

Eisenhower Carries Offensive Into Midwest Area

2 The News-Review, Roseburg, Ore. — Wed. Oct. 22, 1958

Ex-President Truman Seeks To Label Foreign Policy As 'Blunder, Bluster, Brink'

By ERNEST B. VACCARO
WILMINGTON, Del. (AP) — Harry S. Truman sought to label Eisenhower-Dulles foreign policy today as one of "blunder, bluster and brink of war."

The former President also dubbed Vice President Nixon the "chief henchman" for the Republicans. He said Nixon is trying to help the GOP candidates by using "verbal garbage."

Truman said this and more of Eisenhower and Nixon as he carried his Democratic campaign from Pennsylvania into Delaware.

In an address prepared for a Democratic rally, he spoke scornfully of Eisenhower's claim of running a "sound government."

"A 'sound' government to the

Republicans," the 74-year-old Democratic campaigner argued, "is the kind of government in which the President makes nice sounds while the vice president snarls."

Can't Make Up Minds

And he added the Republicans can't make up their minds whether to aim their campaign "at the reactionaries for their money or the liberals for their votes."

Nixon, Truman said, admits the Republicans are doomed to inevitable defeat unless they charge that the Democrats "are dedicated to socialism at home and warmongering abroad."

The voters, he said, "are not going to fall for that kind of verbal garbage again."

Truman was in top campaign form at a rally in New Castle, Pa., Tuesday night. He got a welcome one earlier in the day that rivaled some of his 1948 campaign appearances. He is flying into New York this afternoon to do some extra campaigning for Democratic Gov. Averell Harriman in his vigorously contested race for re-election against Nelson Rockefeller.

Charges Surrender

In his speech Tuesday night Truman again charged that President Eisenhower had "surrendered to the Communists" in reaching an armistice in the Korean fighting.

"We are paying the fiddler right now for doing it," he said. Truman has contended he could have made the same agreement under the same terms years before. But he didn't do so, he said, because he knew what would happen—Red Chinese troops would be freed to exert pressures elsewhere.

The ex-President took note of differences between Sen. William F. Knowland (R-Calif.), candidate for governor of California, and GOP Gov. Goodwin Knight, seeking Knowland's Senate seat—differences President Eisenhower has sought to patch up.

"In one state," Truman said, "the Republican candidate for the Senate is not even supporting the Republican candidate for governor."

Mrs. Ernest Pruitt, Winston; Mrs. Ralph Moore, Dillard; Steven McAllister, Roseburg.

Truman Claims Ike Talks Soft, Nixon Snarls

By THE ASSOCIATED PRESS
President Eisenhower carried his vote-Republican offensive into the Midwest today after raking the Democrats in a California foray. Former President Truman said Eisenhower and Vice President Nixon are jittery over election prospects.

Eisenhower flew to Chicago Tuesday night from San Francisco, where he blamed Democrats in Congress for preventing enactment of his proposals to "furnigate" corruptly run labor unions.

The President also said Democrats have given impetus to what he called a "dangerous drift toward centralization" of government.

Speak On Television

He was billed to make a coast-to-coast televised speech from Chicago tonight on behalf of Republican candidates for Congress. Truman was due in Wilmington, Del., to beat the drums for Democratic candidates.

In a speech prepared for a rally at the Delaware city, Truman scoffed at Eisenhower's talk of running a sound government.

"He said, 'A sound' government to the Republicans is the kind of government in which the President makes nice sounds while the vice president snarls."

Truman said the Eisenhower administration was responsible for heavy unemployment, record living costs, a drop in farm income, a big federal deficit, dangerous delays in defense buildup and what he called "a decay of our world position through blunder, bluster, and brinkmanship."

The former President has cautioned Democrats to run scared. But he seemed to ignore his own advice Tuesday night. He told a party dinner at New Castle, Pa., that the Nov. 4 election will bring the biggest Democratic landslide since 1932.

