

Mammoth Footed Something Puzzled To Californians

SEATTLE (AP) — A taxidermist says Big Foot, the creature whose huge, human-like footprints have been found in the Weitchapee area of northern California, is an Indian gone wild.

Al Corbett said he and another taxidermist, Bob Titmus of Anderson, Calif., inspected the tracks 25 miles north of Weitchapee last Saturday and found the prints to be "very large, definite human tracks."

Corbett said the clearest print was 16 inches long, 5 inches across at the heel and 7 inches across at the ball of the foot.

A logger in the area, Gerald Crew, last week brought out a plaster cast of a clear footprint.

"The story behind this is that there was a mentally deficient Indian boy who was kept chained by his parents," Corbett said.

"When this boy was 17 years old, 28 years ago, he broke the chains and disappeared. The Indians found his clothes but never saw him again. They said he had extremely large feet."

"We talked it over a great deal and figured this man now must be 6 feet 7 inches to 7 feet 6 inches tall. We thought he might weigh as much as 400 pounds. He made firm footprints in hard ground."

"Measuring the footprints for a distance of more than 60 feet, we found the average stride was 50 inches. We checked this against the stride of a man 6 feet 4 inches tall, with long legs, and his stride was 20 inches."

"We were told by people who saw footprints made when they were 10 feet apart.

"I know positively this is a human being.

"It seems logical that it is this Indian who disappeared and is living wild. He does his traveling at night. He has not molested any one. We learned these tracks have been appearing for the past 30 years."

Corbett said Titmus is preparing to set up camera traps in an effort to obtain a photo of big foot.

President Names Gerald D. Morgan Principal Deputy

WASHINGTON (AP)—President Eisenhower today named Gerald D. Morgan, now White House special counsel, as his principal deputy assistant.

David W. Kendall, a former assistant secretary of the Treasury and now a Washington attorney, was named to succeed Morgan as special counsel. Both appointments are effective Nov. 1.

Morgan, 49, of New York City, will serve under Wilton B. Parsons, who was sworn in Tuesday as Eisenhower's chief aide.

Persons is taking over the top spot on the White House staff from Sherman Adams, who resigned under fire Sept. 22 in the wake of criticism of his relations with Boston industrialist Bernard Goldfine.

Adams is staying on in his White House work temporarily for the purpose of effecting what he has termed an orderly transition.

Since the Morgan and Kendall appointments are effective Nov. 1, this would appear to be the probable time for Adams' departure.

The selection of Morgan and Kendall completes the top echelon reorganization of the White House staff.

Detroit Steps Up Its Anti-Polio Campaign

DETROIT (AP)—Dr. Joseph G. Mulner, Detroit-Wayne County health commissioner, launched a stepped-up inoculation program today in the battle against the area's polio epidemic.

Molner said that in addition to emergency inoculation centers operated by his department, other centers will be opened to groups of at least 500 persons willing to bear part of the expense. Such groups will get Salk vaccine at \$1 a shot but must arrange for a place to give the shots as well as for doctors and nurses.

Seven new polio cases were reported in Detroit Tuesday to bring the total thus far this year to 549 cases and 18 deaths, compared with 172 cases and 2 deaths last year.

Coos, Curry, East Lane Forests Are Reopened

SALEM (AP)—Gov. Robert D. Holmes today reopened forests in Coos, Curry and eastern Lane counties.

He has ordered them to be opened, except by permit, last Friday because of the severe fire hazard and the consequent danger of permitting deer hunters to enter those areas.

The governor's action today was recommended by the state forester. There now are no closed areas on state or private lands, except where timber owners have forbidden hunters to enter.

The Forestry Department said the fire hazard is much lower now than it was a few days ago.

U. S. Foreign Policy Balloons Into Major Campaign Issue

By JACK BELL
WASHINGTON (AP)—Foreign policy ballooned into a major campaign issue today with Democrats and Republicans trading stinging criticisms of each other's approach to handling international communism.

In a similar vein, Butler said the administration is trying to make it appear that criticism of its foreign policy is "somehow treasonable."

Sen. Hubert H. Humphrey (D-Minn.) and Democratic National Chairman Paul M. Butler lashed out Tuesday night at what they called the Eisenhower administration's attempt to impose political censorship on critics of its foreign policies.

The twin blasts indicated the Democrats intend to keep on discussing the issue until election day. Republicans in turn attacked the Democratic criticisms.

Sen. Republican National Chairman Meade Alcorn said the Democrats "seem politically willing to undermine American diplomacy during this most serious challenge."

He accused them of favoring appeasement of Red China in the Quemoy crisis.

