Sutherland Budget Being Worked Out

Forrest Rehwal has been elected chairman of the committee, according to correspondent Herbert Osaki. Ira Mann is secretary. Other lay members of the committee are Harvey Brown, Mrs. C. J. Bielmann and O. L. Terrey. Supt. Leland P. Linn at this week's meeting urged the district to spend more money on maintenance and repairs. He said last year the district spent an average of \$4.98 per student. Last year, the amount spent on an average in the county was \$13.45. He also pointed out that better storage facilities are needed. In addition, he stressed a need for black-topping, particularly at the East School and the high school.

It was reported that one bus must be replaced and an increase in view of a boost in enrollment might be necessary.

Scientist Sees Scouting Parties On Moon By 1970

By ELTON C. FAY

WASHINGTON — An astronomical scientist predicted Friday small scouting parties can be landed on the moon by 1970.

From a base there, men could later move on to Mars and, during the 1980s, into the outer solar system, Kraft A. Ehrlicke said in a speech prepared for an Air Force Assn. jet conference.

Ehrlicke, a scientist with the Convair astronautics division of General Dynamics Corp., put forth this time table for lunar travel.

In the period 1958-64, a rocket shot close to the moon, then one impacting on the moon, another circumnavigating it and one making a controlled landing on the surface.

In the 1964-66 period, landing of vehicles carrying recording-transmitting instruments; rockets with men aboard to cruise near enough to make a lunar reconnaissance and, "in the period 1967-70, landing small scouting parties." These parties would decide whether the building of a permanent moon base should be undertaken.

Supply Base

If building of a base was decided upon, development of a supply system for a permanent base would be carried on in the early 1970's.

The time table for journeys from the moon base to the distant places of space, said Ehrlicke.

U.S. Sends New Team To Drive For Disarmament

WASHINGTON — The United States sent in a new team today to drive for a showdown with Russia on disarmament.

James J. Wadsworth, now deputy U. S. delegate to the United Nations, replaces Harold E. Stassen as chief negotiator. Backing him up are four citizen-advisors: Gen. Alfred M. Gruenther, Robert A. Lovett, John J. McCloy and Walter Bedell Smith.

Secretary of State Dulles named them with President Eisenhower's approval.

Meanwhile the Atomic Energy Commission reports Russia set off two nuclear test bombs yesterday, making three this week.

Stassen left his disarmament post to seek the Republican nomination for governor in Pennsylvania. Stassen reportedly contended the United States should offer more concessions to Russia and Dulles disagreed.
