

Syria Accuses U. S. Of Plot To Overthrow Government

DAMASCUS, Syria (AP)—Syria accused the United States today of plotting to overthrow President Shukri Kuwally's government.

The United States Embassy here quickly labeled the charge a "complete fabrication."

The embassy issued this statement: "The U. S. Embassy has noted the broadcast of the Syrian Broadcasting System and press reports describing an alleged plot against the Syrian government. The statement is obviously a complete fabrication."

An official government statement charged the United States had signified willingness to pay Syria between 300 and 400 million dollars in aid if Damascus changed governments and made peace with Israel.

Political quarters here said Syria would lodge a strong protest with the United States.

The U. S. Embassy at Damascus said it had received no word from the Syrian government of such charges.

The Damascus statement said major participants in the alleged conspiracy were ex-dictator Col. Adib Shishkeky, and the Syrian military attaché in Rome, Col. Ibrahim Hussein. Shishkeky was sentenced in absentia last February to life imprisonment on a charge of leading a subversive group.

In Rome, Colonel Hussein denied any knowledge of the purported plot and called the whole charge a frameup. He said he did not know any American by the name given by the Damascus government.

The husky colonel was at his desk in the Syrian Embassy in Rome when told of the charge—still officially his country's military attaché in Rome.

Dr. Zeki Djebel, Syrian ambassador to Italy, said he had received no information from his government against Hussein.

Russia Affirms Pledge To Stand By Syria's Side

DAMASCUS (AP)—Soviet Ambassador Sergei Nemtchina affirmed Tuesday Russian "preparedness to stand by Syria's side in the face of all foreign imperialistic intrigues."

Damascus Radio said the Soviet envoy made the statement when he met with Premier Sabri As-sali to inquire about Syrian charges of a United States conspiracy against Syria's present pro-Soviet regime.

"Matters of interest to both Syria and the Soviet Union," Nemtchina said.

MOSCOW (AP)—The official Soviet communist newspaper Pravda Tuesday linked Soviet-Syrian friendship with a charge that "imperialists are dropping new bombs on Arabic peoples."

The newspaper's editorial said the U. S. S. R. aids Syria without any side interest in "the smell of oil," but that "aggressive imperialist forces are interfering in the internal affairs of countries of the middle east and attempting to cover up their interference with shouts that communism threatens." The reference to bombs apparently meant the British action against rebels in Oman.

Criminal Charge Against Duncan Battle Dropped

(Continued from page one)

The charge dismissed on the grounds that witnesses essential for the state's case are in Canada, says the attorney general, and that "the public interest in this prosecution does not justify the expense which would be incurred by the attendance of those witnesses."

Wrong Claimed

In his statement, Luoma wrote, "It is wrong for any person to obtain money from another under false pretenses. It is also wrong for a public official to lock the door on any man whose individual rights are threatened."

Luoma stated that Battle may honestly and even correctly believe he is entitled to payments from the Dominion of Canada. "It is possible my client has met bitter bureaucratic disappointment, in seeking money rightfully his," declared Battle's attorney.

For the record he wrote, "Following my investigation during the last two weeks I am now prepared to sign an affidavit under oath in defense of Duncan Battle whom this court has appointed me to defend. That affidavit would state that at least one Canadian official has indicated my client has, without legal aid, made repeated efforts to obtain money from his government—that at least one reputable Canadian government department has already advanced him some money—and that it appears possible that he will receive more."

One Man Killed, Two Wounded At Rock 'N' Roll Dance

ST. LOUIS (AP)—Four wild shots were fired during a noisy rock 'n' roll show at Kiel Auditorium Monday night. One man was killed and two were wounded before an audience of 5,000.

An altercation between four men and a woman preceded the shooting, but the dead man and the injured were described by police as innocent bystanders. All of the persons involved are negroes.

There was mild confusion as lights were turned on and the show stopped. The gunman and a woman companion fled and police had made no arrests hours later.

