; program, Mrs. J. L. Aikins, assisted by Mrs. E. P. Blundell; Mrs. Austin Wilson; and publicity, Mrs. W. E. Best.

Mrs. Edward R. Harris and Mrs. J. P. Brumbach of Roseburg were present to explain the proposed textile painting class. Mrs. Harris brought several finished articles for display. The names of those planning to join the class should be given to Mrs. Carter by May 15.

A motion was made and carried to amend the club constitution for open membership. June roll call is to be answered by a project suggestion.

The June meeting will be held at the Masonic Hall on the 5th, with Mrs. Earl Mollard, Mrs. Stanley Nichols and Mrs. Horace Hiles as hostesses.

ROSE SOCIETY
A section for rose paintings will be added to the June 1 Rose Show scheduled in Roseburg, reports Rose Society correspondent Rosa Heinbach.

Artists must limit their paintings to roses. The paintings must have been done in 1957. The painting may show a single rose, a group or an arrangement of a named variety. The proper foliage and thorns of that variety must be shown. Judging will be on the basis of true color and likeness of the variety, as well as the art value.

Entries will be divided into two groups, advanced and beginner. Each group will have first, second and third prizes and honorable mention for the top entries.

Classes in each group will include rose paintings in oil and rose drawings or paintings in mediums other than oil. The event will be tailored to draw local artists and high school art students.

with the Garden Clubs

DAYS CREEK
The Days Creek Garden club will hold its annual flower show, the "Spring Flower Parade," Saturday, May 25, at the Youth Center building in Canyonville, according to Mrs. Bruce Ferguson of Canyonville, general chairman of the event.

Individuals, nurseries and organizations have been invited to enter exhibits in all classes and three divisions adults, juniors (13 to 18 years) and children (5 to 12 years).

Mrs. Donald Snyder of Days Creek is co-chairman and other committees and members include: registering, Mrs. Stella Dodge and Miss Georgia Gardner; guest book, Mrs. Charles Farmer; cashier, Mrs. Herman Bauer and Mrs. Bud Gaulke; flower display, Mrs. Archie Ferguson, Mrs. Frank Brown and Mrs. Richard Williams; plant sale, Mrs. John Toomey, Mrs. Rommie Hendrix, Mrs. Delbert Poole and Mrs. H. O. Burgin; hobbies, Mrs. Clarence Richardson and Mrs. Walter Gosnell; candy, Mrs. Ivan Kelly; placing of flowers, Mrs. Ray Wright, Mrs. Farmer, Mrs. Kelly, Mrs. Bauer and Mrs. Dodge; and refreshments, Mrs. Snyder, Mrs. Bruce Ferguson, Mrs. G. M. Krell and Mrs. Roy Matthews.

Exhibitors may place one entry in each class. Mrs. Ferguson said, with all entries being placed between 9 and 11 a.m. and left until 4:30 p.m. Suitable containers must be furnished. Pop bottles are satisfactory for single specimens. Ribbons will be awarded in the competitive classes.

Listed in the competitive schedule are: horticultural single specimens for roses, iris, calla lily, columbine, delphinium, lily, snapdragon, peony, rhododendron, miscellaneous flowers and house plants, including foliage plants; arrangements for adults; as you like it, baskets (tall or low arrangements), centerpiece, driftwood with flowers, mantle, miniatures, roses, columbine, iris and some or more; shadow boxes; dish gardens; organizations; spring flower parade of mixed flowers; arrangements for juniors or children; dish gardens and wild flowers.

More details on the entries may be obtained from one of the garden club members and complete schedules are in the mail this week. Mrs. Ferguson said.

The June meeting will be held at the Masonic Hall on the 5th, with Mrs. Earl Mollard, Mrs. Stanley Nichols and Mrs. Horace Hiles as hostesses.

GOOD EARTH
Members of the Good Earth Garden Club will meet at Mrs. Joe Brumbach's home in Dixonville at 9 a.m. May 13.

The "birds-and-flowers" blanket will be quilted during the morning. After lunch, election of officers will highlight the business meeting. Roadside planting will also be discussed, and Mrs. Ray Banning will talk about plans for a picnic in June. Women are asked to bring sack lunches. Refreshments will be served by Mrs. Brumbach.

LOOKING GLASS
Mrs. Delbert Oliviant has been elected new president of the Looking Glass Garden Club.

Others elected at the last meeting were: Mrs. Neal Meyer, vice president; Mrs. Mary Jacoby, secretary; and Mrs. Perley Orr, treasurer.

The subject at the last meeting was herbs. Mrs. Lucille Grass gave a report on uses and methods of drying herbs. She had several varieties from the garden and reported on methods of using them.

Mrs. Del Oliviant also spoke. Her subject was giberelle acid, which reportedly makes plants grow faster.

The hostess, Mrs. Clifford Boling, served refreshments after the meeting.

GLENDALE
The last meeting of the Glendale Federated Garden Club was held at the home of Mrs. Ruth Vonderhyde and plans were made for a food, plant and cut flower sale.