Truman said he had been asked if the Democrats had the jitters because Eisenhower and Nixon were on the campaign trail. It's Eisenhower and Nixon who have the jitters, the 74-year-old Democratic leader said.

Truman accused Eisenhower of having "surrendered to the Communists" in the armistice which ended fighting in Korea.

He was renewing—in sharper words—his contention that he could have had agreement on the same terms years earlier.

Truman said he didn't do it because he knew the result would be to free Communist forces to apply pressures elsewhere.

Referring to the trouble in the Formosa Strait, Truman told his New Castle audience:

"We are paying the fiddler right now for doing it."

Nixon, whose stumping has taken him across the country, was bound for New England today, with stops scheduled in Hartford, Conn., Burlington, Vt., and Providence, R.I.

Speaking in Baltimore Tuesday night, Nixon moved to woo what he described as Democratic moderates who back Eisenhower foreign policies.

Dulles, Chiang Hold Talks For Second Day

(Continued From Page One)

secretary of state for Far Eastern affairs and No. 2 American in the talks, took pains at a news conference to deny rumors of a rift during the session.

The rumors were reported circulated by low-level Nationalist officials who fear the United States wants Chiang to reduce his garrisons on the offshore islands.

Robertson said that in the face of the renewed Communist offensive "I doubt whether the President or secretary would recommend reducing troops on the offshore islands."

President Eisenhower's and Dulles' criticism of the manpower maintained in the Quemoy islands garrisons was strictly from a military point of view, Robertson asserted.

Nixon Claims Rising Economy Biggest Factor

HARTFORD, Conn. (AP)—Vice President Nixon today called a rising economy the greatest single factor in what he predicted may be a surprising election victory for Republicans.

Campaigning in New England, Nixon told a news conference here he believes Democratic prospects reached their peak two weeks ago and that the GOP is moving in to carve out some upsets in senatorial and House races.

"If we can keep the pressure on, we are going places," Nixon said. "The President has given us momentum, and the pollsters may be in for a surprise on election day."

Nixon has been predicting that the current quarter of the year economically will be "the best in American history."

This forecast obviously is based on the estimates of some government economists that the national output of goods and services may reach a 450-billion-dollar rate in the quarter.

The rising economy has become the major single factor in the Republican upturn, particularly in the East and the Midwest in the industrial states," Nixon said.

BLM's Timber Sale Program To Be Reviewed

The Bureau of Land Management's timber sale program in the Roseburg District for the 18 months ending June 30, 1960, will be reviewed Nov. 5 in a meeting of timber operators, industry associations and the public.

Virgil Heath, Oregon BLM supervisor, and his staff will be at the meeting, which will start at 1 p.m. in the conference room of the district office, 2383 W. Harvard Ave.

District Manager Merle Winn said the district access road program for the calendar year 1959 also will be discussed.

Winn said the meeting will be informative in nature. The district staff will answer questions about the BLM programs on O&C lands in Douglas County. Opportunity also will be made for the public to make known its desires and interests.

This will be the second such meeting conducted by the Roseburg staff, the first having been held in November 1957.

Winn commented that timber sale receipts in lieu of taxes will pay for more than half of Douglas County's expenditures in the current fiscal year. The County Court received a federal Treasury check last month for \$2,755,951.89 as the county's share of O&C receipts of the past year.

The 18-month timber sale plan is being organized under a new BLM policy of conducting its timber activities on a fiscal, rather than calendar, year basis.

Herman Sprenger Dies Tuesday In Canyonville

Herman Carl Sprenger, 75, of Myrtle Creek, died Tuesday afternoon at a Canyonville hospital.

Sprenger was born April 6, 1885, at Medford, N.J. He had resided in the Myrtle Creek area two months, moving there from Pennsylvania. He was employed in Oakes, Penn., before moving to Myrtle Creek. Sprenger was a member of the Trappe, Penn., Lutheran Church.

Survivors, besides the wife, Eva, are a stepdaughter, Mrs. James Bailey, Myrtle Creek; brother, Carl Sprenger of Spring City, Pa.; and a sister, Ida Sprenger of Royersford, Pa.