Most of the crowd apparently thought the shooting, in a packed balcony area of the auditorium, was a stunt rigged as part of the show.

Killed was Clay Greer Phelps, 42, a maintenance man at a Catholic church.

Wounded were Mrs. Rachel Henderson, 28, struck in the left foot by one of the shots, and Ollie Wickerson, 45, operator of a radio and TV repair shop who was shot in the right leg. Police said they had no part in the dispute that preceded the shooting.

Mrs. Elbert Bowman, 19, suffered a sprained back when she was knocked down in the excitement that followed.

The show was resumed after the dead man and the injured were removed.

Pioneer Son's Wife Dies In Colorado

Mrs. Walter S. Chapman, former resident of Roseburg, died Friday at her home in Walsenburg, Colo., at the age of 83. Her husband, Dr. Chapman, was the son of a pioneer family in Douglas County.

Mrs. Chapman is survived by her husband; one son, Walter; and one daughter, Frances, all of Walsenburg.

Husbands! Wives! Get Pep, Vim; Feel Younger

Thousands of couples are weak, worn-out, exhausted because they lack pep. For new younger feeling after 40, try Oxtex Tonic Tablets. Contains iron for new pep, vim, plus high-potency doses Vitamin B₁₂. In a single day, Oxtex supplies as much iron as 16 diet, raw oysters, 4 lbs. of liver, 10 lbs. of beef, 3-day "get-acquainted" vine costs little—only 69¢. Or get Economy size, save \$1.07. All druggists.

SALVAGE OPERATION—Employees of the Rick Helicopter Co., San Francisco, Monday removed some of the valuable parts left intact in this helicopter, which crashed near Illaha Rock last Tuesday evening. Free-lance photographer Jim Burns of Roseburg hiked along the six miles to take this picture. The pilot of the plane, James Bruce Forester, 29, Berkeley, Calif., was killed, and a passenger, Michael D. Moore, 18, Lansing, Mich., was injured when the copter crashed after smashing against the rock while attempting a landing on top. They were working for the Forest Service.

Wife Says She Was Stupid For Hitting Her Husband's Boss

LOS ANGELES (AP)—A wife now says "it was just plain stupid" when she beat her husband's boss with a two-by-four for working him long hours.

"Hundreds of wives get provoked because their husbands work long hours and don't spend much time at home," Mrs. Virginia Seales, 34, remarked Monday in jail.

"But they have more restraint than I have. They don't go down and conk the boss with a board."

She was released later on bail pending a court appearance Thursday on a complaint charging her with assault with a dangerous weapon. The complaint was signed by the victim, Frank B. O'Brien, 41, proprietor of an electrical plant.

The blond housewife said her husband, John, an electronics engineer, has been working 12 to 15 hours a day at the plant and worked all day Saturday and Sunday.

"When I walked in and found John doing carpenter work on the remodeling job, I saw red. I picked up the nearest thing at hand and bopped O'Brien."

Seales stayed home Monday to rest his nerves.

O'Brien said: "The guy's a genius and I can't afford to lose him."

Seales said he isn't mad at his wife. "What's the use? You know how women are."

Long-Time Resident Passes In Portland

Mrs. V. R. (Jane) Buckingham, 85, died Saturday at a nursing home in Portland where she had been a patient for the past three weeks.

She was born Jan. 17, 1872, in Knoxville, Tenn., and came to Oregon in early childhood. She lived in Benton County and attended the Corvallis public schools.

Mrs. Buckingham was married to Victor R. Buckingham in 1893 and moved to Roseburg in 1903. She was preceded in death by her husband who died in June of 1948. She was a member of the First Presbyterian Church of Roseburg.

Surviving are a daughter, Mrs. Vera Calkins, Roseburg; a son, Ralph, of Alaska; four grandchildren, and 10 great-grandchildren.

The body has been removed to the Chapel of the Roses. Grave side funeral services will be held Wednesday at 2 p. m. in the Odd Fellows Cemetery. The Rev. John Adams of the First Presbyterian Church will officiate.

