FALSE TEETH

That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plate. Your false teeth become so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

LOWELL HOLLISTER, off-bearer at Weyerhaeuser's Longview Mill, checks Pullman assignments with two of his 23 Scout charges before entraining for the Jamboree in Valley Forge, Pa. Lowell is advisor for Explorer Post 334 in Longview. Wife Bee serves as "post mother" and sons Richard and Avey are both high-ranking Scouts.

meet one of your forest industry neighbors...

A family man and active leader in Boy Scout work and other local affairs, Lowell Hollister typifies the 160,000 men and women who work in Washington and Oregon's forest industry. Like Lowell, who has been a Weyerhaeuser employee for 14 years, most are permanent, taxpaying citizens of communities near their work.

All told, forest industry employees of this region earn about 700 million dollars a year. Most of this money is spent locally. For instance, housing alone requires a yearly expenditure of about 119 million dollars. This is but one illustration of how these payroll dollars help sustain almost every type of business.

The forest industry is the basis for about one-half of our regional economy. Through planned cycles of balanced timber growth and harvest, it will continue to contribute to economic stability in the Pacific Northwest... today and tomorrow.

Forest industry pay checks work for everyone. The average family spends \$100 of income like this:

Food.....	\$ 27
Housing.....	17
Clothing.....	9
Autos and transportation.....	14
Home furnishings.....	6
Medical and personal care.....	7
Taxes (income and property)...	7
Recreation, savings, insurance, education, etc.....	13
	\$100

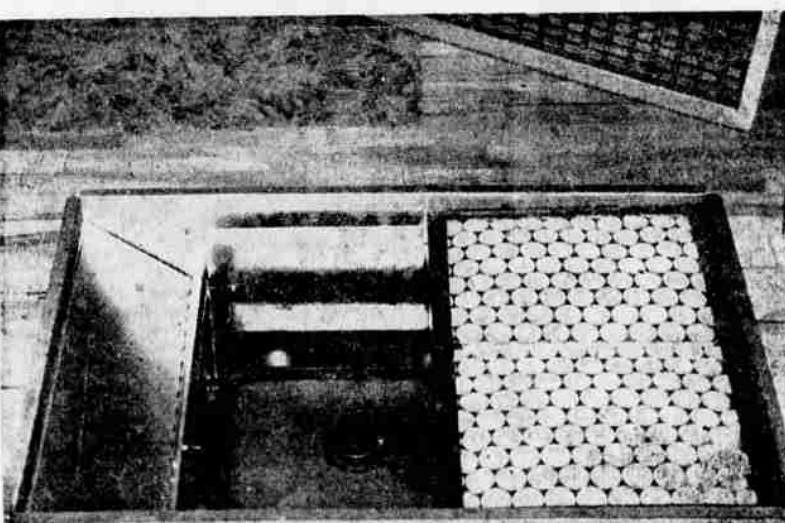

Estimated from U. S. Bureau of Labor Statistics, Survey of Consumer Expenditures based on average wage earner family of 3.4 persons.
