American Consumer Quietly Voices Future Confidence, Unmoved By Sputnik Talk

By WALTER BREEDE Jr.

NEW YORK (AP) — Almost unnoticed in the talk about Sputniks, guided missiles and rockets to the moon, the American consumer this week was quietly voicing his confidence in the future.

For the first time since Labor Day, consumer spending in the nation's retail stores and auto showrooms showed definite signs of picking up.

Dun & Bradstreet said brisk buying of rugs, furniture and apparel paced a general upturn in total retail sales this week. Men's wear merchants said a rising sales trend started around Nov. 1.

Car Purchases Heavy

New car purchases at latest count were running a hefty 17 per cent ahead of last year. Detroit responded by lifting production to its highest level in seven months. Ford Motor Co.'s Ford division set the pace with output for the week scheduled at nearly 36,000 cars. Next came General Motors' Chevrolet division with 34,700. Eleven of Ford's 14 plants worked a six-day week.

It was still too early to tell if the boomlet in auto sales was more than a passing flurry. The real test will come after customers had had more time to ogle the industry's 1958 models.

Wall Street took in stride the launching of Russia's second Sputnik. Stocks of companies making rocket fuels put on a dazzling display of pyrotechnics but their luster had dimmed considerably by week's end.

Anticipated Ike's Talk

The stock market seemed to have anticipated President Eisenhower's Thursday night address on the guided missiles program.

It was authoritatively estimated that the speed-up envisioned by Eisenhower would boost government spending on missiles development by one or even two billion dollars a year. On Thursday, before the President's speech, it bounded vigorously ahead. On Friday it drifted lower.

Meanwhile the effects of earlier cutbacks in defense spending were still making themselves felt. Production workers, stenographers, engineers and technicians in eastern and western aircraft centers were still hunting work. And more layoffs were coming.

Also retrenching were producers of earth-moving equipment, cotton cloth, and steel. Caterpillar Tractor Co. which laid off 3,000 workers in October said rising inventories will make it necessary to furlough 4,200 more.

The government reported that total employment in the nation failed to show the normal seasonal upswing last month. Unemployment, which usually falls off, increased slightly.

Construction loomed as a bright spot. F. W. Dodge Corp. said contracts awarded in September for future construction totaled $2,624,928,000 — a gain of two per cent over September last year. Biggest increase — 10 per cent — was in dollar volume of contracts let for residential building.

Trucker Narrowly Escapes, Misses Children At Play

SALEM (AP) — A truck driver was pinned in the smashed cab of his truck 45 minutes Saturday after he deliberately rammed into a steel post near Salem to avoid striking a car full of young children.

The driver, Clyde Sutton, East Wenatchee, Wash., and his passenger, Eugene Michael, his brother-in-law, of the same city, were hospitalized in Salem General Hospital in fair condition. There were no apparent serious injuries.

Sutton told state policemen Russell Carlisle and Jerry Taylor that he was north bound to Wenatchee with a load of plywood in his freighter trailer when a car attempted to pass him.

The car, driven by Wayne Johnson, 51, Eugene, contained several young children, Carlisle said. He quoted Johnson as saying he thought the truck was going to keep to the right onto Highway 99E, so he started to go around it.

Sutton told police he skidded his wheels in an attempt to avoid the car but could see the car was not going to be able to complete the pass. He noticed several young children in the car, he said, so angled the truck to the right, driving into a traffic island which separates a freeway and 99E roadways. The truck smashed into a huge steel post, which was torn from its five-foot deep concrete anchor. The post fell across the top of the truck.

Michael was knocked from the car, but Sutton was pinned in the seat.

Johnson was cited to court on a charge of passing without sufficient clearance, Carlisle said.

Roseburg Woman Dies In Hospital Saturday

Mrs. Earnest (Alice Elizabeth) Satterlee, 55, a resident of Roseburg for the past 20 years, died suddenly at a local hospital Saturday.

She was born in Logan County, Kan., Nov. 2, 1902, and was married at Lakin, Kan., Jan. 4, 1920, to Earnest George Satterlee. She was a member of the Christian Church.

Surviving, beside the husband, are ten children, Margie Satterlee, Thomas Satterlee, Florence Satterlee, Clifford F. Satterlee, Lucille Satterlee, Earl Satterlee, Howard Satterlee and Betty Satterlee, all of Salem; Mrs. Anna May O'Brien, Deer Lodge, Mont.; and Raymond Satterlee, U.S. Navy; four brothers, Lawrence Hill, Roseburg; Wilbur Hill, Winston; Charles Hill and Anderson Hill, both of Lakin, Kan., a sister, Mrs. John Newport, Roseburg.

