

LOS ANGELES (AP) — "The Russians do not want war," says Mme. Chiang Kai-shek. "That was proven in the Berlin airlift and in the Mideast," she said. "The Russians do not want war."

Newsmen asked her about the Chinese Reds' intentions.

"The Communist mind is so devious," said the wife of the Nationalist Chinese leader, "that we can never be sure just what their plans are."

She said renewal of the Red Chinese attacks on Quemoy may only be a probing operation but that the possibility of an all-out invasion cannot be ruled out.

Mme. Chiang, who arrived from New York by plane for an address before the American Bar Assn. convention, said a firm stand by

Arab Nationalism Gains Recognition, Nehru Says

NEW DELHI (AP) — Prime Minister Nehru said today the European countries and the United States are slowly coming to face the reality of Arab nationalism in the Middle East.

This, he said, was shown by passage of the Arab-sponsored resolution in the U.N. General Assembly.

AP Business News Writer
NEW YORK (AP) — The stock market weathered some adverse breezes last week and moved ahead moderately.

Defeat in Congress of the half billion dollar minerals subsidy bill was a blow to copper and other nonferrous metals. The continued tightening of credit was a dampener to the list as a whole.

More bullish influences were the continued rise in steel production, improvement in rail loadings, another record high for electric power output and the boost in living costs to a record peak.

Wall Street was more cautious, as shown by the drop in weekly volume to 12,270,245 shares from 14,621,501 the week before. But there were enough buyers to push the market averages ahead once again.

Last week's gain was a resumption of the seven-week uptrend interrupted in the prior week by a reversal as volume dwindled.

The Associated Press average of 60 stocks rose \$1.10 to \$184.50. Lower-priced issues not represented in the average were the most popular stocks, however.

This gave the market a somewhat frothy aspect all week and led some market analysts to comment on "poor leadership." But this phenomenon did not reach the point of speculative excess which so often marks the topping-out of a market rise. There was ample support for the favored blue chips as well.

The week's five most active stocks were in the lower-price category, none higher than American Motors, which closed at 16 1/4. All were gainers.

For the list as a whole, advances outnumbered declines by 655 to 555, not much of a bulge.
