Reg. Price

Snow Tires by GOOD YEAR

Completely new tire . . . pulls through snow . . . runs quietly on bare roads . . . lasts far longer!

The 3-T Custom Suburbanite has a revolutionary new tread with wide deep-digging "V-GRIP" notches and thousands of tiny traction teeth for better grip. The 3-T Triple-Tread Cord body has more miles of wear built in. Available in black or white sidewalls, tubeless or tube-type. See us soon, for safer Winter driving.

**A PAIR WILL GET YOU
THERE EVERY TIME!**

**USE THE SHELL
BUDGET PLAN**

Deep snow doesn't stop you! 5500 biting edges dig in deep to give you strong, straight-ahead pull, even on steep, snow-covered grades. To get places this Winter without delays, get new Custom Suburbanites, by Goodyear.

MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND!