To Have Sharp Words

GOP National Committee spokesmen said they expect Eisenhower to have some sharp words for his critics when the President begins personal campaigning next week.

Humphrey, vice chairman of the Democratic Senatorial Campaign Committee, accused Eisenhower of attempting "to stifle public discussion of the Quemoy crisis."

The senator, in a speech to the GOP National Committee, said that in addition to emergency inoculation centers operated by his department, other centers will be opened to groups of at least 500 persons willing to bear part of the expense.

Such groups will get Salk vaccine at \$1 a shot but must arrange for a place to give the shots as well as for doctors and nurses.

Seven new polio cases were reported in Detroit Tuesday to bring the total thus far this year to 549 cases and 18 deaths, compared with 172 cases and 2 deaths last year.

At noon (6 a.m. EST), a Vatican radio broadcaster, speaking from the Pope's antechamber, said at the time the Pope was "resting."

He added that the condition of the pontiff was unchanged from that reported in the medical bulletin which several hours before had announced the second stroke and said the Pope had made some slight improvement.

The broadcaster said the Pope's temperature was 37 degrees centigrade (98.6 Fahrenheit), normal, but his pulse was 103, very high.

The radio spokesman added that "at that moment" the pontiff was in a state of lethargy, "probably under the effects of tranquilizers administered to him."

The second attack was of the same type as that which felled the pontiff Monday, a cerebral circulatory attack which produced coma and partial paralysis.

It came on him at 7:30 a.m. (1:30 a.m. EST), just 47 hours after the first stroke.

It was learned unofficially at the Vatican press office that the Pope's heart was weakening and had become irregular after the second attack.

Pakistan President Ends Government; Constitution Slated

KARACHI, Pakistan (AP)—President Iskander Mirza ruled Pakistan under martial law today after abolishing the government to clear the way for writing a new constitution.

Mirza pledged Pakistan to honor all international commitments. The nation has a mutual defense treaty with the United States and belongs to two anti-Communist alliances, the Baghdad Pact and the Southeast Asia Treaty Organization.

Mirza, 59-year-old former major general, took over Tuesday with strong criticism of politicians who have led Pakistan from one political crisis to another since the British separated the Moslem nation from India in 1947. The President outlawed political parties.

He named Gen. Mohammed Ayub Khan, commander in chief of the Pakistani army, as chief martial law administrator and placed all armed forces under him.

No disturbances were reported as troops took station in government offices and at key installations. Civilians cheered the soldiers in some places.

Mirza annulled the constitution, dissolved the central and provincial governments and abolished the national and provincial assemblies. The two provinces of Pakistan, separated by 900 miles of India, contain about 81 million persons.

Ashland Man's Bail Forfeited

Municipal Judge Randolph Slom today ordered \$75 bail for Ray Chester Clark, Ashland, forfeited when the defendant failed to appear for trial.

Clark was arrested by Roseburg police Aug. 28 following an altercation in the downtown area and cited on two counts, public intoxication and disorderly conduct.

Judge Slom fined Joseph Luther Fry, Medford, and Elmer Clifton Williams, Seattle, \$15 each after the pair entered pleas of guilty to vagrancy charges. Both were picked up by police on Tuesday. Fines were paid and the men released.

Yesterday William Marshall West, 27, of Portland pleaded guilty to a vagrancy charge. He was jailed in lieu of a \$25 fine.

The court also approved the appointments of Bruce Spaulding and Watson D. Robertson, both of Portland, and John R. Dellenback, Medford, to three-year terms on the board.

Husband Stalks Estranged Wife In Garment Plant

PHOENIX, Ariz. (AP) Herabel H. Crosser walked into the busy garment factory Tuesday and asked for his estranged wife. Then he pulled out a pistol and said: "If the police come, somebody's going to get shot."

Mrs. Irene Crosser, 37, a factory supervisor, emerged from a cutting room just before Crosser gave his warnings.

Detectives Gordon Selby and Bill Dowdy and factory workers told this story:

While 37 employees, mostly women, scurried for cover, Crosser stalked his wife for about eight minutes.

As they circled the long tables lined with sewing machines and fabrics, plant manager Howard Rittmatt and others asked Crosser to put down his gun.

Then Patrolmen Clarence Baldwin and Jay Larson arrived in response to an alarm.

Crosser spotted Baldwin and fired at him, barely missing his shoulder.

Then he fired two shots at his wife, being led away by the two women. She fell dead. Crosser then killed himself with a single shot in the head.

Later the detectives said Mrs. Crosser left her husband six weeks ago because he hit her with a rock. Why did he take a gun to see her?

The detectives said he wanted her to sign some papers forfeiting her rights to his property.
