Laurel Lodge No. 13, Laurs and Calicos pattern dance lessons, Winston Community Building, 8 p.m.

South Douglas Assembly Rainbow for Girls, Masonic Temple, Canyonville, 7:30 p.m.

Swingings 8's, Youth Center, hinge square dance lessons, 7:30 p.m.

Production, Services Take Another Gigantic Stride; Stock Market Goes Higher

By WALTER BREEDE JR., AP Business News Writer

NEW YORK (AP) — Business took another giant step along the comeback trail last week.

Total production of goods and services roared along at an annual clip of better than 440 billion dollars. Government economists said it should hit another 450 billion by year-end.

The previous high — reached last summer before the recession made itself felt — was 445½ billion.

Stepped up production of steel, copper, aluminum, zinc and lead contributed mightily to the economy's forward surge last week. So did consumer buying.

The quickened economic tempo gave the railroads a lift — freight carloadings touched a new 1958 high for the fifth straight week. On the national economic level the fast pace of recovery showed up vividly in a brand new batch of government statistics.

Heavy Gains Record

1. Personal income of Americans climbed in September to a record annual rate of 237½ billion dollars (adjusted for seasonal variations). That's a gain of 11 billion dollars since February's recession low.

2. Output of U. S. mines and factories climbed to 137 per cent of the 1947-49 average — at a time (September) when Detroit was up to its neck in labor strife and model changeovers and auto production had slowed to a crawl.

3. Private housing starts in September soared to a seasonally adjusted annual rate of 1,220,000 foundations poured — highest since October 1955.

Confidence ruled this week from main street to Wall Street — and dispelled much of the gloom that had shrouded Automobile Row.

It was very much in evidence, too, at the annual Hot Springs, Va., meeting of President Eisenhower's Business Advisory Council, a group comprising the biggest names in U. S. industry, trade and finance. Consensus of the corporate elite: the momentum will continue to gain momentum if the new 1959 cars catch on.

The stock market thundered to a series of new record highs in the heaviest trading in years. Bulls took a sharp hike in margin requirements (from 70 to 90 per cent) in stride.

Stock sales in the latest week totaled 24,402,570 shares compared to 19,104,949 shares in the previous week and 13,137,631 in the same week last year.

Sec. Dulles Terms Renewed Shelling Of Quemoy Tragedy

EISENHOWER AIR FORCE BASE, Alaska (AP)—Secretary of State Dulles said today that it was a tragedy that the Chinese Communists have again displayed their "warlike disposition."

Dulles made the statement while awaiting refueling of his jet tanker which is taking him to Formosa.

The secretary told a newsman he had just talked to President Eisenhower in Denver and was informed of the Chinese Reds' resumption of firing in the Formosa Strait area.

"I had embarked upon what I believed and hoped was a mission of peace," Dulles said. "I shall persist in that purpose."

Dulles said both President Eisenhower and President Chiang Kai-shek had thought it useful for him to go to Formosa for consultations when the Communists announced the cease-fire which was in effect at least two more weeks.

"It is obvious that if the Communists resume their fighting to achieve their political goals, our consultations cannot have the same scope and character that would have been possible if there were a cease-fire."

"Nevertheless, I believe that consultations can usefully be held," Dulles asserted.

Dulles and his party left this Alaska Air Command base 28 miles south of Fairbanks for the nonstop flight across the Pacific to Formosa. The flight was expected to take about 11 hours.

Anti-Marxist Book May Win Writer's Prize

STOCKHOLM (AP) — An anti-Marxist book by a Soviet writer, banned in Russia "for lack of literary value," may be rewarded with this year's Nobel prize for literature.

The writer who is reported to top the 1958 list of literary Nobel prize candidates is 68-year-old Boris Pasternak, who still lives in Russia.

The book is "Doctor Zhivago," a novel about a wealthy Russian doctor and his trials through this century's wars and revolutions.

The 18 members of the Swedish Academy of Letters are to pick the winner of this year's \$41,420 literary prize next Thursday.

The theme of Dr. Zhivago "is freedom, or rather the lack of it in the Soviet Union, and what this has done to 200 million people."

To get the manuscript printed Pasternak had to give it to a friend who smuggled it out of Russia. The book first appeared in Italian in Italy last year, and ever since the Russians have tried to interfere with its publication elsewhere.

Scandinavian publishing houses, contemplating an edition of "Dr. Zhivago" were warned by the Russians not to publish the book since they have decided not to publish it themselves because it lacks literary value.

One of these publishers said: "A Nobel prize for Pasternak might be too big a chunk for the Russians to swallow."

The implication was that "Dr. Zhivago" might place Soviet Premier Khrushchev in a dilemma similar to that of Adolf Hitler with regard to Nobel prizes. Hitler, in 1936, forbade all Germans to accept Nobel awards after concentration camp prisoner Carl von Ossietzky, a Jew, was awarded the Nobel peace prize.

