Escorted to the east and given Bethel honors were, Nancy Schulze, past honored queen, and Nancy Foster, junior past honored queen.

A letter from Janice Rippstein, senior princess, was read. She expressed her regrets that she would have to resign as senior princess since she is now attending Oregon State College and it is impossible for her to attend all Bethel meetings.

Wilson Denies That U. S. Trails Russia In Race

DETROIT (AP) — Former Defense Secretary Wilson last night defended administration policies in the ballistics missile race with Soviet Russia and declared that this country was not lagging behind.

He denied the U.S.S.R. had outstripped America in technological progress and asserted Americans were unrealistic about the Soviet space satellites and their implications in the struggle between East and West.

In a speech at a testimonial dinner given in his honor he said that while Russia claims to have the know-how to produce intercontinental missiles, "our scientists and engineers are convinced that we can do the same."

Soviet Supremacy In Jets, Missiles Told By General

NEW YORK (AP) —A retired chief of the Strategic Air Command says the Soviet Union has better jet bombers and missiles than the United States, which he says has to make "a terrific effort to catch up."

Gen. George C. Kennedy further warned Monday night that U.S. overseas bases are "all in range of Red intermediate and short-range missiles" and would be out of commission "the minute they (the Soviet Union) blow the whistle."

Kenney declared that "world peace can only be maintained as long as the Russians feel the cost of defending themselves is too high."

The 68-year-old four-star general gave this picture of the U.S.'s strength as compared to Russia's at a dinner of the Society of the Silurians, an organization of veteran New York City newspapermen.

"We are years behind right now," Kenney asserted. As for catching up, he said, "We have got to do the job ourselves. We can't rely on the United Nations or our allies."

Kenney was commander of the Allied Air Force in the Southwest Pacific during World War II.

Security Police Open Fire On Demonstrators

JAKARTA, Indonesia (AP) — Security polic opened fire on students demonstrating against increased school fees today, killing a 15-year old boy and injuring another youth.

The demonstration reflected mounting tension caused by Indonesia's current economic crisis.

Two girls were hospitalized after being struck by rocks thrown in the clash between police and students.

Dream Car Turns Into Something Of Traffic Menace

NEW YORK (AP) — A "dream car," designed by a Roman Catholic priest to emphasize safety, turned into something of a traffic menace when it arrived here Monday.

The unusual-looking auto, handbuilt by the Rev. Alfred Juliano, taxed the patience of policemen. Inquisitive motorists, anxious to get a better look, crowded perilously close to the car. Photographers, searching for the proper angle for a picture, stepped into lanes of oncoming traffic.

Policemen finally prevailed on Father Juliano, a 37-year-old member of the Holy Ghost fathers, to park the car in a midtown garage.

The car, named the Aurora, took 9½ hours to make the trip from New Haven, Conn., to New York City—normally a two-hour trip. It broke down 15 times and had to be towed seven times.

Father Juliano designed the car with the consent and assistance of his superiors. His purpose, he said, was "to combine function with safety" because the American people "won't pay for safety but they will pay for style."

The car, he said, would cost $15,000, and was developed from a plan for a combination automobile and airplane, which he is still designing.

The car's design is authentically futuristic. It features a completely transparent roof. Its windshield is a large bubble that juts forward, and the grille is an airscoop that resembles a jet plane.

The priest plans to put the car on a tour of 120 major cities.