Mrs. Ida Edson made a Cooper's Gardens report on the culture of Spanish and Scotch broom. Mrs. Lucille Smith gave a report on landscaping plans and culture of Japanese maples.

Refreshments were served and the group toured Mrs. Vonderhyde's yard.

DEVELOPED RADIATION DRUG—Thanks to the work of Dr. Richard R. Overman (left), physiologist at the University of Tennessee in Memphis, a drug for nuclear radiation is now undergoing tests on human beings. The drug, known as A-E-T, was developed at Oak Ridge National Laboratories. It was tested on monkeys in Memphis and found to be 100 per cent effective against radiation death when certain doses were given. Shown with Dr. Overman is his assistant, B. G. Crouch.

U. S. Court Upholds Conviction Of Matusow
NEW YORK (AP)—The U. S. Court of Appeals has upheld the perjury conviction and five-year prison sentence of Harvey Matusow, admitted former Communist.

Matusow, 28, was convicted Sept. 26, 1956, on five counts of perjury in swearing that Roy M. Cohn, while an assistant U. S. attorney, had coached him to give false testimony in the trial of 13 second-string Communists.

Sixteen Navy Men Rescued

OAKLAND, Calif., AP—Sixteen Navy men aboard a huge Trade Wind flying boat were rescued Friday within a few minutes after the plane flopped into San Francisco Bay. All aboard were accounted for.

The Navy reported there were no casualties. The 80-ton flying boat, a successor to the famed Mars type plane, had just left Alameda Naval Air Station on a training flight.

A witness said the 2 million dollar craft "flopped like a bird" as it fell into the shallow water.

The plane came to rest on the tidal mudflat, much of it remaining out of the water. Soon it began to sink deeper into the mud.

Two Air National Guard pilots, flying Albatross amphibious planes, landed beside the Trade Wind and took off the 16 men. Some were lifted out of the water. Others were taken from two life rafts that had been tossed overboard.

The four-engine turboprop plane was trailing smoke before it fell. It hit three miles north of the San Mateo bridge across the bay.

RESIGNS
WASHINGTON (AP)—The White House announced Saturday the resignation of Frank D. Newbury of Pittsburgh as assistant secretary of defense for research and engineering, effective May 17.

FUNNY BUSINESS

FROM NINE TO FIVE By Jo Fischer

WE UNDERSTAND CONGRESS IS TALKING ABOUT RAISING THE POSTAGE RATE SO MY BOSS WANTS TO BUY \$100 WORTH OF STAMPS RIGHT AWAY.

Kellogg Grange Slates Birthday Supper, Films

The quarterly birthday supper of the Kellogg Grange will be held Wednesday. After the business meeting, pictures of Norway and Alaska will be shown.

At the last meeting of the grange, community improvements and plans for the summer were discussed.

A Mother's Day program was the feature of the social hour, with Mrs. Edgar Madison, Loren Fisher and the Kestones girls taking part in a pantomime. Mrs. Hertha Crandall gave a reading, and Carolyn Fisher and Cathy Crandall sang.

Gifts were presented to Mrs. Edgar Madison for being the oldest mother present; Mrs. Lillie Garrison for being the mother present with the most children; and Mrs. Betty Brown as youngest mother present.

The Home Economics Club of the grange have prepared wool for a sound-proof mothers room and a special prayer room. Construction will be of wood and the exterior will be set off with glass and brick.

The date of construction has not yet been determined, but members hope to be able to start it some time this year, reports pastor Riston.

ATTEND CONVENTION

Millard M. Smith, Sutherlin, Harry Hatcher, Roseburg and A. W. McGuire, Winston, are attending the Pacific Coast states convention of Omaha Woodmen Life Insurance Society in Los Angeles, Calif.

More than 80 delegates and officers, representing some 10,000 members on the west coast, will attend.

Speakers will include R. N. Dossman, San Antonio, Tex., and Robert L. Kirk, Littlefield, Tex., national directors to the society, reports correspondent Mrs. Brittain Slack.

Memorial Service Held For Deceased Members

Mrs. Ivan Pickens conducted a memorial service for seven members of the Women's Society of the First Presbyterian Church who had passed away during the year, at a recent meeting.

The devotions were led by Mrs. E. L. Hall and Mrs. John Adams gave a talk on "Our Heritage." Mrs. George Caskey gave a missionary sketch.

Members brought antiques to be displayed at the meeting.

FUNDS REFUSED

SALEM (AP)—The Oregon Senate voted Friday that the Pacific International Livestock Exposition in Portland should be deprived of its \$4,500 annual share of racing funds.

It sent back to committee a bill to delete that apportionment to the exposition on grounds it is privately owned.

Sen. Phil Brady (D), Portland, led the move.

NEW JOHN DEERE PTO RAKE
Matches Reel Speed to Volume of Crop
Now, every farmer can afford the luxury of top-notch, leaf-saving raking with the new, low-cost John Deere 350 PTO Rake. You can match the reel speed to the volume and condition of the crop exactly by using the proper tractor gear and handle setting. You'll make better windrows in every crop.

See us soon for complete details.
