

European Heat Wave Toll Set At 130; Cooling Seen

LONDON (AP)—Europe's known heat wave deaths soared to 130 Monday.

Temperatures dropped a bit in Northern Europe, but Italy sizzled in the hottest weather there since World War II. Some readings were around 100 degrees.

Fifteen inmates died in a night of horror at a home for the aged in Venice. All were elderly and under treatment for heart ailments or other infirmities. All but two were women. The deaths were among 38 in Italy blamed on the heat.

In the Milan industrial area, factories shut down at noon for four hours as an emergency measure.

Bathers Succumb

About 20 persons died in Austria Sunday while bathing. Countless others collapsed. In downtown Vienna a young woman, apparently heat-stricken, was rushed to a first aid station after disrobing on the street.

Budapest was short of water. Supplies failed entirely in some higher parts of the Hungarian capital.

West Germany reported seven heat stroke deaths and several drownings in the last few days.

A severe thunderstorm ended the hot spell in Berlin, but smashed windows and blew the roofs off some houses. One person was killed and nine were injured.

Britain Gets Storms

Thunderstorms have punctuated the heat wave in Britain, where at least five persons died in the hot weather.

At Lutworth Cove, a south coast beauty spot, rains softened the cliff face and sent hundreds of tons of rock tumbling on a crowded beach. More than 100 holiday-makers were injured.

Rains also fell on Paris, where seven deaths from heat stroke and 18 drownings have been reported in 10 days. The temperature there sank to 76.

Eleven deaths were reported in Belgium and 15 in the Netherlands, most of them from drowning. Five drowned in Norway.

Boy Scouts' Jamboree City Awaits Invasion Of 60,000

VALLEY FORGE, Pa. (AP)—Jamboree City, a man-made temporary community built for Boy Scouts only, is ready today for the greatest gathering of American youth in the nation's history.

The Scout troops begin moving in Tuesday on the hallowed, historic rolling hills made famous by George Washington's Revolutionary War army.

Nearly 60,000 Boy Scouts and their adult leaders, ready and anxious to show off in-the-field scouting accomplishments, pour into this city of 25,000 tents in the next three days. On Friday the day-and-night program of the fourth National Jamboree officially begins. It ends July 18.

The 3,000-acre canvas city, when fully occupied, will become Pennsylvania's 16th largest city.

Jamboree City has everything for comfortable living — and camping.

Facilities Provided

Besides the tents — the sleeping ones hold two Scouts each — there are roads and hospitals, water, power and telephone lines, post offices, snack bars, an intercamp bus line and a daily newspaper.

O. B. Evenson, responsible for stocking the jamboree with provisions, says, "Never in modern times, even by the military, have 60,000 camped in one place and in a totally temporary city."

The statistics of operation are staggering. For instance: Eight miles of pipe carry 1 1/2

Embassy Closures Follow Peron Feud

BUENOS AIRES (AP)—Argentina and Venezuela closed their embassies in each other's capitals today in a feud over ousted dictator Juan D. Peron's activities in Venezuela.

Increasingly bitter exchanges built up over a week to the open break in relations between the two countries, located at opposite ends of the South American continent.

The Argentine ambassador to Caracas said on his way home that the Venezuelan government had begun a mass roundup of Argentines in Caracas opposed to Peron.

Argentina charged Venezuela was permitting Peron to mastermind a campaign of subversion and terror against Provisional President Pedro Aramburu's government from his exile in Caracas. Aramburu charged Peron and his followers have "woven a tremendous intrigue around Venezuelan authorities."

Venezuela alleged Argentine agents had plotted to kill political refugees in that country. Foreign Minister Jose Loreto Arismendi later asserted the rupture was provoked by the Argentine ambassador in Caracas, Gen. Carlos Toranzo Montero, because he had been refused an audience with Venezuelan President Marcos Perez Jimenez.

Portland Man Held In Fatal Stabbing

PORTLAND (AP)—A 54-year-old Portland man was held without bail Monday as police investigated the fatal stabbing of Luther M. Ridin, 37, in a North Side home Sunday.

Elton Campbell was arrested when police found a pair of blood-stained trousers at his home.

Fred Gunter, a friend of the victim, told police he heard a scream for help and broke down Ridin's door. Inside, Gunter said, he found Campbell with a knife in his hand and disarmed him by beating him with a broom.

Police said Gunter told them the men had argued over a \$3 debt.

Storms Follow Heat In Parts Of U. S.

By THE ASSOCIATED PRESS

More hot and showery weather, with storms in some areas, was the outlook for most of the country today.

It was a muggy night in many areas after yesterday's hot and humid weather but a little cooling appeared in sight for some regions.