The body has been removed to Long and Orr Mortuary. Funeral arrangements will be announced later.

Myrtle Creek Baby Dies Saturday At Canyonville

Jeffery Lynn Rowton, seven-month-old son of Mr. and Mrs. Ellis L. Rowton of Myrtle Creek died Saturday at Canyonville following a short illness. The baby was born in Myrtle Creek April 6.

Surviving besides the parents are a half-brother, Truman Lee Rowton of Myrtle Creek; paternal grandparents, Mr. and Mrs. George H. Hoefer of Eugene; and maternal grandparents, Mr. and Mrs. William Christopher of Modesto, Calif.

Funeral services will be at 2 p.m. Monday in the chapel of Ganz Mortuary, Myrtle Creek, with the Rev. A. M. Shafer of the Canyonville Bible Academy officiating. Burial will follow in the IOOF cemetery in Myrtle Creek.

Kiamichi Music Group Wins 'Battle Of Bands'

Joe Powell and his Kiamichi Mountain Boys were named winners of the annual "Battle of the Bands" Sunday night at Lindy's in Roseburg.

Powell won the nod by ballot of some 550 persons who attended the competition. Nine bands were entered in this year's contest.

In winning, the Powell group won a permanent trophy and another trophy which will rotate each year to the winner. The contest is sponsored by Local 539 of the American Federation of Musicians.

The audience ballot places Tom Edwards and his Timberjacks in second place and Chuck Gouge and the Sons of the Saddle in third.

Desegregation Lags In Churches, Yale Dean Says

BOSTON (AP) — The Rev. Dr. Liston Pope, dean of the Yale University Divinity School, said Monday the church is the most segregated major institution in American society.

Speaking at the annual ecumenical service of the Massachusetts Council of Churches, he said:

"The church has lagged behind the Supreme Court as the conscience of the nation on the question of race, and it has fallen far behind trade unions, factories, schools, department stores, athletic gatherings and most other major areas of human association as far as the achievement of integration in its own life is concerned."

He said also that "racial discrimination in the church, as in the world, is largely a phenomenon of the last two centuries.

"In this matter, the church has adapted its practices in several regions to those of the surrounding society. But it should also be remembered that most of the Christian churches in the world still refuse to practice discrimination or segregation."

"Among voluntary groups the churches are most conspicuous of all. It has been said that 'eleven o'clock on Sunday morning is the most segregated hour in the week'. . . Eleven o'clock on Saturday night is even more segregated for the country club set, and other purely social clubs, are in general more completely uniracial than are the churches."

U. S. Scientists Pressing Research For Better Fuels

WASHINGTON (AP) — American Military scientists are pressing broad research in a quest for new or improved fuels to power big missiles and satellites.

But any bid in the near future to recapture the lead which Russia has taken in rocketry probably will be made with existing, tested types of power.

A Russian broadcast claimed the use of "improved new instruments and sources of power" in the launching of Sputnik II last weekend, but the broadcast gave no details.

At present, fuel for the large missile and for the primary engines of planned satellite launchers are liquid—a combination of forms of hydrocarbons which burn and an oxidizer usually liquid oxygen called "lox" which enable them to burn at altitudes where there is little or no natural oxygen to support combustion.

These liquid fuels have disadvantages. Their use requires a maze of plumbing in rocket engines; liquid fuel is heavy for the amount of energy it yields; it is difficult and dangerous to handle.

There is a tendency toward solid fuels.

Sputnik's Dog Laika Dead, Reds Indicate

(Continued from Page 1)

said nothing about Laika.

"The program of scientific observations connected with receiving data from this Sputnik was estimated for seven days," the agency said. "At present this program has been fulfilled completely."

Astronomer Skeptical

Tass reported that valuable information has been obtained from these observations and that further study will be made through radar and optical equipment.

In London, Prof. A. C. Lovell, a leading British astronomer, said it was "very, very odd" that the radio transmissions from Sputnik II ended so quickly. He said he can't believe "they sent this rocket up for getting information from it for only seven days."

Sputnik II was launched Nov. 3 The newspaper Evening Moscow said Sputnik I and its carrier rocket had finished more than 550 circuits since their launching Oct. 4. The radio on Sputnik I has been dead for some time.

In reporting Laika's death, Laika gave science precious data which will soon allow mankind to dominate space."

