### New Winter Polio Shots Campaign Being Planned

WASHINGTON (AP)—A new winter campaign aimed at revitalizing the polio vaccination program was announced today by Secretary of Welfare Flemming.

It is very disturbing, Flemming said, that in the six states most seriously hit this year—Michigan, New Jersey, Texas, West Virginia, Virginia and California—the majority of paralytic cases, or 416 out of 781, were among children under 5.

He called attention to public health service statistics showing 1,815 cases of paralytic polio during the first nine months of this year, 238 more than in the same period for 1957.

But he said the paralytic increase is no reflection on the efficiency of the vaccine. There is no evidence that properly vaccinated persons are losing their immunity, he added.