Services will be held at the First Christian Church in Myrtle Creek Friday at 10:30 a.m. Vault interment will follow in the Myrtle Creek IOOF Cemetery. The Rev. John Meyers of the church will officiate. Arrangements are in charge of Ganz Mortuary, Myrtle Creek.

Bank Forum Is Slated Next Wednesday Night

The United States National Bank will hold its annual trust and estate forum next Wednesday night instead of tonight as reported in Tuesday's News-Review. The meeting will be at 7:30 p.m. in the Umpqua Hotel.

Speakers will be J. D. Bird, H. E. Butler and G. M. Trethewey, all trust officers of the bank's head office in Portland. The forum discussions will be on management and economy through planning; disadvantages of joint ownership and effects of wills.

A question and answer period will follow each topic. This will mark the ninth year for the state forums.

Purple Heart Army Sergeant Found Guilty

FT. JEFFERSON, S. C. (AP) — A Purple Heart Army sergeant, convicted of mistreating recruits, says, "I still think I was right. Everyone of those trainees who testified was a problem child."

M. Sgt. George Sovie, 30, of Ogdenburg, N.Y., was convicted by a general court-martial board Tuesday of five of seven specific charges of assault and battery and recruit mistreatment.

He received a relatively light sentence—reduction one grade to sergeant first class and forfeiture of \$75 a month of his pay for six months. Maximum penalty could have been 4 1/2 years imprisonment, dishonorable discharge and forfeiture of all allowances and pay.

Sovie said he hoped his next assignment would be with a combat unit. He holds a Bronze Star for action in Korea.

He was convicted of having a trainee dipped head first into a mess hall grease trap, striking and kicking other trainees, forcing two trainees to eat dollar bills, and requiring other recruits to hold heavy footlockers over their heads for up to 20 minutes.

The board of officers and sergeants acquitted him of kicking or striking and of forcing six others to go through a footlocker drill.

Two other general courts-martial are planned in mistreatment cases. Sgt. I. C. Charles Noman, 28, Empire, Ala., is expected to face one sometime this week.

Another, Sgt. J. M. Gerald Whalley, Bridgeton, N.J., will go before a general court-martial on charges of neglect of duty and actions unbecoming an officer.

British, Italian Planes Collide, 30 Persons Die

(Continued From Page One)

ported weather in the area was clear.

The shattered British plane crashed into an Italian artillery testing ground and only about 200 yards from an explosives dump.

Cosimo Baggialemani, 33, of nearby Nettuno, who was picking mushrooms, said he heard an explosion.

Looking up, he saw flames and then bits of wreckage fell around him.

One wing was about 600 feet from the smashed part of the fuselage. Part of the tail was 1,000 feet away.

The airliner carried 25 passengers and a crew of 5.

Witnesses said the military plane continued its flight for a second after the collision, then nosed over as the pilot, Capt. Giovanni Savorelli, bailed out.

Crash crews were rushed from Rome's Ciampino airfield to this small fishing port where British and U. S. troops landed in World War II.

Auto In Garage Damaged By Fire

Damage estimated between \$600 and \$700 was done to the 1953 model automobile of Darrel Monteith, 237 W. Berdine St., Tuesday night when the car caught fire while parked in the garage, Roseburg Fire Chief W. E. (Dutch) Mills said.

The inside of the car was gutted. Cause of the blaze is unknown and being investigated today by firemen said. Monteith towed the burning car out of the garage before firemen arrived.

The fire siren on top of the main fire station at Main St. and Oak Ave. stuck and blew for an unusually long time. A switch was pulled to shut off power to the alarm. It was being fixed today, Mills said.

Chamber Hits Snag In Solicitation Control

(Continued From Page One)

to be making a conscientious effort to control solicitations on an equitable basis.