Manufacturers' Sales Tax To Be His Recommendation To Congress, Weeks States

HOT SPRINGS, Va. (AP) — Secretary of Commerce Weeks will urge the administration to include a manufacturers' sales tax in its recommendations to Congress in January.

Weeks told this to reporters while meeting here with the nearly 100 top industrialists who make up the Commerce Department's Business Advisory Council.

He said he was speaking strictly for himself in advocating a broad, uniform excise tax levied at the factory.

"The recession has made it clear. Weeks said, that the government is overly dependent on the income tax as its major source of revenue. Much of this year's prospective 12 billion dollar deficit is traceable to the impact of the recession on individual incomes."

"It continually disturbs me that 80 per cent of the government's income comes from the income tax in one form or other," he said. "It is too vulnerable to the vicissitudes of the economy."

Would Speed Write-Off

Weeks said he also would urge that business be permitted to write off more rapidly, in depreciation for tax purposes, its outlays for new plant and equipment.

This would provide greater in-

Boeing Excess Profits Hearing Opens In Seattle

SEATTLE (AP) — A hearing on a 10-million-dollar renegotiation suit involving excess profits for Boeing Airplane Co. opened here Monday.

It is the first of a series of suits in which makers of military aircraft seek reduction of government claims of excess profits.

The government's Renegotiating Board being made 10 million too much on military contracts in 1952. The company refunded that amount but now contends the board erred.

Boeing has two other cases pending, involving a profits determination of 7½ million in 1953 and 10 million in 1954.

Judge Graydon G. Withey, Washington, D. C., a member of the United States Tax Court, will conduct this hearing on the 1952 case only.

If it wins the suit, Boeing would recover less than three million dollars after federal excise taxes, a company attorney said.

Similar suits have been filed by other airplane manufacturers. They total 90 million dollars a government attorney said.

Australian Wool Selling At 1/3 Of Boom Years

SYDNEY (AP) — Australian greasy wool is selling at around 46 Australian pence (43 cents) a pound, the lowest price in a decade.

The price at the wool auction sales is less than one-third of the average in the boom year 1950-51.

It should mean cheaper woolen clothes, but with greater use of synthetics, wool is a smaller factor in winter clothing costs.

Although wool is the greatest source of Australia's overseas income the dramatic price fall of the past year has had little visible effect.

The national council of wool selling brokers reported the September average for greasy wool was 46.49 pence a pound (\$43.36 cents). This was about the same as the average for April, May and June and was down on the price of 72.90 (66 cents) for September a year ago.

In recent months Japan has been chief buyer.

3 Drown, 1 Escapes In Upset Of Light Boat

MINNEAPOLIS (AP) — A young schoolteacher and two male companions were swept to their death in the churning waters of the Mississippi when their light boat capsized beneath a power dam Sunday.

Another woman, also a teacher, struggled to shore.

"We must have got too close," said Claudia Peterson, 23, the lone survivor.

Drowned were Marlene Voronvack, 23, a teacher in suburban Roseville; Vaughan Uhr, 23, Swea City, Iowa, a student at Bethel College in St. Paul; and Keith Kelsey, 23, St. Paul.

Uhr and Kelsey were unable to keep the boat afloat with paddles after the motor apparently failed and the 17-foot craft began spinning in the eddy under the dam. The boat overturned and the four occupants were pitched into the water.

Report Says Russ Tank Driver Flown Back From Britain

LONDON (AP) — A young Red army tank driver who fled to the West is believed to have been secretly flown back to the Soviet Union from Britain.

The Soviet Embassy here assured the Foreign Office 22-year-old Sgt. Anatoli Ponomarenko went back voluntarily.

But Russian emigre sources are convinced he was kidnaped by Red agents under the noses of Scotland Yard men detailed to guard him. They believe he now has been executed.

Ponomarenko had 70 days of freedom in Britain after quitting his unit in East Germany and escaping to West Berlin last Dec. 31. After his escape, his commanding officer accused him of murdering a comrade and demanded his return.

British authorities replied that the soldier's pistol had not been fired since it was made. He was granted political asylum.

Helped Write Pamphlet

Shortly after coming to London, he helped write a pamphlet to desert. He spoke out on television and addressed an anti-Communist meeting.

Early in March he disappeared from his hideout in northwest London, leaving behind all his personal belongings.

Officials of the National Alliance of Russian Solidarists, an emigre movement dedicated to overthrowing Russia's Communist regime, told Scotland Yard that just before Ponomarenko vanished, he became friendly with a middle-aged Russian woman.

The sergeant never was seen again. The Soviet Embassy told the British Foreign Office he visited the embassy and asked to return to the Soviet Union. Friends in the emigre organization said the idea is preposterous, that he "was clearly dedicated to our mission."

TO SEE AGAIN — A model wears a pair of new tri-optic lenses, designed for the partially blind, which were publicly demonstrated for the first time in Buffalo, N.Y., recently. Upper left, of the lens magnifies up to 300 per cent for distance vision; center gives normal size vision; and lower sector magnifies up to 2,000 per cent for reading and close work. The unique lens, it is claimed, will enable as many as half of the nation's 500,000 partially blind to regain youthful sight.