Thunderstorms broke during the night and early morning in the warm, humid air pushing northward over the upper Mississippi Valley and the Great Lakes region. Severe storms hit some areas. Hail and heavy showers were reported from eastern Nebraska through southern Minnesota and northern Iowa.

Wind gusts up to 81 m.p.h. lashed Grand Island, Neb. Damaging wind and hail storms also struck areas in Michigan. Severe weather warnings were posted throughout the early morning, with the end indicated as cooler air from the Plains displaces the humid air in the upper Mississippi Valley.

A warming trend was reported in most areas east of the Mississippi Valley, with highest temperatures in the steamy air in the Great Lakes region.

Loaded Rifle Find Lands Two In Jail

Stopped Sunday night for a traffic violation, a 19-year-old Glendale resident and 15-year-old Roseburg boy found themselves in jail after a sawed-off rifle was found in their car.

Roseburg police had stopped the pair when they were found driving the wrong way on Jackson Street. First they cited the driver, Jeff Swake of Glendale, for not having a valid operator's license, and then took both to jail after discovering the weapon under the front seat of the car.

Police reported that the weapon was a .22 caliber single shot rifle which had been cut to an overall length of just under 15 inches. They said the youths claimed they had it loaded—for "protection."

Swake was charged with vagrancy and lodged in the city jail. The 15-year-old was booked for violating the city's curfew law and was taken to the county jail pending disposition of the case.

Doom Of 'Dam' Bill Predicted

WASHINGTON (AP)—One sponsor concedes that only a "miracle" will save Hells Canyon Dam legislation from burial Wednesday in a House Interior Committee pigeonhole.

Republican opponents are confident they will be able, with some help from Democrats, to kill bills which would authorize a high federal dam in the Snake River bordering Idaho and Oregon.

Rep. Gracie Pfoz (D-Idaho), sponsor of one Hells Canyon bill, told a newsman she guessed a "miracle" would be necessary to revive chances for the half-billion dollar project, which would flood sites of three Idaho Power Co. dams.

Rep. Miller (Neb.), ranking Republican on the committee, expressed confidence that opponents could muster more than enough strength to table all Hells Canyon bills, including one which was passed by the Senate last month.

Enacting Clause Out

The several pending Hells Canyon measures appeared doomed last week when a subcommittee struck the enacting clause from the Pfoz bill and reported it to the parent Interior Committee. The vote was 15-12.

Declaring "we've got it whipped," Miller told a newsman later the Republicans would pick up one or two additional votes in the full committee. The subcommittee has 29 members; the full committee, 31.

Mrs. Pfoz apparently was basing her hopes for a "miracle" on the possibility of vote switching when the committee acts Wednesday. Two Southern Democrats—Reps. Shuford (NC) and Haley (Fla.)—voted with the subcommittee's 13 Republicans last week. Rep. Powell (D-NY) was absent.

BAINBRIDGE, Md. (AP)—The grandparents of an Illinois sailor who died here last Thursday have been notified that he died of head injuries.

Seaman William A. Holthausen, 18, of Joliet, Ill., collapsed and died last Thursday just after he had been swimming in the pool of the Naval Training Center here.

A tentative ruling of a heart attack was not confirmed by an autopsy performed Friday, and a medical spokesman here said the Navy was seeking additional post mortem evidence.

The boy's grandparents, Mr. and Mrs. William Holthausen, reported from Joliet Sunday night that they received a notice that the seaman died of head injuries suffered in the collapse.

Young Holthausen had been aboard the aircraft carrier Canberra until March, when he was transferred to the Naval Dental School here. His father, Oscar, is believed to be living in Oregon, where he and the boy operated a bakery before the younger man enlisted in January, 1956.

Red Technology Threat To U.S., UO Prexy Says

LAKE ARROWHEAD, Calif. (AP)—The president of the University of Oregon says Russia is threatening U.S. technological supremacy by using educational programs borrowed from the United States.

"In contrast," he said, "Russia is using education as a sword for achieving Communist goals."

About 100 scientists, educators and industry representatives are attending the week-long conference. The purpose of the meeting is to find ways of improving science instruction in elementary and high schools as a long-range means of easing the shortage of scientists and engineers.

Burglars who entered the home of George Coatney on Carnes Road about five miles from Dixonville Thursday night made off with about \$100 worth of property before they were frightened away.

Extent of the loss was determined when the owners returned home and made a check of their belongings. They notified the sheriff's office that table knives, food-stuffs, men's clothing and a .25-35 rifle had been taken. The burglary was discovered by a neighbor, Herman Steele, who said he had flushed prowlers away Thursday night and had discovered that the house had been entered in investigating the next day.
