Massive Rock Fall Kills 2, Injures 2

WOODLAND, Wash. (AP) — A massive fall of rock crashed down on workmen at Swift Creek Dam, 40 miles east of here, killing two and injuring two others early Tuesday. Joe Hutchison, 46, Portland, and John Luker, 39, Cougar, Wash., were killed as 1,500 tons of rock broke loose above the main spillway at 12:30 a.m. They were in a rock drilling crew, which had been working suspended by safety ropes. As they finished their task and were coming down, the rock above started to let go, according to Jim Margason, safety engineer for the project. A rock cut the rope of one of the men and he was plunged downward under the falling rock. Another of the victims had just taken off his belt and was ready to leave when he was hit, Margason said. The injured men were R. P. Wilford, Cougar, arm cuts, and Rufus Moore, Cougar, head and side cuts. Neither was seriously hurt. Margason said the rock fall might cause some delay in work at the dam, but the extent was not immediately determined. The victims were employed by Jones-Tompkins Co., the dam contractors. The deaths were the sixth and seventh in the course of construction of the dam, a project of Pacific Power & Light Co.

Army Cutting Its Draft Call For September

WASHINGTON (AP) — The Army announced Tuesday it is cutting its September draft call to 8,000 men, compared with a quota of 11,000 in August. A Defense Department announcement said "the lower level of calls reflects the decision to reduce the number of personnel in the armed forces, announced July 16 by the secretary of defense." Secretary Wilson said then that strength of the armed services would be cut by 100,000 over a six-month period. The Pentagon announcement emphasized that "draft calls for the army will not be eliminated in the near future because of the reduced strength." The announcement added: "Some of the Army's 50,000 decline in strength will be accomplished through stricter screening of its personnel, particularly those desiring to re-enlist. This tightening of standards is in line with the need for a higher quality force. The Army's highest priority needs are for the special skills of technical warfare. Also, the Army is anxious to prevent early fluctuations in the training system." The 8,000-man call for September is the lowest since April 1955. From January through April of last year the monthly quotas remained at 6,000. A year ago, the September draft quota was 14,000.

BACK HOME WHERE SHE'S MRS. — Mrs. Mary Leona Gage Ennis, the deposed "Miss U. S. A." arrived home to the waiting arms of her husband, Air Force Sgt. Gene Ennis and their youngest son, David, 2. They met her at Friendship International Airport at Baltimore along with about 100 others. If she had to do over again, "No," she said she wouldn't again pose as a single girl. "I'm sorry, I didn't expect to win and if I had thought I had a chance I wouldn't have gone out there." She wouldn't talk to her local sponsors whom she says knew she was married and told her it was okay. (AP Wirephoto)

Marines Injured Fighting Fire In New Jersey

LAKEHURST, N.J. (AP) — Six Marines were injured fighting a roaring forest fire which threatened a housing development and two factories before it was brought under control early Tuesday. The blaze consumed 1,000 acres of parched scrub pine and hardwood. It was declared under control and almost out by Central Jersey Fire Warden Bernard C. Bartlett at 1:45 a.m. Three of the Marines, assigned to the Naval Air station here, were hospitalized with second and third degree burns. They were identified as Maj. E. E. Kauffer, commander of the Marine barracks; Lt. Thomas F. Kelaher, executive officer; and Pfc. John Frederickson. No home towns were available. Three other Marines were treated at the base infirmary and dismissed. A wind shift saved the 300-unit Pine Lake Park housing development near here. The blaze also threatened the Reid Manufacturing Co. and the Barrett Asphalt Co. A Navy fire truck was destroyed.

Hard Labor Given In 'Sidewall' Case

FUCHU, Japan (AP) — A 20-year-old American airman who objected to getting a "white sidewall" haircut has been convicted of disobeying orders and sentenced to four months at hard labor. The airman, Donald Wheeler of Cortez, Colo., also was sentenced to lose \$200 in pay and reduced to the rank of basic airman—private—from airman third class. Wheeler contended that he had "challenged" an order to get a "white sidewall" haircut because he had received a regulation Air Force trim only the day before the order was given. A "white sidewall" strips the hair from the ears to the crown, leaving only a fringe on top. After the court-martial board returned its verdict, Wheeler asked: "Can you imagine anybody going to jail for not getting a haircut?" The charges against Wheeler did not mention haircuts and the Air Force contended it was a "routine" matter of military discipline.

Nasser Saluted For Three Hours With Russ Guns

CAIRO (AP) — Egyptian President Nasser took the salute for three hours Tuesday while Soviet-built tanks and guns rolled past in a massive military parade on the fifth anniversary of the revolution which overthrew King Farouk. There were no great surprises in the arms display, although the proportion of Soviet-built equipment was far greater than in last June's parade. Russian-supplied MIG fighters and Ilyushin jet bombers streaked across densely packed Republic Square at rooftop level. The air show was all Soviet. Unveiled for the first time in Egypt were Russian rocket launchers and rapid firing anti-aircraft guns. Egyptian officers said the AA guns were used in the defense of Cairo against the British-French attack last fall. Missing from this year's parade were the big displays of French light tanks and British heavy tanks seen in previous years. Large numbers of these were casualties in the Israeli-British-French invasion last fall and are being replaced by Soviet weapons. Nasser reviewed the troops from a special platform with the army commander in chief and war minister, Maj. Gen. Abdel Hakim Amer, at his side. On the main stand were Canadian Maj. Gen. E. L. M. Burns, commander of the U.N. Emergency Force, along with foreign diplomats and special Arab visitors invited to attend the four-day anniversary celebration.