Parachute Claim Scouted

Laika had been locked in an airtight compartment inside the second satellite. The Russians said she was fed automatically. A Russian diplomat in Germany said last week an eight-day food supply had been put aboard the Sputnik.

The Soviet weekly journal Ogonyek said Laika — which it described as an easy-going, even-tempered dog — was trained to spend long periods in cramped quarters and to ration her food.

Some scientists have suggested the compartment containing Laika could be detached and parachuted back to earth. But the L'Unita report — apparently cleared by Soviet censors — indicated the Russians had no such plans.

Ex-Prisoner Volunteers

In Cambridge, England, Dr. Alan Nunn May, who was convicted in 1945 of giving British atomic secrets to the Russians, said he was ready to volunteer to go aloft in a space satellite in the interests of science.

May, who was released after six years in prison, waved aside any suggestion that he helped give the Soviets the lead in space technology. He said the Russians "put everything into the development of scientists. . . ."

Meanwhile, the problem of overtaking the Russians in the space satellite and missiles fields came in for wide-ranging discussion in the United States.

Donald Quarles, deputy secretary of defense, said this country has rockets capable of doing the same kind of thing as the Soviet rockets that fired Sputnik II into its orbit. He did not specify what American rockets he was talking about.

Warm Weather, Rainfall Seen By Weather Bureau

Temperatures and precipitation will average above normal for the next five days, and skies will remain cloudy.

According to the U.S. Weather Bureau's Roseburg Station, total rain expected in the Roseburg area will be from two to four inches. The maximum temperatures will range from 48 to 58, and the minimums from 40 to 50.

Precipitation will be moderate in Northwestern Oregon and Western Washington, occurring mostly Tuesday and Thursday. High temperatures in these areas are generally expected to be in the low 50's with the minimums from 40 to 46. Total precipitation forecast is for one to one and one half inches on the coast and half an inch in the interior valleys.

State Officers Ferry Blood To Myrtle Creek

State police were called upon Saturday night to ferry blood to Myrtle Creek Hospital where it was needed for an emergency case.

Richard Stratton of the hospital requested aid in getting a container of blood transported to Myrtle Creek from Mercy Hospital in Roseburg. When officers arrived with the blood, they were asked to bring some more from Canyonville.

ROSEBURG ROSE SOCIETY members Saturday pitched in a project of beautifying the ground at Douglas Community Hospital .They planted 40 roses at the east side of the hospital near the doctors' driveway. The project was in cooperation with the garden department of the Roseburg Woman's Club, which has instituted a program of landscaping the grounds at both Rosebura hospitals. Rose society members who worked Saturday were, left to right, Stan Wright, Jim Lewis, Howard Weyel, Charles Friday and Roy Byrd. Byrd is president. (Paul Jenkins)

Lady Who Refused Blood To Return Home Soon, Report

HAVERHILL, Mass. (AP) — Mrs. Gardner Denno, Jehovah's Witness member who refused blood transfusions at a time when her life was despaired of, because of bleeding from an internal hemorrhage, may be returned home soon.

Mrs. Denno had been making a satisfactory recovery until a few days ago when inflammation from phlebitis in one leg resulted in her being ordered back to bed. She had been up and around the hospital and was out of danger. Now the phlebitis is clearing up.

Admitted to the hospital five weeks ago in a greatly weakened condition as a result of bleeding from an ulcer, she refused transfusions because of a Biblical injunction against feeding on the blood of another person.

At about the time her condition was lowest, the bleeding halted.

Doctors attributed the bleeding stoppage to her complete immobilization.

With an oxygen tent and stimulation of blood cell formation in the bone marrow through administration of cobalt in iron, Mrs. Denno gradually regained her strength. For a time she suffered impairment of vision and memory. But both these disabilities have cleared.

Tax Slash Deadlock In Legislature Holds

(Continued from Page 1)

Republican, are the Senate members of the conference committee.

The House members are Reps. Clarence Barton (D), Coquille, and Guy Jonas (D), Salem.

The committee, which can't act on any compromise until its members get approval of their respective party caucuses, couldn't do any work over the weekend. It had to wait for Tax Commission figures.

The committee went back to work Monday after the morning Senate and House sessions.

Financing Ideas Clash

The deadlock involves two opposed philosophies of government finance.

Republicans want a big tax cut because they believe that the state should operate on a pay-as-you-go basis by collecting only enough taxes to finance a current biennium. They say that big surpluses are an incentive to big spending.

