

Higher Education Budget Request Cut By \$6.6 Million

SALEM (AP)—The state Board of Higher Education's record \$60,679,000 budget request was cut by 6.6 million dollars today.

The cut was made by the state Department of Finance and Administration, which indicated it might cut it even more before it is submitted to the Legislature.

The request is for the two years beginning next July 1. It is 30 per cent greater than the appropriation for the current biennium.

Gov. Robert D. Holmes told the board:

"I am operating on a clear mandate from the voters of Oregon for economy and no new taxes."

The governor added that it would be impossible to provide new buildings for the university, colleges and institutions without getting the people to approve a bond issue for this purpose.

The proposed 6.6-million dollar cut would eliminate many proposed salary increases, as well as requests for more faculty members to meet increased enrollments.

A spokesman for the board said:

"We don't think this is in any way an extravagant budget. It is based on the assumption that steady increases in enrollment will continue, that prices of supplies and equipment will increase, and that faculty salaries must be kept on a competitive basis."

Russia May Beat U.S. With Atomic Powered Plane

WASHINGTON (AP)—Russia is given an even chance of beating the United States into the sky with an atomic powered airplane—possibly before the end of the year.

However, the director of the Pentagon's program for development of nuclear powered aircraft says this country is on the threshold of success in building an atomic plane.

Mr. J. Edgar Hoover, U.S. Air Force Maj. Gen. Donald J. Keirn says if the Russians do win the race, the airplane they use might not be "too sophisticated"—that is, relatively crude.

Keirn expressed these views Thursday in talks to reporters and an ordnance group meeting.

He indicated that by using an atomic power plant in a conventional plane, the Russians might manage a nuclear flight before the end of the year or early next year.

But he made it clear the U.S. Air Force wants an airplane specifically designed for atomic power and capable of virtually unlimited range at supersonic speed.

Keirn added that the Air Force "will soon be ready to embark" on a flight testing program of an atomic plane.

Hammarskjöld Pulling Observers From Lebanon

UNITED NATIONS, N.Y. (AP)—Secretary General Dag Hammarskjöld announced here he is pulling the U.N. military observer group out of Lebanon.

His action followed the receipt of a report from the 391-man group declaring that its presence was no longer necessary in view of the improved relations between Lebanon and the United Arab Republic.

He also had a letter from Lebanese Foreign Minister Hussein Ouéini asking that the Security Council drop the complaint filed last spring by the government of President Chamoun against the U.A.R.

Associated Press News Editor Dies

NEW ROCHELLE, N.Y. (AP)—Paul R. Mickelson, 59, general news editor of The Associated Press, died today in New Rochelle Hospital.

He was stricken Thursday. The nature of his ailment was not immediately ascertained.

Last week, Mickelson attended a meeting of The Associated Press Managing Editors Assn. at French Lick, Ind. Returning to his desk in New York, he had worked through Wednesday.

Mickelson had spent his entire career as a newsman with The AP, which he joined in Chicago in March 1922. He served in a number of AP bureaus, as a sports writer, general newsman and executive, before being named general news editor April 7, 1944.

Associates and others in the profession knew him as a man of keen news judgment as well as the possessor of an engaging personality and rare wit.

He covered many national sports events and was the creator of a popular AP sports column, the "Sports Trail." Frequently, he signed himself "The Old Professor."

Grass Roots Officials Must Admit Taxes Are Going Up Says Senator Neuberger

PORTLAND (AP)—Grass roots officials would be less than honest unless they admit taxes are going up, Sen. Richard L. Neuberger (D-Ore) told the Assn. of Oregon Counties Thursday.

Promises of tax cuts are "political demagoguery," the state's junior senator declared.

"The stern hard truth is that taxes are going to go up," Neuberger said, "and it is of the utmost responsibility for officials to tell you they are going to be cut in the face of Russia's challenge to this nation's existence."

If not one single new student shows up in Oregon's schools next year inflation alone will increase government cost three per cent, he said.

And the state, he added, will have to raise 20 million dollars in matching funds for the federal highway aid program if it is to get 70 million dollars for primary and secondary roads.

Neuberger said he opposed deficit spending for highways and supported President Eisenhower's plan to raise gasoline taxes one to two and one-half cents above the three-cent a gallon tax level to make the motorist pay for the roads.

He said he favored Oregon

Fri. Nov. 21, 1958—The News-Review, Roseburg, Ore. 3

matching the federal funds through increased gasoline taxes rather than through bond issues that would shift the debt to future generations.

"That is why I hope, that in his campaign promises not to increase any state taxes, Gov. Hatfield did not foreclose his future administration from effectively following through on Oregon's share of the highway program," he said.

Neuberger said manufacturing is concentrated heavily in eight states providing their governments with vast tax sums, some of which should be distributed among other states by the federal government.

"The inadequacy of local tax sources, rather than any congressional wish to expand the federal government, is also the reason why federal financial assistance is needed for such things as schools and water pollution," he added.

Merchant Marine Sailor Fined For Drunkenness

A merchant marine sailor, 47-year-old Ray Woodrow England of Sacramento, Calif., was fined \$20 and costs Thursday in district court by Judge Warren A. Woodruff for being drunk on a highway.

He pleaded guilty to the charge, filed Wednesday night by state police after the sailor was picked up while wandering aimlessly down the middle of Highway 99RB outside Roseburg.