Bank Robberies Charged To Man

SAN RAFAEL, Calif. (AP) — William Liebscher Jr., 39, well-groomed and prosperous appearing used car salesman, was quietly arrested on a car lot Monday night as a bandit who held up 14 California banks over the past 18 months. Harvey G. Foster, FBI special agent in charge, said Liebscher was identified as a bandit who took a total of \$28,465 in the 14 holdups, usually carried out after 4 p.m. on Friday afternoon. The FBI agent said Liebscher formerly worked as a bank teller in San Francisco and was well versed in bank procedures. Six of the holdups were in San Francisco, two in Los Angeles, and the others at Daly City, Fairfield, Napa, Mountain View, Hayward and Menlo Park, Foster said. San Francisco police said the holdup string, starting in San Francisco Feb. 23, 1956, was the longest series of bank robberies by one man in their memory.

Bulgarian Sends England Letter Of Disarmament

LONDON (AP) — Soviet Premier Bulganin has sent another long letter to Prime Minister Macmillan on the subject of disarmament and other world problems. The letter is now being translated and studied, an official British source said. No details of the letter were disclosed immediately. The letter from the Soviet premier presumably was in reply to one from Macmillan a month ago urging agreement on a limited, first-stage disarmament pact to help prevent "the third and final tragedy of world war" Macmillan himself had been replying to a Bulganin letter.

ELKS' RULER — Robert I. Blackledge was unanimously elected Grand Exalted Ruler of the Benevolent and Protective Order of Elks at the organization's convention in San Francisco, Neb., lawyer, an Elk for 30 years, has pledged his organization to expand and continue its welfare projects.

Bridge To Link Upper And Lower Michigan

ST. IGNACE, Mich. (AP) — A giant triangle of steel was locked into place above the Straits of Mackinac Monday night, linking the two main towers of the bridge between the upper and lower peninsulas of Michigan. The 130-ton truss was the final section needed to fill the gap over the deepest portion of the Straits, never before bridged. When 240-foot gaps between each of the two towers and shore are completed in two weeks, the five-mile link of the two peninsulas will touch both sides of Michigan. The Straits of Mackinac is located between Lake Michigan and Lake Huron. The 100-million-dollar steel pathway will reach 4.2 miles across the Straits when it opens for traffic about Nov. 1. It is believed to be the world's longest total suspension bridge.

Despite concessions from both sides, the five-power disarmament talks in London have bogged down. One of the major points at issue is the conditions for suspending nuclear tests while negotiations for an agreement are worked out. East and West are also opposed on just how long the suspension period should last. The U.N. disarmament subcommittee, made up of the United States, France, Britain, Canada and the Soviet Union, will resume its discussion Wednesday.

Brewster Re-elected To Teamster Position

SEATTLE (AP) — Frank W. Brewster of Seattle was reelected president of Teamsters Union Joint Council No. 28, representing some 49,500 members in 45 locals in Washington and North Idaho here. He was unopposed and was named by acclamation. Brewster also heads the 11-state Western Conference of Teamsters, which earlier this month ordered the election. Among those elected to the board of trustees were Bruce Lewis, Olympia; Charles Jewell, Wenatchee, and Harry Satterlee, Tacoma. Fred Bowen of Seattle, Frank Donovan of Everett and Verne Martin of Olympia were named to the policy committee.

Climbing Party Scales Barren 12,000 Ft. Peak

FORT WASHAKIE, Wyo. (AP) — A seven-man climbing party has scaled a barren 12,000-foot peak in the Wind River mountains some 30 miles west of here. The feat was to establish a timeless memorial to the men responsible for the oil industry in the Rocky Mountain states. An advance party came out of the rugged mountains Monday with word that the expedition, led by Walt Bailey, director of student personnel at Casper (Wyo.) College and mountaineering instructor, had claimed the unnamed mountain as "Petroleum Peak."

Low Bid Is Submitted For Transmission Line

PORTLAND (AP) — A low bid of \$22,713 was received for right-of-way surveys on the proposed 24-mile Cougar-Leaburg section of the Cougar-Alvey transmission line. Allan & Holtzner, Inc., of Portland, made the low bid, the Bonneville Power Administration said Monday. The Cougar Dam power plant is expected to be completed in October, 1960, and the Cougar-Alvey line is scheduled to go into operation then.

FUNERAL TODAY

Funeral services for Elsworth Robert Winters, Roseburg resident who died at a local hospital Saturday, were scheduled for 2 p.m. today. In an obituary in Monday's paper, the name of a stepdaughter, Mrs. Vera Pearson of Oskaloosa, Iowa, was inadvertently omitted.

Oregon Police Network Claims Statewide Scope

SALEM (AP) — Oregon's police teletype network became statewide in scope Monday with addition of stations in Baker, Bend, Pendleton and Klamath Falls. The network now has 35 stations and is used by 63 law enforcement agencies. The message center is in the state Motor Vehicle Department in Salem.