Supersonic Jet Plane Ride Description Given

(Continued from page one)

ing weight in the cockpit. "G" forces take command. It's no longer possible for you to look out of the plane or even to watch the instruments. A powerful hand squashes your body into itself, pushes your head as close to your knees as the shoulder straps holding you back will allow.

Everything inside you tries to settle to the bottom. You're thankful you have on a tight-fitting "G" suit. Without it you feel you would tear apart.

After a bit we're in level flight and things are back to normal. The machmeter shows that we are subsonic again.

"You okay?" the pilot asks.

"Sure. But I lost track of the instruments for a while. What was our top speed back there?"

"Around 900 knots," Jones replies.

A quick mental calculation—900 knots. That comes out about 1,035 miles an hour. Yipes.

How many guys have flown 1,000 miles an hour? Not so many yet—in a few years it will become commonplace.

You know the F100F's a mighty beast the first time you see her at this flight test base northeast of Los Angeles. Three feet longer than the earlier Super Sabres, the F model is the first two-place jet fighter-bomber to see Air Force active duty.

She also performs equally well as an air-superiority fighter and as a trainer and observation plane. For combat the F100F carries two M39 20mm. cannon and an atom bomb.

The Los Angeles division of North American Aviation, Inc., delivered the first F100 F to the Air Force only last May.

Senate Approves Military Projects

WASHINGTON (AP)—The Senate has voted to authorize military construction projects totaling \$1,445,285,000 in the current fiscal year which started last July 1.

The Senate passed the authorization bill last night. The actual funds will be appropriated in a separate measure.

The Senate version of the authorization measure includes \$1,203,412,000 in new authorizations, compared with \$1,603,072,000 in the House Bill. Differences will have to be compromised.

The House already has passed an appropriations bill providing \$1,381,000,000 for military construction, much of which is set up in the authorization measure. Just passed by the Senate. The Senate will not take up the appropriations bill until a compromise has been reached on authorizations.

Sutherland Council Accepts Held Bid For Police Car

The Sutherland City Council accepted a bid for a new police car from Harry Held Ford Sales and Service of Sutherland Monday night.

The bid accepted totaled \$2,148, but with a trade-in of the old police car, the final figure is \$831.

Among other business transacted by the council was a request from Boy Scout leaders for the city to lay a sewer line into the scout hall.

Sewer lines will be laid to the scout hall in the next couple of weeks. City crews will complete the sewer and plumbing hookup with whatever help the scouts can give. C. Dean Smith, city manager, said. The Scout hall is located across to the city hall on Central Avenue.

Mayor C. A. Petherick asked the council to consider attending a League of Oregon Cities convention at Portland in October. The council directed Harry Held permission to construct a cut so deep that he can drive automobiles from his used car lot into the street.

Fire Chief Jerry DeMuth presented bid prices for 500 feet of 2½-inch fire hose. The council said it had confidence in the chief to choose the proper hose. DeMuth does not have to buy the cheapest hose, the council said. He narrowed the bids down to two. They are \$1.45 and \$1.55 a foot.

After hearing information from the State Industrial Accident Commission on insurance coverage for purchase of police officers, the council decided to cover the city reserve policemen.

Compensation for working several holidays last year was granted to policemen by the police committee. The money granted was \$80. A charge on driveway easement was adopted. The city will install

Child Beater Gets Two Years In Penitentiary

PORTLAND (AP)—Circuit Judge Alfred T. Sulmonetti Monday pronounced a two-year prison sentence on Glen Denessen, 35, recently found guilty by a jury of beating his young daughter.

The judge, in passing sentence, termed the beating of Janet Denessen, 13, an example of "cruel and inhuman treatment by a parent against his child."

At the judge's statement, Denessen broke into tears. He is a longshoreman and father of four other children.

The treatment, the judge continued, "has resulted in serious physical injury and possible irreparable injury to the personality of the child."

