Brazilian Pilot Lands Safely

RIO DE JANEIRO (AP) — With three engines burning, an Argentine airline pilot coolly followed emergency procedures for a trick landing in the surf off a Brazilian island Tuesday.

The DC8B slid aground on the sandy bottom and the 15 passengers and 6 crewmen waded ashore just before the four-engine plane burst into flames. Only one person was seriously injured.

Alerted by the pilot's emergency radio calls, the Brazilian Air Force had helicopters on the scene within minutes of the crash to fly the survivors ashore from Ilha Grande, an island about 75 miles southwest of Rio. The Brazilian navy also stood by to help. Aerolineas Argentinas said the plane had been held up in Rio last week by mechanical trouble while on its way to Europe. Coming back from London, it developed engine trouble after leaving Rio for Buenos Aires and the pilot was unable to make it back to an airport.
