Motorcycle Racer Asks Marriage Annulment  
LOS ANGELES (AP) — Motorcycle racer Daniel E. O'Reilly filed an annulment suit Monday to end his marriage to Ronnie Quillan, Hollywood party girl who is a key witness in the trial of Confidential Magazine on criminal conspiracy charges.

O'Reilly appeared before Superior Judge Otto J. Emme to claim that the Mexican wedding ceremony was void.

"PERSONALITY" — "Sheer personality" and nothing else is what made Francis X. Bushman the "first movie star" and past-generation "pin-up boy" of thousands of today's grandmas, he says. Now 74, the still handsome veteran declares today's actors are not great personalities. They are overshadowed by the directors' style.

WASHINGTON (AP) — Sen. Murray (D-Mont) fired a tart letter to the editor of the Wall Street Journal the other day, protesting an article about wealth and easy living on Montana ranches.

The article was noticed by Murray soon after he made a Senate speech saying unemployment had been rising rapidly in Montana as a result of mine closures and other layoffs, and cattlemen and grain farmers were losing money. This was during a week when several other Western members of Congress reported similar hard times in their states.

"Unemployment in Montana is three times greater than it was five years ago," Murray said in his letter to Editor William H. Grimes, New York. "Two thousand miners have been laid off in the Butte-Anaconda area during the past 90 days. Unemployment in the Billings area is up 275 per cent over last year. A coal mine at Roundup closed last month, throwing 52 miners and 5 railroaders out of work."

Sen. Bible (D-Nev.) quoted the Reno Evening Gazette as saying "shutdowns and curtailment of production by Nevada mines recently have brought the layoff of 400 to 500 men and a virtually complete halt to tungsten and

lead-zinc operations." Oregon Situation Cited  
Sen. Neuberger (D-Ore) said in a Senate speech a "very grave economic situation confronts many of our Western States."

Oregon, he declared, "has one of the most critical economic situations facing it today of any state in the country."

"It is the leading lumber producing state," he said. "This means that Oregon is heavily reliant on housing and on new housing starts for the creation of markets for its products."

"Because of the tight credit and hard money policies of the new housing has been greatly diminished."

Neuberger said closure of sawmills and plywood plants and curtailment of logging operations created unemployment and a "chain reaction up and down the main streets of towns throughout the state."

Other Western members of Congress reported similar hard times in their states.

# Farmer Income Remains Level

CORVALLIS (AP) — Spending for U.S. farm and factory products, both inside and outside our borders, has never been greater and demands for most goods and services seem likely to stay strong throughout 1957, reports M. D. Thomas, Oregon State College agricultural economist.

Meanwhile, farmers are just about holding their own in the price-cost squeeze as purchasing power of farm products hovers around the low levels of last year, Thomas points out.

Although some soft spots are showing in the state and nation's economy, they are balancing out elsewhere: Increased investments in new plants and equipment, highways and other construction are taking some of the sting out of the decline in home building. Weekly pay checks of factory workers are down slightly from a recent "high" but consumer spending has risen about 5 per cent.

# Advertising Signs Ban On New Bridges Asked

PORTLAND (AP) — An ordinance to limit advertising signs beside the new bridge approaches being constructed in Portland was proposed Monday by City Commissioner William A. Boves.

He said the restrictions were needed because signs already were going up beside the approaches. He said they diverted drivers' attention and were a traffic hazard.

New approaches are being built for the Hawthorne and Morrison bridges over the Willamette River.

# TO QUIT GOP POST

PORTLAND (AP) — Francis I. Smith, chairman of the Multnomah County Republican central committee, said Monday he will resign this week.

Smith said he needs more time for business affairs.

Larry Landgraver, Portland attorney, said he is not an active candidate, but would accept the position, if offered.

During the time he has been confined to the hospital, Koster has had 29 operations and more than 72,000 shots. Koster suffered a crushed spine in a 1942 auto accident.
