FALSE TEETH

That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEREETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. There's no sour "cheesy" odor (denture breath). Get FASTEREETH at any drug counter.
