### Dividends Will Be Paid On Veterans' Insurance

Regular annual dividends of \$262 million will be paid to more than five million World War I and II GI insurance policyholders next year, Veterans Administration announced.

The administration said dividends will be paid as near as possible to the anniversary date of each policy during calendar year 1958. For example, if a policy was issued any June 1, the anniversary date will be June 1, 1958.

The dividend declarations do not include the non-participating post-Korea type of GI insurance. The law makes no provision for dividend payments on those policies.