Democrats believe in a small tax cut because they think a large amount of surplus should be carried over to meet increased budget demands for the biennium beginning July 1, 1959. They say that a 30 per cent cut now would force the 1959 Legislature to adopt a tax increase of 60 per cent or more.

Man, Woman In Parked Automobile Wounded

PORTLAND (AP) — A man and a woman, sitting in a parked automobile, were wounded Saturday by a man who then fled up a northwest Portland street.

Policeman B. K. Smith fired two shots after him. The shots missed, but Smith arrested Harold Austin Johnson, 41, after the man's gun was dropped.

Smith said Johnson was the husband of the woman in the car. The woman, Nellie Johnson, 32, suffered a hip wound. She was in good condition at a hospital.

The wounded man, Marion Icenogle, 29, St. Helens, was in serious condition. He suffered a back wound.

Sen. Kerr Urges Ike To Speed Pace In Missiles Race

CHICAGO (AP) — Sen. Kerr (D-Okla) urged President Eisenhower today to "give even more dynamic leadership" to a drive to overcome Russian missile supremacy.

Kerr, a frequent critic both of Eisenhower and of his administration, said, "There have been faults and mistakes by those in high places, but we cannot win the future by rehashing old errors."

Kerr said Russia's launching of two satellites makes it "perfectly clear that Russia is far ahead in the development and production" of the intercontinental ballistic missile, which he described as "the most decisive weapon yet conceaved by the mind of man."

Contending unity is needed not only among people of this country but among its allies, he said: "We must develop a plan that will make the most effective use of our abundant spiritual, mental and physical resources. We must bring about the full mobilization of these resources.

Hope Of Finding Missing Plane, 44 Aboard, Fades

(Continued from Page 1)

been a school of whales instead of a marker, or possibly other fish.

Another hopeful report — that of an oil slick — was being thoroughly checked by surface craft.

Tragedy Mystery Posed

The airliner — Romance of the Skies — carried 36 passengers and a crew of eight from San Francisco toward Honolulu. At 5:04 a.m. Friday it routinely radioed its position 1,028 miles east of Honolulu. The pilot was supposed to make another routine report at 6 p.m.

He didn't. The plane abruptly, and silently, disappeared.

That set off the biggest peacetime search in the Pacific. And it prompted speculation — but described as "pure speculation" — that something sudden and terrifying had happened. Pan American officials refused to speculate. They said emphatically that nobody knew or could guess what had happened to the four-engine, luxuriously equipped plane.

A Pan American spokesman said the search now included 25 aircraft, 3 submarines, 8 Coast Guard vessels and the carrier Philippine Sea with 13 Gruman radar-tracking planes and sub-hunting helicopters.

One search plane picked up distress signals early yesterday. They were too weak to fix a location from.

Accused Battlers Held On Misconduct Charges

Two men who allegedly chose a Roseburg cafe as a place to fight early Sunday morning were jailed by Roseburg police on disorderly conduct charges.

Jailed were Clifford Bud Ashby, 51, 1634 SE Stephens St., and Robert H. Maney, 29, Rt. 1 Box 1435, Winchester. Police said the fight apparently was over a $5 bet.

RUNAWAY APPREHENDED

A 14-year-old Yoncalla girl was brought to the Douglas County jail by her parents Sunday and was lodged as a delinquent. Deputies said the girl had run away from home several times.

Observances Slated Of Education Week

Open house and back-to-school nights will be among activities with which Douglas County and Roseburg schools will observe American Education Week during the period ending Saturday.

Robert Robins, county AEW chairman, said Roseburg and Douglas High Schools will hold open house programs Wednesday night. High school Future Teacher groups will assist in arrangements.

Back-to-school nights will be held by Central and Joseph Lane junior highs on Thursday evening, with parents becoming "students."

Other county observances, said Robins, include open house programs in the Riddle schools and downtown store window displays in Glendale schools.

The week officially was proclaimed American Education Week by Gov. Robert D. Holmes, whose proclamation followed one by President Eisenhower. It is the 37th annual observance of the special week.

Gen. Lauris Norstad, supreme allied commander in Europe, and Defense Sec. Neil H. McElroy will launch AEW with a nationally, televised "salute to teachers." The program originates in Cincinnati tonight.

Mrs. Halverson Dies At Home Of Daughter

Mrs. Douglas E. (Mabel) Halverson, 73, a former Roseburg resident, died this morning at the home of her son-in-law and daughter, Mr. and Mrs. J. B. Roark, Roseburg. She had lived lately in Whittier, Calif.

