

Man around the house: Even for a man, housework isn't drudgery when there are modern appliances to do the work for him. A pair of laundry servants, like this new washer and drier, make the job of doing the family wash as easy as pie—for man or woman. Keystone of the dream kitchen is the modern cabinet sink. Replace your old sink with a new cabinet model to put increased efficiency into your existing kitchen and make the room so much more pleasant to work in.

Some Ideas For Tree Trimming

This Christmas, try something new and different in the way of Christmas tree decor!

Here are some ideas that are simple to execute, and beautiful to behold!

Try decorating your tree in all-of-one color!

For example, use gold balls in graduated sizes tied with plump shiny ribbons in the same color.

For a natural look, place fresh fruits, such as grapes and apples, with nuts and pinecones along the

trunk of the tree like a Della Robbia garland.

You can even add sugar cookies cut-out in different shapes and iced in pastels.

Cut a tiny hole at the top of each cookie before you bake it. Afterwards, string a loop on each cookie, and hang on the branches of the tree.

Give your imagination free reign this Christmas, for there are endless ways you can add charm, color and glamour to your home!

Toy Selection Calls For Care . . .

A trip to the toy department in search of gifts for the children on your list can be puzzling and discouraging. But not if you plan in advance.

Not only are there variations in size, quality or color for nearly every item — there are toys to love, toys for learning, toys to use — for outdoors and in — for alone or group play.

The Toy Guidance Council has made extensive research not only in regard to the part toys contribute to a child's life — but also on the toys themselves.

Using the facts they uncovered, a number of suggestions to aid the selection of toys have been made.

1. Avoid giving toys that do not require action by the child. They soon tire of toys they merely watch.

2. A gift they can love, such as a doll for girls, is almost always a fine gift.

3. Be sure your gift suits the child's age and abilities.

It's a wise idea to check the

toys for these safety features, too: (1) smooth edges, (2) sturdy construction, (3) that toys for small children are too big to swallow, (4) non-toxic paint finish, (5) approved wiring in electrical toys (which should never in any case be given to children under 7 years of age).

Country's Freedom; Christmas Gift, Too

The foundation for the preservation of the freedom to celebrate such Christian beliefs as Christmas — this was the gift to our country on that very day in December 1776.

It happened when George Washington and his men won the battle at Trenton, Pa. That was the beginning of a long line of victories that eventually led to ultimate victory and total independence.
