

Republicans Say Democrat Policy Leads To Socialism

WASHINGTON (AP)—Republican leaders said after a conference with President Eisenhower Monday that continued Democratic control of Congress would take the nation "down the left lane which leads inescapably to socialism."

GOP National Chairman Meade Alcorn set forth the leaders' views at a White House news conference.

Alcorn described Eisenhower as being "in a real fighting mood" and ready to help the party to the utmost in the campaign.

Eisenhower called the conference, which lasted almost 2½ hours, to deal with what he has termed apathy and complacency in the ranks of GOP candidates and voters.

The leaders came away talking optimistically. Sen. Everett Dirksen of Illinois, Rep. Joseph Martin (Mass.) and other said reports indicated Republican chances were picking up all over.

Marquis Must Wait To See If Divorce Legal

LONDON (AP)—The Marquis of Milford Haven was told by a judge today he must wait at least two weeks before learning whether his Mexican divorce can be recognized in England.

The tall, dark, 39-year-old British blueblood—best man at the wedding of Prince Philip and Queen Elizabeth II—is reported ready to marry film actress Eva Bartok as soon as he is legally free.

Milford Haven is asking the divorce court to declare his divorce valid in England. His American ex-wife, the former Mrs. Romaine Simpson, flew to Chihuahua, Mexico, for 24 hours in 1954 and obtained a decree on grounds of incompatibility.

Britain does not recognize Mexican divorces. But the marquis' counsel argued that English courts recognize New York divorces and New York courts recognize Mexican divorces, so a decree held valid in New York should be valid here.

Judge Arthur Davies adjourned the case until "not before Oct. 20."

Miss Bartok divorced her fourth husband, German actor Kurt Jurgen, in November 1956.

Panama President Would Curb National Guard

PANAMA (AP)—President Ernesto de la Guardia Monday night sent the National Assembly a bill to curb the powers of the National Guard. His aim is to end student strikes and riots which have plagued Panama for five months.

Students have been feuding with the guard since repression of riots last May. One student died of injuries and eight persons were killed in resulting violence. A guardsman was wounded in a renewal of violence Sunday.

Eighty students still occupy the city's principal high school. They took possession of the building Sunday after President de la Guardia decreed closing of Panama's secondary schools after a new strike which began Sept. 26.

Trading On New York Stock Market Last Week Posted As Heaviest In Nearly Year

By ED MORSE
AP Business News Writer

NEW YORK (AP)—The stock market roared on to a series of record highs last week. Trading was the heaviest in nearly a year.

The market set all-time peaks on four of the five trading sessions. It was the third straight week the market has set historic highs and the seventh consecutive weekly rise.

Volume of 19,227,870 shares was the biggest for any week since the week ended Oct. 26, 1957, when 20,804,100 shares changed hands. That was the week stocks climaxed a long decline by falling to the lowest levels since January 1955. The present upturn dates from then.

Stock sales totaled 18,481,000 shares last week and 8,667,455 shares in the corresponding 1957 week.

Bond sales this week had a par value of \$29,839,000 compared to \$31,451,100 last week and \$18,452,000 in the same 1957 week.

Monetary Fund Members Vote To Increase Aid

NEW DELHI, India (AP)—The members of the International Monetary Fund voted overwhelmingly today for a U.S. proposal to consider increasing contributions to the fund.

There was not a dissenting voice when the proposal was placed before the fund's 13th annual conference. Britain, West Germany, and other countries supported the U.S. plan.

The fund supports trade in the non-Communist world with a pool of the various foreign currencies from which nations can borrow when short of exchange to pay for imports.

Derick Heathcoat Amory, British chancellor of the exchequer, proposed at the annual meeting of the fund that its 67 member governments increase their quotas of contribution to the fund by 50 per cent.

Heathcoat Amory's speech heightened the general belief that an increase of fund quotas is likely. The members were expected to direct their Executive Board to study the situation and report by December.

Flemming Demands Vigorous Attack Against Pollution

WASHINGTON (AP)—A vigorous attack on water pollution in this country is a must, Secretary of Welfare Flemming said Monday.

"The pollution problem has grown steadily worse until today it has grave implications for the future progress and well-being of the nation," Flemming said.

"Every year for 30 years we have been dumping more wastes into the water supply of the nation than we have been removing through treatment."

Flemming, backing up his formal statement at a news conference, supported a new proposal to shift financing of the program to the states.

The federal government would relinquish 40 per cent of its telephone tax revenue to the states to give them additional money for this program and vocational education.

"But I don't believe in letting the program fall down between the cracks while the discussion goes on," Flemming said. "Additional funds to provide an incentive to the local communities must be available either in the form of federal funds or state funds."

He noted that during the two years ended June 30 federal grants for waste treatment facilities had totaled 95 million dollars and state and local funds had been 610 million.

Flemming said in its new form the proposal would make available to the states about 145 million dollars to cover the costs of the present 85 million dollar federal grant program.

Fifty million dollars is now being made available annually for waste treatment construction and 35 million for vocational education.

Steelworkers Head Says Colds Cause Most Lost Work

PORTLAND (AP)—David J. McDonald, president of the United Steelworkers Union, told the Catholic Conference on Industrial and Social Relations here Monday that colds cause more lost work hours than strikes.

He said that although the right to strike is backed by the Constitution, "there are more laws in our country limiting the rights of labor than in any other nation in the Free World."

McDonald, who heads a 1½ million member union, contended that management causes work stoppages as much as labor.

"The five million unemployed workers in our nation today," he said, are a part of a work stoppage by our management."

To be justified, McDonald continued, a strike should be for a just cause with a reasonable chance to succeed and with good effects over-balancing the bad.

"All and every practical means should be tried before a strike is called," he said, "a strike must be conducted lawfully and honorably."

Earlier in the day at a news conference McDonald said that the welfare of his union is closely tied to the Pacific Northwest's lumber industry.

From one to three tons of steel goes into each new house that is built, he said.

He added that between 20 and 25 per cent of the union's 3,000 members in Oregon now are out of work.

Unless the Eisenhower administration acts to curb unemployment, "I think we'll see some changes in the administration and in Congress."
