Strikeout King Of Congress?

PORTER INTRODUCED 76 BILLS; ONLY TWO PASSED CONGRESS!

Here is Mr. Porter's "Batting Average": 76 bills introduced in Congress... no action taken on at least 66 of them... only two passed!

What's the reason? Is he held in such low esteem by his colleagues that they won't consider his bills? Did the bills have so little merit that they were not worth considering? Was he too busy in other parts of the world to do the work necessary to get his bills passed?

76 times at bat and two scratch hits make a pretty low batting average. It's time a major leaguer went to bat for the 4th District!

SUPER SHELL
GASOLINE

SUPER SHELL with TCP
is the most powerful gasoline
any car can use

ANTI-KNOCK Super Shell gasoline has an octane rating so high that it fulfills the requirements of all the latest model cars... so high that your car's engine can't possibly knock unless it's out of tune.

+TCP But to get all the performance you paid for, you need a gasoline with more than just high

octane. That's why Super Shell has TCP. This exclusive Shell-developed additive stops spark plug "miss"—today's biggest cause of power loss. TCP also stops pre-firing and piston pounding.

+ECONOMY Because it has TCP plus special power ingredients, Super Shell gives you more miles per gallon than gasoline costing more.