Mrs. Halverson was born in Iyes, England, Nov. 30, 1884, and moved to Toronto, Canda, in 1909. She was married there June 29, 1909, to William E. Frye, who died June 1948.

She moved to the United States in 1931, residing in Los Angeles. Later she lived in Roseburg from 1946 until 1955. She lived in Whittier the last two years.

Mrs. Halverson was married in Roseburg to Douglas E. Halverson in June 1950. She was a member of the First Methodist Church, Roseburg.

Surviving are her husband, who lives in Whittier; a son, Edgar E. Frye, Whittier; Mrs. Roark; two brothers, Fred and Harry Knight, both of Toronto, and five grandchildren.

Funeral services will be in the chapel of Long and Orr Mortuary Wednesday at 2 p.m. with the Rev. H. James Jenkins of the First Methodist Church officiating. Concluding services and interment will be in Roseburg Memorial Gardens.

Crazed Gunman Hits Only Himself In Foot

LONDON (AP) — A gunman, apparently crazed, held a 20-year-old stage and radio singer prisoner in a hotel room for two hours early today.

The man, whose name was not disclosed, fired five shots from a pistol without hitting anything but one of his own feet. He finally surrendered after a lengthy siege by 30 police officers.

The girl, Shirley Bassey, suffered from shock but was otherwise unhurt. Peter Quinton, a friend who was with her when the gunman rushed in, was slugged on the head and cut badly.

Typhoon Betters Victory Chances Of Filipino Head

MANILA (AP) — Typhoon Kit lashed populous Luzon Island today. Political observers say it as a possible boost for President Carlos P. Garcia's already strong chances in tomorrow's presidential election.

The big storm, carrying winds of up to 120 miles an hour, was expected to cut completely across Luzon, north of Manila, through sections considered strong for major opposition candidates.

Since typhoons usually bring heavy wind and flood damage, it was considered likely many voters in the rural areas would not be able to reach the polls. Garcia's administration and his Nationalista party's machine also are in a better position than others to provide transportation to the voting booths.

Clark Field, the U.S. air base, was in the path of the storm and transport planes were flown to Formosa and Okinawa. Jet fighters were lashed down or put into hangars.

Political Killings Upped

Meanwhile, scattered political violence increased as campaigns neared an end. Tension mounted principally in areas where bitter congressional battles are being fought.

Two followers of Garcia's Nationalista party were killed over the weekend in Ilocos Norte province, a Liberal party stronghold. That raised to 13 the number of political killings since the campaign began.

The total, however, remained lower than in the 1953 presidential and 1955 senatorial campaigns.

Garcia, 61, is favored to win four years in the presidency, to which he succeeded last March when President Ramon Magsaysay was killed in a plane crash.

Kaiser Withdraws From Proposed Wells Dam Plan

SPOKANE (AP) — Withdrawal of Kaiser Aluminum and Chemical Corp. from participation in the proposed Wells Dam project near Azwell in Douglas county was reported Saturday.

"Quoting "informed sources" here, the Spokane Daily Chronicle said Kaiser had notified the Douglas county Public Utility District of the withdrawal by telephone early last week. No contract release was signed immediately, the newspaper said.

The Chronicle story was substantially the same as one carried by the Wenatchee Daily World Friday.

Kaiser, which has invested $200,000 in engineering costs for the proposed project, told PUD commissioners in an Oct. 24 letter the Wells Dam project was not feasible for the production of aluminum.

High interest rates on revenue bonds in the current "tight money" market and the amount of power to be available in comparison with costs were given as reasons in the letter.

The sources indicated the company may be reimbursed for its $200,000 investment if the project near Azwell is eventually constructed, the Chronicle said.

Kaiser officials indicated the project may be feasible for use by utilities, but power costs apparently would be too high for aluminum production, which uses electric power in huge quantities.

Timber Access Roads On Meeting Program

WASHINGTON (AP) — Sen. Gore (D-Tenn), chairman of the Road subcommittee of the Senate Public Works Committee, has scheduled a public hearing at Portland, Ore., for Dec. 11.

The hearing will deal with timber access roads, forest highways and related matters.

Persons wishing to testify were asked to submit statements by Dec. 9 to the Portland office of Sen. Neuberger (D-Ore).

MISSILE LAUNCHER

Army Pfc. George D. Kelley, son of Donald L. Kelley, Myrtle Creek, participated recently in guided missile firing exercises at Red Canyon, N.M., with the 865th Antiaircraft Artillery Missile Battalion. He is assigned regularly as a launcher crewman with the battalion at Torrance, Calif.

FRATERNITIES PLEDGED