Sneak Tornado Belts Tranquil Farming Town

PAHOKEE, Fla. (AP) — A sneak tornado belted this tranquil farming town Sunday with fury that left one dead, 16 injured and \$400,000 damage in splintered homes, equipment and communications.

The twister lashed first at the airport, a mile west of Pahokee. Nine crop-dusting planes were wrecked. One of them sailed 500 feet across a road.

"It rolled up my four planes like a ball," said Jack Phillips.

Two rows of migrant farm workers' homes collapsed.

One house was blown more than 400 feet. Its wreckage yielded the body of John Gray, 70-year-old Negro laborer.

Two Americans Convicted Of Customs Violations

TOKYO (AP) — The Tokyo District Court today convicted two Americans of violating Japanese customs laws. They drew a suspended three-month jail sentence and fines of 50,000 yen (\$138.89).

The defendants were Donald Green, 23, Baltimore, Md., and Stanley F. Hanlon, 21, Middle Island, N.Y.

They were charged with illegally shipping \$8,460 worth of Japanese textiles to Korea through the tax-free U.S. Army post office last April and May.

3 NEW POLIO CASES

DETROIT (AP) — Three new polio cases were reported in Detroit over the weekend, boosting the city's total this year to 393, with 19 deaths.

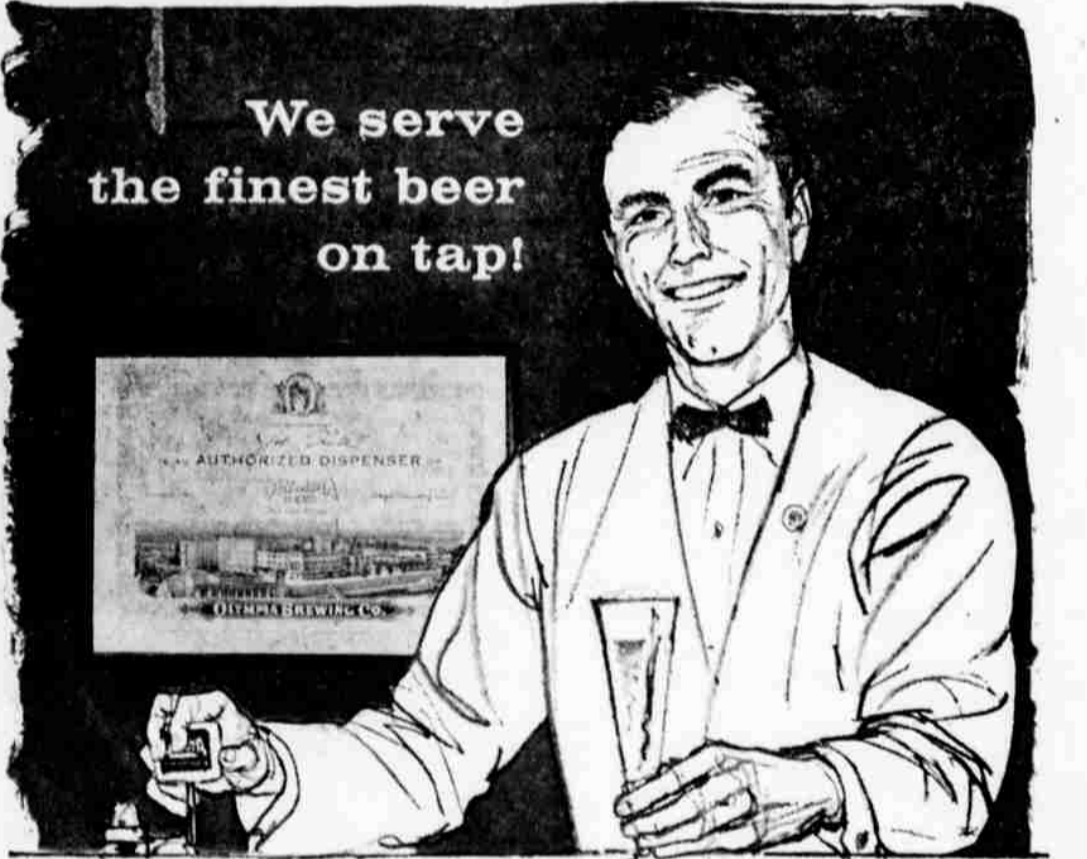

TRY FOR RECORD—Roberta Cowell, a male R.A.F. pilot before undergoing a sex change five years ago, has announced plans to try for a transatlantic speed record. Miss Cowell, who was Spitfire pilot and racing driver Robert Cowell (above) before the change, will fly a Mosquito bomber from Africa to Brazil.

OLD AND NEW—Painted white for the grand occasion, an antique baby carriage is used in Arlington, Va., to announce a modern blessed event. Mr. and Mrs. Frank R. Reutimans placed it on the lawn when their eldest daughter gave birth to a girl on their silver wedding anniversary. Sign says: "It's a girl—Karen Sue."