Denessen's 31-year-old wife, Dorothy, is on probation for one year after pleading guilty in June to a reduced charge of simple assault. A charge of doing nothing to stop Denessen's action was filed against her.

Denessen's attorney moved Monday that another charge, against Denessen of contributing to the delinquency of a minor, be dropped. The matter was referred to the judge to the district attorney's office.

Music Instructor Resigns Glide Post

By MRS. ARTHUR SELBY

The Glides School at its meeting Monday accepted the resignation of Carroll Graber, vocal music director of Glides schools the past two years.

Mr. and Mrs. Graber are moving to Medford, where Graber has accepted the position as vocal music director at Medford High School. Wesley Hedeon instrumental music and band director had previously resigned to take the same position at Marshfield High School.

The board also accepted the contract of Mrs. Mildred Wilson to teach special education at Glides schools, to fill the vacancy left by Howard Smith. Mrs. Wilson has had 10 years teaching experience, mostly in the lower grades. Last year she taught special education at Wallawa. At present, Mrs. Wilson is attending Indiana State Teachers College at Midland, Ind., and will receive her bachelor of science degree in special education. Mrs. Wilson is a widow and has two children.

Mrs. Edna Bunce of Portland was accepted by the school board to teach the primary grades at Toketee Falls. She has been operating an art shop at Portland, but wanted to return to teaching. Mrs. Bunce is a sister of Paul Hult of Dilard.

John Zerbach of Roseburg was awarded the contract for brush painting the outside of the high school gym. Zerbach's bid was \$774. Work will start Aug. 19.

Khrushchev Ends Talks With East German Commies

BERLIN (AP)—Communist Party chief Nikita S. Khrushchev and East Germany's Communist leaders wound up their talks Tuesday with the signature of various documents labeled as "important" by the East German Radio.

The substance of the agreements was not immediately disclosed. Before Khrushchev arrived the Russians said the conferences would deal with economic problems in restive East Germany.

The East German Radio said a joint declaration was signed by Khrushchev and Deputy Premier Anastas I. Mikoyan. Signing for the East Germans were Communist Party boss Walter Ulbricht and Premier Ott Grotewohl.

A hint of what the declaration contained came from the official East German News Agency, ADN, which reported that Ulbricht and Khrushchev had discussed extending cooperation between the two Communist parties, the international workers movement and political and economic questions.

Mikoyan hinted at a peace offensive to come Monday night. An interview with him was published demanding that the Baltic be turned into "a sea of peace."

Referring to so-called Western naval plans to bottle up the Russians in the inland sea, Mikoyan was quoted: "We want peace to prevail on the shores of this sea forever."

Communist Poles Clamp Down On Defiant Strikers

LODZ, Poland (AP)—Communist authorities placed armed guards at every street corner of this tense city Tuesday and braced for a showdown with 10,000 defiant transport strikers. Their strike for higher pay paralyzed the city, once hailed as a Communist model for all Poland.

Police tear gas bombs sent five persons to hospitals in one outbreak Monday. Other strikers barricaded themselves in car barns to prevent strike breaking. Streetcars are the only public transportation in Lodz, a city of 700,000 about 75 miles southwest of Warsaw. Dubbed "Red City" by the Communists, it is Poland's second largest municipality.

The strikers ignored government leaflets branding the strike illegal and calling on the strikers to return to their jobs. The strikers object to a government move to link pay boosts with vodka consumption.

Efforts To Settle Differences Over Civil Rights Fails

WASHINGTON (AP)—Efforts to compromise Senate and House differences over civil rights legislation were blocked at least for the present Tuesday.

Rep. Keating (R-N.Y.) moved to break a House stalemate. He sought unanimous consent to send the civil rights bill to conference with the Senate and try to work out a compromise.

Immediately a dozen or more members jumped to their feet to object. Speaker Rayburn of Texas recognized Rep. Walter (D-Pa.) to make the single objection needed to kill the move to rewrite the bill in the compromise session.

