Rep. Cannon Cautions On Over-Spending

WASHINGTON — Chairman Cannon (D-Mo) of the House Appropriations Committee cautioned today against a government spending spree under the guise of national defense.

"Where the national defense is concerned, we cannot count the cost and we must provide all the money necessary," he said in an interview. "But that's no reason why we should get hysterical and spend vast sums of money that aren't necessary."

"A great many people are going to use national defense as a reason to bolster their requests for bigger appropriations," Cannon added. "To them, Sputnik was a godsend. The pork barrel fellow says we still must have our pork."

The pork barrel reference was to annual bills providing for local projects such as river and harbor and flood control programs, on which many members base their election campaigns.

Some Congress members already are contending that such projects add more than their cost to the nation's wealth, and must not be neglected.

U. S. Ambassador Bruce Crosses East Germany

BOONN, Germany — U. S. Ambassador David K.E. Bruce crossed East German territory by train Saturday — the first Western diplomat to make the trip since the Communist state announced new visa regulations.

Bruce made the passage without incident. Earlier this week East Germany said Westerners seeking to travel between West Germany and West Berlin would have to obtain East German visas.

The new rule, however, does not apply to U.S., British and French diplomats traveling across the 110 miles between West Germany and West Berlin.

John Lewis Raps Meany, Reuther In Unions' Ouster

WASHINGTON — John L. Lewis says the AFL-CIO hasn't the right to expel "hundreds of thousands of wage earners" because their union leaders are accused of corruption.

Lewis, whose United Mine Workers union is not part of the big labor federation, took issue with the AFL-CIO for ousting the Teamsters and other unions on corruption grounds.

Appearing on a television program, Lewis said, "I think expelling great unions with vast membership is merely shooting the dog to remove the tick. There is no police power invested in the AFL-CIO. We have laws to deal with corruption."

The UMW chief said AFL-CIO President George Meany and Walter Reuther, president of the United Auto Workers, are "not proving to be a success" as leaders of the American labor movement.

Lewis termed Reuther "an earnest Marxist" but said he wouldn't go so far as present as to identify the UAW leader with communism. However, he said he would not endorse claims that Reuther had been instrumental in ridding unionism of Communist influences.

As for Meany, Lewis called him "an honest plumber trying to eliminate sin in labor unions—which is not a function of the labor movement."

Meany had no immediate comment. Reuther is in Mexico on vacation.

Hillary Reaches McMurdo Sound

McMURDO SOUND, Antarctica — Sir Edmund Hillary arrived back at McMurdo Sound from the South Pole by plane today, covering in less than half a day the 1,200 miles it took him 11 1/2 weeks to cross by tractor.

The rangy 35-year-old New Zealander pushed on immediately to his country's nearby Scott base to begin preparations to join Dr. Viann Fuchs and his British party now edging across Antarctica from the opposite side of the continent.

Fuchs messaged that his 12-man expedition, which has been bucked by bad weather and tricky terrain, was within 257 miles of the pole. He was expected to reach the bottom of the world in about a week.

Then the Britons will press on to meet Hillary at a station the New Zealanders established 700 miles inland from Scott base. Hillary will help the Britons complete the first overland crossing of the continent.