Yule Expenditure Okayed

In other business, the board also approved expenditure of \$200 for Christmas street decorations in Roseburg this year. The amount will be added to a budget of \$300 earmarked for the purpose by the Retail Merchants Division of the chamber.

The board also decided to have representatives to attend the state Water Resources Board hearing at the courthouse Thursday and to have a delegation to meet members of the Astoria Chamber of Commerce who are to visit Roseburg Thursday at 10 a.m. They will meet the Astorians at the Umpqua Hotel.

Finally, the board appointed Chamber Manager Harold Reume to be speaker at the next meeting of the Douglas County Interagency Council meeting Nov. 6 at 9:30 a.m.

Roseburg Church Guild To Hold Dinner Meeting

The Elizabeth Heinline Wesleyan Guild of the Methodist Church will have a 6 p.m. dinner meeting at the Swedish Dining Room Monday. Reservations may be made before Thursday by contacting Laura A. Grubb, president. Members will attend the community concert.

Once-Vicious Northeaster Tames Down

CAPE HATTERAS, N. C. (AP) — A once-vicious northeaster, which lashed North Carolina's coast Tuesday, had tamed down today and was about 100 miles southeast of Myrtle Beach, S.C.

The Weather Bureau said it appeared that the storm would remain stationary off the South Carolina coast and might wear itself out there.

The storm moved off the North Carolina coast Tuesday night. It had lashed the coastline for more than 24 hours with damaging results.

The northeaster lashed some areas with winds that reached 75 miles an hour (hurricane force), piling up flood tides across ocean-side highways, up inland rivers and into some coastal communities.

Heavy flooding was reported at New Bern, Morehead City, Beaufort, Manteo and several beach resorts along a 100-mile stretch of coast line.

Four Atlantic Fleet destroyers caught in offshore waves that reached 25 feet were buffeted and damaged.

At least seven traffic deaths were blamed on the storm in the Wilmington area.

Hospital Escapee Under Maximum Security Today

SALEM (AP) — The husky young Portlander who fled the state hospital Sunday and was held today under maximum security at the hospital.

He is Larry Molstrom, 18, who had been under observation at the hospital after he had been captured the night-time slinger of several women on Portland streets.

Oddly, one of the men who figured in his recapture Tuesday was Norman Wilson, who usually does his tracking with bloodhounds.

Wilson, a Polk County sheriff's deputy, and Al Shannon, a special deputy, noticed a hitchhiker on the Baldock Freeway as they drove to Portland. They picked him up and thought he answered the description of Molstrom.

Wilson told Shannon to be sure to remind him to call his wife as soon as they got near a phone.

"I knew he was throwing the boy off guard and was really going to call police," Shannon said. So he stopped at Tualatin and Wilson phoned state police, telling them they would stop at a cafe.

A little while later, state policeman James Bauman walked in and arrested Molstrom. There was no resistance. Molstrom was lodged in the county jail at Hillsboro until afternoon when hospital authorities retrieved him.

Officer Shoots Oakland Man In Arrest Fracas

(Continued From Page One)

were struck across the officer's neck and shoulders.

Fiener struggled with Brown for a short time, then drew his gun and fired two warning shots into the ground. He aimed the third shot at Brown's body, and his assailant went down.

Four eye-witnesses substantiated Fiener's story. Others at the accident scene saw the start of the incident, adding that Brown's car nearly hit one man who was trying to control traffic and turned another car onto the highway shoulder.

Reports from the hospital indicated that Brown put up a further fight when he was taken in for treatment. The sheriff's office placed a guard on the Oakland man.

At state police headquarters, Fiener displayed a welter of bruises where he had been struck by the pipe.

State police this morning charged Brown with driving while intoxicated. A complaint charging him with failure to leave name at an accident scene also was prepared in the district attorney's office, and charges were committed.

Held in evidence were a partially consumed pint of vodka, two empty beer stubbies and two more still unopened. All were found in Brown's car.

Police also had the length of pipe with which Fiener was struck. It had been creased by a bullet.