The issue is whether to accept something on the order of the bill which the Senate passed—and to which President Eisenhower has objected—or to shunt the dispute to a conference in the hope of arriving at a compromise more acceptable to all sides.

After Keating's move was blocked, Rep. Celler (D-N.Y.) asked unanimous consent of the House to send the bill directly back to the Senate with a compromise amendment narrowing a controversial jury trial provision to voting rights cases only.

Keating objected to that procedure.

Republican leaders had said earlier that Eisenhower would not be a party to any deal to tie a softened civil rights bill to bigger foreign aid funds.

The House Republican leader, Rep. Martin of Massachusetts, called it a wild rumor.

Sen. J. William Fulbright, a California Republican leader, put his comment in the form of a sharp denial that there is any chance President Eisenhower will back down on civil rights to get more foreign aid money.

Myrtle Creek School Board Accepts Fuel Bids

The Myrtle Creek School Board Monday night accepted bids for fuel oil and gasoline and filled all remaining vacancies in nine teaching positions. Some vacancies still remain in teaching positions, according to correspondent Ruth Evans.

A low bid of 23.88 cents per gallon for gasoline was accepted from Shell Oil Co. of Myrtle Creek. Other bidders were Union Oil and Standard Oil. The only bid received for supplying fuel oil was accepted from Union Oil. The bid was \$2.85 per barrel, f. o. b. Coos Bay. The low bid for liquid petroleum gas was accepted from Suburban Gas Co. of Myrtle Creek at 18.3 cents per gallon. The other bid was from California-Pacific Utilities of Roseburg.

The school board will inspect the school prior to opening at the next meeting, Aug. 28 at 6 p. m.

FBI Counterspy To Be Questioned

WASHINGTON (AP)—The Senate Internal Security subcommittee announced Tuesday it will question Boris Morros, the counterspy who has become a key figure in an FBI investigation of an alleged Red spy ring.

Robert Morris, committee counsel, said Morros will be subpoenaed for a closed-door session Wednesday, Aug. 21. Morros will be asked, among other things, in name the "prominent American woman" he told a news conference in New York Monday had tried to expose him to the Russians as a counterspy.

Morris said the committee will ask the composer-counterspy for details of this and other incidents in his counter-espionage career. He added the group also will check with the Justice Department as to how much of the information safely can be made public at this time without interfering with prosecutions.

AFL-CIO Will Press Charges On Teamsters

with any committee turning up corruption in labor."

Meany said after the opening session the AFL-CIO has switched its convention, which starts Dec. 5, from Miami Beach to Atlantic City.

In Miami Beach, Charles Goldbert, owner of the Delano Hotel, said the AFL-CIO "is a group which wants everyone to live up to contracts, but they're breaking their contract with us."

He said he has collected letters "got together and voted as a last resort to file lawsuits if they don't come here." Some 16 hotels said they had convention reservations from the labor organization.

Meany also announced that the 215,000 member Brotherhood of Railroad Trainmen has applied for an AFL-CIO charter.

Union Leader Doria Accused In Building Sale

WASHINGTON (AP)—Senate investigators developed Tuesday that Anthony Doria received \$25,000—which he said was for investment purposes—from a real estate man who made \$45,000 on purchase and quick resale of a Milwaukee union building in 1954.

Doria, former secretary-treasurer of the Allied Industrial Workers, insisted that checks of \$5,000, \$9,000 and \$11,000 sent him by Spiros Kallos of Milwaukee had nothing to do with the building sale. He said the money was an investment by Kallos in an Arizona mining venture.

The story of the building deal capped a long ground with the Senate Rackets Investigating Committee during which Doria steadfastly insisted he had never turned any union money to personal use.

Doria, a hulking big man, sweating in the witness chair, acknowledged he used to keep thousands of dollars of union cash in an iron strong box hidden under papers in union headquarters in Milwaukee.

He said too that he never gave rank and file members an accounting of his spending of union funds. And, he said, records to show how the money was spent may have disappeared.

But never, Doria insisted, were union funds spent "for my personal use."
