

### Zoo Manager To Go After Penguins

HONOLULU (AP)—Jack Marks, director of the Portland City Zoo, has left for the U.S. Navy Base at McMurdo Sound in Antarctica.

He plans to get 20 Emperor penguins and bring them back for the Portland and San Diego, Calif., zoos.

Marks, who arrived here Thursday, said the birds will be returned home in individual crates on a Military Air Transport plane, with special water spray cooling equipment.

He hopes that some special penguin girdles he had made in Portland will help in capturing the birds and returning them.

Marks said they are "sort of like a strait-jacket" and that although it is his first try at bag-

ging penguins with such girdles, "I hope to come out without any broken bones."

He said that despite poor luck in previous attempts to bring the birds from the South Pole area by ship, "I feel we have a good chance of getting them home alive and in good condition by air."

Special quarters with controlled temperatures will be provided at Portland and San Diego for the penguins.

A shipment of 135 registered American Brahman cattle recently was made to the Ministry of Agriculture in Bangkok, Thailand. The pured Brahman were purchased in Florida, Louisiana and Texas.

### Science Shrinks Piles New Way Without Surgery

**Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids**

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most amazing of all—results were so thorough that sufferers made

astounding statements like "Piles have ceased to be a problem!"

The secret is a new healing substance (Bio-Dyne®)—discovery of a world-famous research institute.

This substance is now available in suppository or ointment form under the name *Preparation H*®. At your druggist. Money back guarantee.

New! A cleaner-burning gasoline guaranteed to give your car

# MORE POWER FOR MORE MILES

than any other premium in the West!

HIGHER OCTANE!

Many modern gasolines are not clean burning. They leave deposits, cause fouled carburetors and spark plugs, sticky rings, burnt valves. Your engine loses its quick responsiveness too soon.

New "Flying A" Ethyl burns clean, because it has been de-sulfurized by the new Avon Process.

Because it burns cleaner, new "Flying A" Ethyl can be guaranteed to give your car more power for more thousands of miles than any other premium gasoline sold in the West.

**GUARANTEE:** We have tested new "Flying A" Ethyl against all other leading premium gasolines sold in the West, under comparable conditions in actual late-model automobile engines, for a total running time equivalent to 295,950 miles of driving, and guarantee that new "Flying A" Ethyl has proved to be consistently the cleanest-burning brand.
