## Foreign Aid Slash Urged On President

### Senate Committee Asks Program Of Less Expense To Taxpayer

Reporting on an intensive study of the mutual assistance program, the committee called for tighter coordination and streamlining of various foreign aid programs both to increase their effectiveness and to cut their cost.

Without suggesting any figure, the group said President Eisenhower should cut his aid requests below the revised \$3,800,000,000 figure he approved last week.

On the other hand, the committee said it must be recognized that the United States "may be threatened by military attack."

The committee gave a general nod of approval to Eisenhower's suggestion for giving most economic aid in the form of loans rather than grants.

Some Mistakes Cited It said it had found that some countries were getting weapons they cannot use to best advantage.

Gilkeson reiterated that a price war will "cost the dealer 35 per cent of their gross margin and it will break dealers."

In referring to tonight's meeting, Gilkeson gave an indication of what might develop. "Some of the dealers," he said, "would like to go all the way and drop prices below tank-wagon."

## President Visits With Montgomery

GETTYSBURG, Pa. — President Eisenhower and his World War II comrade, Britain's Field Marshal Viscount Montgomery, flew here Saturday for a long weekend at the President's farm.

One of the things they plan to do is rehash the strategy of the historic battle of Gettysburg.

Their weekend at the farm provided an opportunity for Eisenhower to conduct Montgomery on a tour of the historic Civil War battlefield. Eisenhower's home is on the edge of the battlefield.

Montgomery has expressed the opinion that if he had been in command at that 1863 battle, he would have fired both the Union and Confederate commanders.
