How does your hair measure up to the four C's: condition, cut, curl, and color? Condition-only hair will improve with proper shampoo — dandruff is a warning not to be ignored — dry hair can be given a boost with massage and preshampoo treatments. A good cut makes a difference in how hair behaves — Curl-expert hairdressers adapt waving skills to the hair in hand — and Color-rinses, lighteners or more lasting colorings give hair a more vibrant look if properly administered so a trip to your favorite hairdresser will certainly give you a new look.

LOCAL FILL

Here's a trick for the well-dressed — when you pick a print ignore its many colors as they look close-up — Examine the dress from across the room then you get the total effect and how all the colors blend together.
