

Government May Revise Standards For Potatoes

WASHINGTON (AP) — The government proposes to revise its grading standards for potatoes in a step designed to make them reflect a better quality product.

Announcing this Thursday, the Agriculture Department said its present grades do not reflect present-day grading and packing practices used generally by shippers. The present grades were set up 25 years ago.

If adopted, the new grades would allow fewer defective potatoes and fewer small ones. Interested persons have been asked to submit views on the proposed changes. It is the department's present plan to put revised standards into effect next July 1.

FREE PARKING AT THE FARM BUREAU

ALL COVERED UP—Britain's Queen Elizabeth II (left) chats with Hollywood actress Jayne Mansfield who was presented to her at the Royal Film Showing at the Odeon Theater in London. Jayne didn't wear the daring, low-cut gown that she threatened to wear to make the other actresses "look like prudes."

Actress Cries So Hard She Didn't Hear Applause

LOS ANGELES (AP) — A packed house at Philharmonic Auditorium gave comely Renee Guerin a standing ovation for her starring role in "Annie Get Your Gun" Wednesday night but she was crying so hard she didn't hear the applause.

The 21-year-old Juneau, Alaska, miss — who never before had played a major role in the theater — went on at short notice for Mary Martin when Miss Martin was bedded down by influenza.

"I'm an only child (of Mr. and Mrs. Earl Barney of Juneau) and pretty spoiled. My grandmother, Mrs. Amy Fromholz, saw the show and called mother and dad," she said.

"I'm so thrilled. It's hard to believe."

How did she feel face to face with thousands of persons over the footlights?

"Oh, that audience was the living end," said Renee, a hazel-eyed brunette. "They were with me all the way. And what a cast, and the stagehands, oh, every-

Air Force Makes Denial Flying Saucers Exist

WASHINGTON (AP) — The Air Force says its investigations of 5,700 reported sightings of flying saucers in 10 years have produced "no physical or material evidence" that such things exist.

The Pentagon issued this report last night after sightings of mysterious flying objects were reported this week from various parts of the country. Some of the reported objects were said to glow with a strange light and to have caused auto engines to stall.

Sightings of flying saucers have been reported from time to time over the past decade. Investigation has been handled by the Air Technical Intelligence Center at Wright-Patterson Air Force Base near Dayton, Ohio. Previous Air Force reports on saucers have been along the lines of the one put out last night.

TO SELL MORE TIMBER

WASHINGTON (AP) — Rep. Norblad (R-Ore) said Wednesday the U.S. Forest Service has advised him of plans to sell an additional 800 million board feet of national forest timber in Washington and Oregon before next Sept. 30.

The timber, Norblad said, is valued at about 12 million dollars. Half will be offered for sale before next July 1. The rest will go on the block between July 1, 1958, and Sept. 30, 1958.

ATTENDING CONFERENCE

Attending the State School Board Assn. conference at Eugene today and tomorrow from Riddle are school board members R. E. Paetz, E. E. Daniels and Harold Olsen; Mrs. Mildred Vaughn, school clerk; and Kenneth A. Stuart, school superintendent.

U. S. Turns Down Russ Bid For Summit Meet

WASHINGTON (AP) — The United States turned down Thursday Soviet Party chief Nikita Khrushchev's call for an East-West summit conference to settle the world's problems.

The State Department, in commenting on Khrushchev's speech Wednesday proposing such a meeting, said such a conference would be desirable "only if there are reasonable grounds for expecting... beneficial results."

A Department spokesman at the same time challenged Khrushchev's boast that communism inevitably would sweep over the globe.

Astronomer Believes First Sputnik Misfired

PARIS (AP) — A Parisian astronomer said the Russians may have misfired one of their Sputniks in mid-August.

Paul Coudere of the Paris Observatory told a capacity audience here that the Haute-Provence Observatory in southeastern France noted a "bizarre object" in the sky the night of Aug. 19 going toward the Mediterranean.

"We now believe it was without doubt an abortive attempt at launching a satellite," Coudere said.