Army's Missile Chief Critical Of New Agency

By C. YATES MCDANIEL
WASHINGTON (AP) — The Army's missile chief said bluntly today that this is no time to surrender its best scientific brains and resources to the new Civilian Space Administration.

This widely-held Army view, hitherto muted by Pentagon policy restrictions, was voiced by Maj. Gen. John B. Medaris, chief of the Ordnance Command at Huntsville, Ala.

Medaris told the Army Assn. convention "there is a time to paddle and a time not to rock the boat."

His comment came in response to a question from the floor asking the Army's opinion of the Space Administration's announced proposal to absorb some 2,100 top Army scientists and engineers and the Army's key missile and space laboratories.

Medaris said any effort to divide what he called the Army's patiently built-up scientific team, including top German scientists, would interfere with the momentum gained.

"If this momentum is interfered with for any reason," he added, "the results will not be so good."

The proposal by Dr. Keith Glennan, the new civilian space administrator, to absorb the Army scientists and laboratory facilities is one to be decided at the White House, President Eisenhower told a news conference a week ago that he was having studies made of what missile facilities should be transferred to the civilian agency.

In another speech to the association, the Army's chief of research and development, Lt. Gen. Arthur Trudeau, called for a vigorous push in the field of chemical and germ warfare.

Trudeau said defense against chemical and biological agents was most vital because of "indications of Russian intent to employ some or all of them in war."

Dr. Ernst Stuhlinger of the Army Ballistic Missile Agency told the association that the first space man must cruise within 600 miles of the earth or go up more than 2,000 miles to escape a layer of deadly cosmic radiation.

Youth Committed To MacLaren School For Boys

A 15-year-old rural Dillard youth has been committed to MacLaren School for Boys by Juvenile Judge Charles S. Woodrich for violation of his probation.

Last week he was picked up by authorities and cited for taking and using an automobile without the owner's consent. The following day a stolen tire was traced to him.

The youth was placed on probation in September of 1957 by the juvenile judge after being implicated in the burglary of a building in Canyonville. He was still under court jurisdiction when the other offenses were committed.

However, Judge Woodrich placed two Winston boys, ages 13 and 15, on probation Monday. They were cited into juvenile court for taking a car in Roseburg last month and driving it to Bondan where they were apprehended.

Investigating officers reported the vehicle was driven over the old Wagon Road to the coast, causing considerable damage. In granting probation, Judge Woodrich ordered each youth to make restitution for damages in the sum of \$50.

World May Know Sunday The Name Of The New Pope

By FRANK BRUTTO
VATICAN CITY (AP) — The world may know Sunday the name of the new Pope of the Roman Catholic Church.

Cardinals of the church, now gathered here from all parts of the world, will enter into secret conclave Saturday afternoon to elect the successor to Pope Pius XII.

They are expected to cast their first ballot Sunday morning, and election of the 62nd Pope and sovereign of this tiny state could be quick.

The cardinals will vote twice in the morning. If no candidate receives the required two thirds plus one, two more ballots will be taken in the afternoon. When the pontiff has been elected, a white smoke signal produced by burning the ballots will rise from the window of the Sistine Chapel.

There are now 51 of the 54 cardinals of the Sacred College here or in Italy, and 48 met to continue preparations for the conclave.

Fifty-two cardinals are expected to be here. The last one who announced that he would come for the conclave is Thomas Cardinal Tien, an exile from Red China who was injured in an automobile accident in West Germany. The 68-year-old Chinese is expected to arrive later this week.

Two cardinals not expected to come for the conclave are Alojzije Cardinal Stepinac of Yugoslavia, a sick man, and Josef Cardinal Mindszenty of Hungary, in asylum in the U.S. Legation in Budapest.

FATAL HEART ATTACK

JOHN DAY, Ore. (AP)—George Wetli, 65-year-old Portland hunter, suffered a fatal heart attack Tuesday a few minutes after he had shot a deer.

He was the seventh heart attack victim of the Oregon hunting season.
